Cristina T. Chaplain

Ms. Chaplain currently serves as a Director, Acquisition and Sourcing Management, at the U.S. Government Accountability Office. She has responsibility for GAO assessments of military space acquisitions, NASA, and the Missile Defense Agency. She has recently led reviews on Defense weather satellites, the Global Positioning System, communications satellites, future space architectures, the Evolved Expendable Launch Vehicle, satellite user terminals, NASA's major space programs, and the James Webb telescope. She has also led a variety of other contracting-related and best practice evaluations for the GAO. Before her current position, Ms. Chaplain worked with GAO's financial management and information technology teams. Ms. Chaplain has been with the GAO for 25 years. She received a bachelor's degree, magna cum laude, in International Relations from Boston University and a Masters Degree in Journalism from Columbia University.
