TITLE VIII—ACQUISITION POLICY, ACQUISITION MANAGEMENT, AND RELATED MATTERS

SEC. 800. SENSE OF CONGRESS ON THE DESIRED TENETS OF THE DEFENSE ACQUISITION SYSTEM.

(a) Findings.—Congress finds the following:
(1) The Committee on Armed Services of the House of Representatives held a series of hearings in 2013, 2014, and 2015 gathering testimony from key acquisition leaders and experts. It is clear that the acquisition reform efforts of the last 50 years continue to founder because they fail to address the motivational and environmental factors in which they must be implemented. The acquisition system, though frustrating to all, is in one sense in equilibrium. The acquisition system provides enough benefits to proponents and opponents to continue, with only minor changes, despite its shortcomings.

(2) The Armed Forces continue to pursue too many defense acquisitions, chasing too few dollars. Consequently, there remains a vast difference between the budgeting plans of the Department and the reality of the cost of its systems or the services it acquires.

(3) To keep programs alive, the Department develops and Congress accepts fragile acquisition strategies that downplay technical issues and assume only successful outcomes from high-risk efforts. As a result, the Department often ends up with too few weapons, with performance that falls short, that are difficult and costly to maintain, delivered late at too
high a cost. Congressional and Department of Defense leadership have limited insight into the services acquired or what services need to be acquired in the future. Furthermore, the conventional acquisition process is not agile enough for today’s demands. Finally, the Department of Defense continues to struggle with financial management and auditability, affecting its ability to control costs, ensure basic accountability, anticipate future costs and claims on the budget, and measure performance.

(4) Too often today, all stakeholders in the Department of Defense, Congress, and industry, accept that—

(A) for the acquisition process, success is defined as maximizing technical performance or protecting organizational interests, without regard to funding disruptions and delivery delays of needed capability or services to the warfighter; and

(B) the acquisition process is—

(i) reactive, meaning issues are addressed late and at great cost only after problems are realized;
(ii) plodding, meaning the bureaucratic processes are sclerotic and cumbersome;

(iii) opaque, meaning that limiting information is necessary to protect programs; and

(iv) traditional, meaning that customary approaches and suppliers are preferred over perceived risk of new or unique concepts and vendors.

(5) Today, the United States is at a crossroads, and if changes to the acquisition system are not made soon, the trend of fewer and more costly systems and services that fall short of the needs of the Armed Forces will continue. Congress, the Department of Defense, and industry all have a stake in making positive changes. Each plays a role in contributing to the current system. Each gains benefits from that system, but each is frustrated by it as well.

(6) The acquisition improvement effort of the Committee on Armed Services of the House of Representatives proposes a different approach from previous efforts by seeking to improve the environment (i.e., statutes, regulations, processes, and culture)
driving acquisition decisions in the Department of Defense, industry, and Congress. The Committee has solicited input from industry and the Department of Defense, as well as others in Congress, and will continue to do so. The Committee recognizes that there are no “silver bullets” that can immediately fix the current acquisition system in a holistic and long-standing manner. Therefore, the reform effort will be an ongoing and iterative process that will result in legislation not only this year, but will be embedded in the Committee’s annual and regular work.

(b) SENSE OF CONGRESS ON THE TENETS OF AN IMPROVED ACQUISITION SYSTEM.—It is the sense of Congress that all stakeholders in the acquisition system—the Department of Defense, Congress, and industry—should be governed by the following tenets:

(1) SUCCESS.—Success in the acquisition system means the timely delivery of affordable and effective military equipment and services.

(2) PROACTIVE.—The acquisition system should be proactive, meaning—

(A) the system should recognize that development and acquisition problems can occur; and
(B) officials at all levels should be empowered to solve problems and reduce risks by surfacing issues early and honestly and taking action to resolve them.

(3) AGILE.—The acquisition system should be agile, meaning that needed program adjustments to both respond to emerging threats and the rapid pace of technological change and to address development or production issues should be proposed and adjudicated quickly.

(4) TRANSPARENT.—The acquisition system should be transparent, meaning that—

(A) all decision makers should be given useful, relevant, credible, and reliable information when making commitments;

(B) Government and industry communication should be clear and open; and

(C) the Department of Defense should produce auditable financial management statements.

(5) INNOVATIVE.—The acquisition system should be innovative, meaning that barriers should be removed that preclude companies from undertaking defense business or officials from proposing new approaches.

Subtitle C—Weapon Systems Acquisition and Related Matters

SEC. 821. SENSE OF CONGRESS ON THE DESIRED CHARACTERISTICS FOR THE WEAPON SYSTEMS ACQUISITION SYSTEM.

(a) FINDINGS.—Congress makes the following findings:

(1) CURRENT SITUATION.—Despite significant and repeated attempts at acquisition reform, the Department of Defense still experiences case after case of expensive weapon system acquisition failures. The Department of Defense has a track record of too many cancellations, schedule slippages, cost over-
runs, and failures to deliver timely solutions to the requirements of the Armed Forces. This situation is unacceptable. For example, according to the Final Report of the 2010 Army Acquisition Review, between 1996 and 2010, the Army expended approximately $1 billion to $3 billion annually on two dozen programs that were eventually cancelled. No military service and no type of weapon acquisition has been immune.

(2) Problems in All Phases of Acquisitions.—

(A) Despite detailed weapon acquisition processes and procedures, there is only limited discipline in starting programs. Many programs begin without a solid foundation. They have too many requirements deemed “critical”, which are driven by too many organizations and individuals. Approved requirements are often set with only a limited understanding of the technical feasibility of achieving them. The resulting compromises of good program management and engineering judgment that allow the programs to proceed are the “spackle” of the acquisition system that covers up the risks and enables the system to operate.
(B) As these weapon systems proceed into engineering and manufacturing development, they often encounter development problems leading to cost growth, schedule delay, and performance reductions. Industry and Government officials frequently respond by taking additional development risks to resolve basic performance issues by reducing the time to analyze and assess development results, overlapping key development efforts, and reducing testing. The Department of Defense and Congress disrupt the planned funding of stable programs to find resources for troubled programs or to fund across-the-board spending cuts. Funding instability is the inevitable price that programs pay for survival because funding disruptions actually keep more programs alive.

(C) Finally, these weapons are often rushed into production only to encounter production problems, and are fielded with many unknowns or deficiencies leading to significantly reduced quantities and force structure reductions. The warfighter faces the challenge of operating weapons with poor reliability, high
maintenance demands, reduced performance, and many capability shortfalls.

(b) **SENSE OF CONGRESS.—**

(1) **IN GENERAL.—** It is the sense of Congress that, in accordance with the tenets described in section 800, to improve weapon system acquisitions, the Department of Defense, Congress, and industry should develop an acquisition system characterized by highly disciplined program initiation coupled with agile program execution and balanced oversight, as described in paragraphs (2), (3), and (4).

(2) **HIGHLY DISCIPLINED PROGRAM INITIATION.—** An acquisition system characterized by highly disciplined program initiation means that programs do not begin engineering development until firm requirements are matched to a flexible acquisition strategy structured to develop militarily useful capability that can be delivered in a relevant period of time with available technologies, funding, and management capacity. Such a highly disciplined program initiation includes—

(A) a workforce with smart requirements setters and expert buyers, with the knowledge, skills, and experience to successfully plan for and execute highly complex acquisitions;
(B) requirements that are well-defined, technically feasible, and affordable;

(C) acquisition strategies that are designed to minimize time to market of militarily useful capability, with the program concerned being structured so that—

(i) lower-risk, technically mature capabilities are matched to delivering capability to the warfighter in the near term, while remaining requirements are aligned and resources are programmed to support integration into later increments to meet the requirements of the Armed Forces;

(ii) capabilities are approved for an increment only when their developmental risks have been appropriately reduced; and

(iii) increments are planned to complete engineering and manufacturing development in a reasonable period of time;

(D) a science and technology development enterprise that is responsive to the acquisition process before engineering and manufacturing development begins, and sufficiently resourced to reduce risks and enable programs to make
smart decisions without losing critical funds;
and

(E) redtape reduction in order to free up program and Department officials to focus on their mission of defining an executable program and understanding and addressing risks.

(3) Agile Program Execution.—An acquisition system characterized by agile program execution means a system in which acquisition speed and flexibility to make trade-offs are balanced with the need to achieve desired technical performance. Such agile program execution includes—

(A) program managers and program officials who are expert buyers and negotiators who anticipate problems, negotiate solutions, and are empowered to manage;

(B) a preference for fixed price contracting where appropriate for the size and complexity of the work and for the nature and scope of the capabilities being developed;

(C) program managers who avoid increasing program risk by resisting the addition of new requirements or the reduction of developmental activities;
(D) empowering program managers and
senior decisionmakers to make decisions easily
in order to move forward with capabilities that
mature quickly, cancel those that encounter
greater difficulties than expected, and trade-off
or reduce requirements to maintain cost and
schedule;

(E) enabling program managers to focus
on overcoming execution challenges and deliv-
ering success rather than concentrating on com-
pliance with reporting, certifications, and other
redtape; and

(F) senior decisionmakers who have knowl-
edge of demonstrated performance as programs
proceed through development, with robust de-
velopmental testing occurring before committing
to production for operational use as a basis for
decision making.

(4) BALANCED OVERSIGHT.—An acquisition
system characterized by balanced oversight means
that the focus is on ensuring discipline initiating
programs and that appropriate adjustments are
made during development, so that programs have
the best chance to succeed. Such balanced oversight
includes—
(A) involvement by decisionmakers early to ensure that an understanding of trade-offs, risks, and needs are considered, resourced, and validated, and that agreement is reached between the executive and legislative branches;

(B) acceptance by decisionmakers that complex weapon system developments are inherently risky and require expertise and flexibility to manage effectively;

(C) conscious decisions by decisionmakers regarding where to accept risk, while ensuring that risk mitigation plans are resourced (with time, funding, alternatives, and competent government and contractor officials);

(D) measuring and monitoring by decisionmakers of the right factors, such as technology maturation progress and systems engineering during risk reduction, development cost growth during engineering and manufacturing development, and reliability growth during system demonstration;

(E) work by Congress and the Department of Defense, once a program has begun, to resolve issues by considering trade-offs among
cost, schedule, and performance necessary to best support the warfighter; and

(F) congressional understanding of risks and efforts to mitigate such risks even if they are through non-traditional means or other technological advances.

SEC. 903. UPDATE OF STATUTORY SPECIFICATION OF FUNCTIONS OF THE CHAIRMAN OF THE JOINT CHIEFS OF STAFF RELATING TO JOINT FORCE DEVELOPMENT ACTIVITIES.

Section 153(a)(5) of title 10, United States Code, is amended by adding at the end the following new subparagraph:

“(F) Advising the Secretary on development of joint command, control, communications, and cyber capability, including integration and interoperability of such capability, through requirements, integrated architectures, data standards, and assessments.”.

SEC. 904. SENSE OF CONGRESS ON THE UNITED STATES MARINE CORPS.

(a) FINDINGS.—Congress finds the following:
(1) As senior United States statesman Dr. Henry Kissinger wrote in testimony submitted to the Senate Armed Services Committee on January 29, 2015, “The United States has not faced a more diverse and complex array of crises since the end of the Second World War.”

(2) The rise of non-state forces and near peer competitors has introduced destabilizing pressures around the globe.

(3) Advances in information and weapons technology have reduced the time available for the United States to prepare for and respond to crises against both known and unknown threats.

(4) The importance of the maritime domain cannot be overstated. As acknowledged in the March 2015 Navy, Marine Corps, and Coast Guard maritime strategy, “A Cooperative Strategy for 21st Century Seapower”: “Oceans are the lifeblood of the interconnected global community. . . 90 percent of trade by volume travels across the oceans. Approximately 70 percent of the world’s population lives within 100 miles of the coastline.”

(5) The United States must be prepared to rapidly respond to crises around the world regardless of the nation’s fiscal health.
(6) In this global security environment, it is critical that the nation possess a maritime force whose mission and ethos is readiness—a fight tonight force, forward deployed, that can respond immediately to emergent crises across the full range of military operations around the globe either from the sea or home station.

(7) The need for such a force was recognized by the 82nd Congress after the major wars of the twentieth century, when it mandated a core mission for the nation’s leanest force—the Marine Corps—to be most ready when the nation is least ready.

(b) SENSE OF CONGRESS.—

(1) It is the sense of Congress that—

(A) the Marine Corps, within the Department of the Navy, remain the Nation’s expeditionary, crisis response force;

(B) the need for such a force with such a capability has never been greater; and

(C) accordingly, in recognition of this need and the wisdom of the 82nd Congress, the 114th Congress reaffirms section 5063 of title 10, United States Code, uniquely charging the United States Marine Corps with this responsibility.
(2) It is further the sense of Congress that the Marine Corps—

(A) shall—

(i) be organized to include not less than three combat divisions and three air wings, and such other land combat, aviation, and other services as may be organic therein;

(ii) be organized, trained, and equipped to provide fleet marine forces of combined arms, together with supporting air components, for service with the fleet in the seizure or defense of advanced naval bases and for the conduct of such land operations as may be essential to the prosecution of a naval campaign; and

(iii) provide detachments and organizations for service on armed vessels of the Navy, shall provide security detachments for the protection of naval property at naval stations and bases, and shall perform such other duties as the President may direct;
but these additional duties may not detract from nor interfere with the operations for which the Marine Corps is primarily organized;

(B) shall develop, in coordination with the Army and the Air Force, those phases of amphibious operations that pertain to the tactics, techniques, and equipment used by landing forces; and

(C) is responsible, in accordance with the integrated joint mobilization plans, for the expansion of peacetime components of the Marine Corps to meet the needs of war.

SEC. 905. ADDITIONAL REQUIREMENTS FOR STREAMLINING OF DEPARTMENT OF DEFENSE MANAGEMENT HEADQUARTERS.

(a) FINDINGS.—

(1) On July 31, 2013, the then Secretary of Defense stated that the Department would “reduce[e] the Department’s major headquarters budgets by 20 percent. . .Although the 20 percent cut applies to budget dollars, organizations will strive for a goal of 20 percent reductions in government civilians and military personnel.” The then Secretary further stated that “these management reforms. . .will reduce
the Department’s overhead and operating costs by...$10 billion over the next five years.”.

(2) Furthermore, the President’s budget request for the Department of Defense for fiscal year 2015 stated that reductions to management headquarters staff and consolidation of duplicative efforts across the Department would result in a savings of $5.3 billion over 5 years—through fiscal year 2019. However, as noted by the Government Accountability Office in a January 2015 report (GAO-15-10), the Department accounted for $5.3 billion as efficiency savings in its budget request, but has not provided specific details on the reductions to management headquarters’ staff it plans to make.

(3) In June 2014, the Government Accountability Office found (in GAO-14-439) that the Department did not have an accurate accounting of the resources being devoted to management headquarters to use as a starting point for tracking reductions to such headquarters. In April 2015, the Government Accountability Office reported (in GAO-15-404SP) that focusing reductions on management headquarters budgets and personnel, which tend to be inconsistently defined and often represent a small
portion of the overall headquarters, shields much of
the resources identified for potential reduction.
(b) SENSE OF CONGRESS.—It is the sense of Con-
gress that—

(1) the Secretary of Defense’s commitment in
July 2013 to a goal of a 20 percent reduction in
headquarters budgets and personnel and a goal of
$10 billion in cost savings over five years is worth-
while and should be fully implemented;

(2) without a clear baseline for management
headquarters, it is difficult to demonstrate and track
progress achieving actual savings;

(3) any reduction in personnel should not be
implemented as an across-the-board cut, but rather
should be strategically designed to retain critical
functions, capabilities, and skill sets—including but
not limited to depots and the acquisition work-
force—and eliminate unnecessary or redundant
functions or skill sets that do not benefit or support
mission requirements;

(4) functions should be performed at the lowest
appropriate organizational level and those organiza-
tions should be empowered and held accountable;

(5) duplicative functions at higher level organi-
izations should be eliminated; and
the movement of a function from a management headquarters to a different Department of Defense organization or a lower level organization does not result in an efficiency, since the same budget is still required to perform that function.

(c) REQUIREMENT TO IMPLEMENT 20 PERCENT REDUCTION IN MANAGEMENT HEADQUARTERS FUNCTIONS.—Section 904 of the National Defense Authorization Act for Fiscal Year 2014 (Public Law 113–66; 10 U.S.C. 111 note) is amended by adding at the end the following new subsection:

“(e) IMPLEMENTATION OF MANAGEMENT HEADQUARTERS REDUCTION.—The Secretary of Defense shall implement the 20 percent reduction directed by the Secretary in July 2013 in management headquarters budget and personnel by September 30, 2019, for the covered organizations in the National Capital Region (as defined in section 2674(f) of title 10, United States Code). Such reductions shall be strategically designed to retain critical functions, capabilities, and skill sets. Management, functions, programs, or offices shall be moved to the lowest appropriate organizational level. In any report issued pursuant to subsection (d), the Secretary may not claim a cost savings solely based on moving management, func-
...tions, programs, or offices from one organization to another.'

(d) LIMITATION ON WORKING-CAPITAL FUND POSITIONS.—Section 904 of the National Defense Authorization Act for Fiscal Year 2014 (Public Law 113–66; 10 U.S.C. 111 note) is further amended by adding at the end the following new subsection:

''(f) LIMITATION ON WORKING-CAPITAL FUND POSITIONS.—In implementing the 20 percent reduction referred to in subsection (e), the Secretary of Defense may not reduce the number of Department of Defense civilian employees whose salaries are funded from working-capital funds except in accordance with section 2472 of title 10, United States Code.''

(e) CHANGE IN DEADLINE FOR REQUIRED PLAN.—Section 904(a) of the such Act is amended by striking ''180 days after the date of the enactment of this Act'' and inserting ''March 31, 2016''.

(f) ADDITIONAL ELEMENTS OF PLAN—Section 904(b) of such Act is amended—

(1) by redesignating paragraphs (1), (2), and (3) as paragraphs (2), (3), and (4), respectively;

(2) by inserting before paragraph (2), as so redesignated, the following new paragraph (1):
“(1) An accurate baseline accounting of defense headquarters budgets and personnel as of fiscal year 2014, including what is and is not included as part of management headquarters accounting, and a detailed description of the number of personnel, budgets, functions, capabilities, and skill sets.”;

(3) in paragraph (2), as so redesignated—

(A) by inserting “actual and” before “planned changes”;  

(B) by striking “staffing” and inserting “personnel”; and

(C) by inserting before the period at the end the following: “, set forth separately by fiscal year, from fiscal year 2014 through fiscal year 2019”;

(4) in paragraph (3), as so redesignated—

(A) by striking “description of the planned changes” and inserting “detailed description of the actual and planned changes”; and

(B) by inserting before the period at the end the following: “, set forth separately by fiscal year, from fiscal year 2014 through fiscal year 2019”; and

(5) in paragraph (4), as so redesignated, by striking “fiscal year 2015, and estimated savings to
be achieved for each of fiscal years 2015 through 2024” and inserting “fiscal year 2014, and estimated savings to be achieved, along with associated changes or reductions in budget, for each of fiscal years 2014 through 2024”.

(g) ADDITIONAL REPORT REQUIREMENTS.—Section 904(d) of such Act is amended—

(1) in paragraph (1), by striking “180 days after the date of the enactment of this Act” and inserting “March 31, 2016”; and

(2) in paragraph (2)—

(A) in subparagraph (C), by striking “including” and all that follows through the end of the subparagraph and inserting the following: “and specific detailed information on how the changes, consolidations, or reductions were prioritized and resulted in functions no longer being performed, in the fiscal year covered by such report.”;

(B) in subparagraph (F), by striking “, including” and all that follows through “management review”; and

(C) by adding at the end the following new subparagraph:

“(H) A separate description of—
“(i) the management functions, programs, or offices that were eliminated and how each represents a redundant management or oversight function; and

“(ii) the management, functions, programs, or offices that were moved, and how moving each will result in efficiency.”.

SEC. 906. SENSE OF CONGRESS ON PERFORMANCE MANAGEMENT AND WORKFORCE INCENTIVE SYSTEM.

(a) FINDINGS.—Congress finds the following:

(1) Section 1113 of the National Defense Authorization Act for Fiscal Year 2010 (Public Law 111–84) required the Department of Defense to institute a fair, credible, and transparent performance appraisal system, given the name “New Beginnings,” for employees, which—

(A) links employee bonuses and other performance-based action to employee performance appraisals;

(B) ensures ongoing performance feedback and dialogue among supervisors, managers, and employees throughout the appraisal period, with timetables for review; and
(C) develops performance assistance plans to give employees formal training, on-the-job training, counseling, mentoring, and other assistance.

(2) The military components and defense agencies of the Department of Defense are currently reviewing the proposed “New Beginnings” performance management and workforce incentive system developed in response to section 1113 of Public Law 111–84.

(3) The Department of Defense anticipates it will begin implementation of the “New Beginnings” performance management and workforce incentive system in April 2016.

(4) The authority provided in section 1113 of Public Law 111–84 provided the Secretary of Defense, in coordination with the Director of the Office of Personnel Management, flexibilities in promulgating regulations to redesign the procedures which are applied by the Department of Defense in making appointments to positions within the competitive service in order to—

(A) better meet mission needs;

(B) respond to managers’ needs and the needs of applicants;
(C) produce high-quality applicants;

(D) support timely decisions;

(E) uphold appointments based on merit system principles; and

(F) promote competitive job offers.

(5) In implementing the “New Beginnings” performance management and workforce incentive system, section 113 of Public Law 111–84 requires the Secretary of Defense to comply with veterans’ preference requirements.

(6) Among the criteria for the new performance management and workforce incentive system authorized under section 1113 of Public Law 111–84, the Secretary of Defense is required to—

(A) adhere to merit principles;

(B) include a means for ensuring employee involvement (for bargaining unit employees, through their exclusive representatives) in the design and implementation of the performance management and workforce incentive system;

(C) provide for adequate training and re-training for supervisors, managers, and employees in the implementation and operation of the performance management and workforce incentive system;
(D) develop a comprehensive management succession program to provide training to employees to develop managers for the agency and a program to provide training to supervisors on actions, options, and strategies a supervisor may use in administering the performance management and workforce incentive system;

(E) include effective transparency and accountability measures and safeguards to ensure that the management of the performance management and workforce incentive system is fair, credible, and equitable, including appropriate independent reasonableness reviews, internal assessments, and employee surveys;

(F) use the annual strategic workforce plan required by section 115b of title 10; and

(G) ensure that adequate agency resources are allocated for the design, implementation, and administration of the performance management and workforce incentive system.

(7) Section 1113 of Public Law 111–84 also requires the Secretary of Defense to develop a program of training—to be completed by a supervisor every three years—on the actions, options, and strategies a supervisor may use in—
(A) developing and discussing relevant goals and objectives with the employee, communicating and discussing progress relative to performance goals and objectives, and conducting performance appraisals;

(B) mentoring and motivating employees, and improving employee performance and productivity;

(C) fostering a work environment characterized by fairness, respect, equal opportunity, and attention to the quality of the work of employees;

(D) effectively managing employees with unacceptable performance;

(E) addressing reports of a hostile work environment, reprisal, or harassment of or by another supervisor or employee; and

(F) allowing experienced supervisors to mentor new supervisors by sharing knowledge and advice in areas such as communication, critical thinking, responsibility, flexibility, motivating employees, teamwork, leadership, and professional development, and pointing out strengths and areas of development.
(b) Sense of Congress.—It is the sense of Congress that the Secretary of Defense should proceed with the collaborative work with employee representatives on the “New Beginnings” performance management and workforce incentive system and begin implementation of the new system at the earliest possible date.

SEC. 907. GUIDELINES FOR CONVERSION OF FUNCTIONS PERFORMED BY CIVILIAN OR CONTRACTOR PERSONNEL TO PERFORMANCE BY MILITARY PERSONNEL.

Section 129a of title 10, United States Code, is amended by adding at the end the following new subsection:

“(g) Guidelines for Performance of Certain Functions by Military Personnel.—(1) Except as provided in paragraph (2), no functions performed by civilian personnel or contractors may be converted to performance by military personnel unless—

“(A) there is a direct link between the functions to be performed and a military occupational specialty; and

“(B) the conversion to performance by military personnel is cost effective, based on Department of Defense instruction 7041.04 (or any successor administrative regulation, directive, or policy).
“(2) Paragraph (1) shall not apply to the following functions:

“(A) Functions required by law or regulation to be performed by military personnel.

“(B) Functions related to—

“(i) missions involving operation risks and combatant status under the Law of War;

“(ii) specialized collective and individual training requiring military-unique knowledge and skills based on recent operational experience;

“(iii) independent advice to senior civilian leadership in the Department of Defense requiring military-unique knowledge and skills based on recent operational experience; and

SEC. 1012. STATEMENT OF POLICY ON PLAN CENTRAL AMERICA.

(a) FINDINGS.—Congress makes the following findings:

(1) The stability and security of Central American nations have a direct impact on the stability and security of the United States.

(2) Over the past decade, stability and increased security in the Republic of Colombia has pushed illicit trafficking to Central America bringing increased violence and instability.

(3) Much of Central America has seen spikes in violence and homicides. In fiscal year 2013, the United Nations Office on Drugs and Crime released its Global Study on Homicide 2013. Four of the top five countries with the highest homicide rates in the world were Central American nations including Honduras, Belize, El Salvador, and Guatemala.

(4) In calendar year 2014, approximately 65,000 unaccompanied alien children from Central America entered the United States through its southwest border. This number of such children who enter the United States during calendar year 2015 is expected to be approximately the same.
(5) The southwest border of the United States continues to be porous to illicit trafficking of narcotics, weapons, cash, and people.

(6) In November 2014, Guatemala, Honduras, and El Salvador announced a Plan for the Alliance for Prosperity of the Northern Triangle. This plan is a comprehensive approach to address the ongoing violence and instability facing these three nations by stimulating economic opportunities, improving public safety and rule of law, and strengthening institutions to increase trust in the state.

(7) The United States Government has stated its support for the Alliance for Prosperity and included in the President’s fiscal year 2016 budget request $1,000,000,000 in Department of State funds, to support the strategy for United States engagement in Central America. According to the strategy, this funding will be focused on promoting prosperity and regional economic integration, enhancing security, and promoting improved governance.

(8) None of the President’s $1,000,000,000 budget request for the strategy for United States engagement in Central America includes any funding for Department of Defense programs in the region.
(9) The Department of Defense provides training, equipment, education, and interdiction efforts to address security challenges in Central America through detection and monitoring of illicit trafficking, assistance in illicit trafficking interdictions, and building partnership capacities.

(10) The Department of Defense through its roles and missions, is executing a plan to address security challenges in Central America in conjunction with the United States Strategy for Engagement in Central America.

(b) POLICY.—It shall be the policy of the United States to prioritize a Plan Central America to address the threatening levels of violence, instability, illicit trafficking, and transnational organized crime that challenge the sovereignty of Central American nations and security of the United States. In order to address such issues, the Department of Defense shall—

(1) increase the efforts of the Department of Defense as the lead agency to detect and monitor the aerial and maritime illicit trafficking into the United States;

(2) increase the efforts of the Department of Defense to support aerial and maritime illicit trafficking interdiction efforts;
(3) increase the efforts of the Department of
Defense to build partnership capacity with partner
countries in Central America to confront security chal-
lenges through increased training opportunities, edu-
cation, and exercises;

(4) enforce human rights requirements con-
sistent with section 2249e of title 10, United States
Code, and increase the training and education re-
arding human rights provided in Central American
ations; and

(5) support interagency efforts in Central
America addressing all levels of instability including
development, education, economic, political, and se-
curity challenges.

SEC. 1059. PROHIBITION ON THE CLOSURE OF UNITED STATES NAVAL STATION, GUANTANAMO BAY, CUBA.

(a) FINDINGS.—Congress makes the following findings:

(1) The United States military presence in the Republic of Cuba began in 1898, and United States military basing began in Cuba in 1903.

(2) In 1934, the United States and Cuba entered into the Treaty Between the United States of America and Cuba signed at Washington, D.C. on May 29, 1934. Under Article III, the treaty stipulates the perpetual lease agreement between the United States and Cuba for the 45 square miles of land encompassing Guantanamo Bay, Cuba.

(3) On March 12, 2015, Commander of United States Southern Command, General John Kelly, testified before the Committee on Armed Services of the Senate, highlighting, “Its [Naval Station Guantanamo Bay] airfield and port facilities are indispen-
sable to the Departments of Defense, Homeland Security, and State’s operational and contingency plans. . . As the only permanent U.S. military base in Latin America and the Caribbean, its location provides persistent U.S. presence and immediate access to the region, as well as supporting a layered defense to secure the air and maritime approaches to the United States”.

(4) Former Commander of United States Southern Command, retired Admiral James Stavridis, recently stated “Guantanamo Bay Naval Station has immense strategic value above and beyond its reputation as a detention facility. It is the logistic, planning, surveillance and basing linchpin for the U.S. Fourth Fleet, crucial to the military for disaster relief, humanitarian work, medical diplomacy, and counternarcotics, all key missions for the U.S. Navy in Latin America and the Caribbean. The U.S. should do all in its power to maintain its legal control over the base”.

(5) In testimony in front of the Committee on Armed Services of the House of Representatives in 2012, then-Commander of United States Southern Command, General Douglas Fraser, stated, “Absent a detention facility and even following the eventual
demise of the Castro regime, the strategic capability
provided by the U.S. Naval Station Guantanamo
Bay remains essential for executing national priori-
ties throughout the Caribbean, Latin America, and
South America”.

(6) As part of “normalizing” relations with the
government of Cuba, announced in December 2014,
ongoing negotiations are occurring to determine the
diplomatic framework between the governments of
the United States and Cuba.

(7) In January 2015, soon after negotiations
began between the United States and Cuba, Cuban
President Raul Castro demanded the return of
United States Naval Station, Guantanamo Bay,
Cuba, to Cuba.

(8) In February 2015, Assistant Secretary of
State for Western Hemisphere Affairs Roberta
Jacobson, in testimony in front of the Foreign Af-
fairs Committee of the House of Representatives,
stated that the return of United States Naval Sta-

SEC. 1222. COMPREHENSIVE STRATEGY FOR THE MIDDLE
EAST AND TO COUNTER ISLAMIC EXTRE-
MISM.

(a) FINDINGS.—Congress finds the following:

(1) In testimony before the Committee on
Armed Services of the House of Representatives,
General Martin Dempsey, Chairman of the Joint
Chiefs of Staff stated, “The global security environ-
ment is as uncertain as I have seen in my 40 years
of service.”.
(2) In testimony before the Committee on Armed Services of the Senate, the Director of National Intelligence, James Clapper, stated: "Sunni violent extremists are gaining momentum and the number of Sunni violent extremist groups, members, and safe havens is greater than at any other point in history."

(3) In testimony to the Committee on Armed Services of the House of Representatives, Lieutenant General Michael Flynn, former Director of the Defense Intelligence Agency stated, ". . .whether it be the number of violent Islamist groups, the territory which they control, the scale and scope of the Islamic State of Iraq and the Levant (ISIL) and associated movements, the number of terrorist attacks they perpetrate, the numbers of causalities they inflict, their broad expansion and use of the internet, or just their sheer barbarism; I can draw no other conclusion than to say that the threat of Islamic extremism has reached an unacceptable level and that it is growing."

(4) In testimony before the Committee on Armed Services of the Senate, James Clapper, the Director of National Intelligence, stated the following:
“When the final counting is done, 2014 will have been the most lethal year for global terrorism in the 45 years such data has been compiled . . . about half of all attacks, as well as fatalities, in 2014 occurred in just three countries: Iraq, Pakistan and Afghanistan . . . the Islamic State in Iraq and the Levant (ISIL) conducted more attacks than any other terrorist group in the first nine months of 2014.”.

“Since the conflict began, more than 20,000 Sunni foreign fighters have traveled to Syria from more than 90 countries to fight the Assad regime . . . of that number, at least 13,600 have extremist ties.”.

“More than 3,400 Western fighters have gone to Syria and Iraq. Hundreds have returned home to Europe.”.

“About 180 Americans or so have been involved in various stages of travel to Syria . . . and some number have come back.”.

“ISIL, al-Qaeda and al-Qaeda in the Arabian Peninsula (AQAP), and, most recently, al-Shabaab are calling on their supporters to conduct lone-wolf attacks against the United States and other Western countries. Of the 13
attacks in the West since last May, 12 were conducted by individual extremists.”.

(5) AQAP continues to be one of al-Qaeda’s most capable affiliates, has the intent and capability to attack the United States and its allies, and attempted attacks inside the United States on December 25, 2009, and October 27, 2010.

(6) Iran has been a Department of State-designated state sponsor of terrorism since January 19, 1984, and continues to sponsor and support terrorism throughout the Middle East region and around the world.

(7) In testimony before the Committee on Armed Services of the Senate, former Vice Chief of Staff of the Army, General Jack Keane (retired), stated, “Is it possible to . . . claim that the United States policy and strategy is working or that al-Qaeda is on the run? It is unmistakable that our policies have failed . . . And the unequivocal explanation is U.S. policy has focused on disengaging from the Middle East.”.

(8) In testimony before the Committee on Armed Services of the Senate, former commander of United States Central Command, General James Mattis (retired), stated, “We have lived too long in
a strategy-free mode . . . America needs a refreshed
national strategy . . . And our Nation’s strategy de-
mands a comprehensive approach.”.

(b) SENSE OF CONGRESS.—It is the sense of Con-
gress that—

(1) Islamic extremism is growing in the Middle
East and elsewhere;

(2) Iran continues to be a leading state sponsor
of terrorism in the Middle East and across the globe
and continues to actively work against United States
interests;

(3) the threat of terrorist attacks in the United
States and threats against United States interests
have increased due to the growth of Islamic extre-
mism, the proliferation of terrorist groups across the
world, and the instability in the Middle East in
countries such as Libya, Yemen, Iraq, and Syria;

(4) the approach of Building Partnership Ca-
pacity (BPC) and conducting limited counterter-
orism operations has had some positive effects in
some locations, but has not prevented the prolifera-
tion and violence of terrorist groups or instability in
the Middle East;

(5) the United States should articulate, develop,
and implement an effective strategy to work with its
allies and partners to defeat Islamic extremist
groups that threaten the interests of the United
States and its allies;

(6) support for United States allies and part-
ners in the Middle East is a critical component of
the effort to prevent the spread of Islamic extre-
mism;

(7) other actors, such as Russia, China, and
Iran are trying to work against United States inter-
ests in the Middle East;

(8) the United States should take a greater
leadership role in fighting Islamic extremism and
supporting stability in the Middle East to include co-
ordinating actions of United States allies and part-
ners in the region;

(9) the United States plays a vital leadership
role in coordinating the activities of the United
States and its allies and partners and should seek
opportunities to expand such cooperation to con-
tribute to greater stability in the Middle East;

(10) the United States should continue to take
steps to prevent the spread of malign Iranian influ-
ence in Iraq, Syria, Yemen, and the region;

(11) the United States remains an indispen-
sable actor in the Middle East, and the President
should ensure that United States Armed Forces re-
main forward postured in the region to deter adver-
saries, fight threats to the United States and its in-
terests, and support United States allies and part-

“(5) An assessment of transfers to Iran of military equipment, technology, and training from non-Iranian sources.”.

(b) TERMINATION.—Subsection (d) of such section, as amended by section 1277 of the National Defense Authorization Act for Fiscal Year 2015 (Public Law 113–291; 128 Stat. 3592), is further amended by striking “December 31, 2016” and inserting “December 31, 2025”.

SEC. 1232. SENSE OF CONGRESS ON THE GOVERNMENT OF IRAN’S NUCLEAR PROGRAM AND ITS MALIGN MILITARY ACTIVITIES.

(a) FINDINGS.—Congress finds the following:

(1) The understanding announced on April 2, 2015, between the countries of the P5+1 (the
United States, the United Kingdom, France, Germany, Russia, and China) and Iran on a Comprehensive Joint Plan of Action (CJPOA) provides sanctions relief in exchange for constraints on Iran’s nuclear program for a limited period of time.

(2) Iran continues to develop ballistic missiles in violation of United Nations Security Council Resolutions 1747 (2007) and 1929 (2010), has developed medium-range ballistic missiles to target Israel and other United States allies, is working towards an intercontinental ballistic missile (ICBM) capability and the CJPOA places no limitations on Iran’s ballistic and cruise missile development efforts.

(3) The Secretary of State has designated Iran as a state-sponsor of terrorism since 1984 and for the past decade has characterized Iran as the “most active state sponsor of terrorism” in the world.

(4) Iran continues to support Hezbollah in Lebanon, the Bashar al-Assad regime in Syria, Shia militias in Iraq, Hamas in Gaza, the Houthi rebels in Yemen, and other terrorist organizations and extremists globally.

(5) Iran continues to conduct malign military activities across the Middle East and around the globe, which has and will continue to destabilize the
region. As the Commander of United States Central
Command testified to the Committee on Armed
Services of the House of Representatives on March
3, 2015, “the leaders in the region. . . are also
equally concerned about Iran’s ability to mine the
Straits, Iran’s cyber capabilities, Iran’s. . . ballistic
missile capability, as well as the activity of their
Quds forces... And so whether we get a deal or don’t
get a deal, I think they will still share those con-
cerns.”.

(6) Iran’s destabilizing activities throughout the
region pose a threat to United States interests, the
interests of United States allies in the region, and
international security.

(b) SENSE OF CONGRESS.—It is the sense of Con-
gress that—

(1) Iran’s illicit pursuit, development, or acqui-
sition of a nuclear weapons capability and its malign
military activities overall constitute a grave threat to
regional stability and the national security interests
of the United States and its allies and partners;

(2) Iran continues to expand its malign activi-
ties in the Middle East and globally, which may well
increase under a CJPOA;
(3) sanctions relief under the CJPOA will provide Iran the ability to increase funding for its ballistic missile development programs, acquisition of destabilizing types and amounts of conventional weapons, support for terrorism, and other malign activities throughout the Middle East and globally;

(4) United States bilateral and multilateral sanctions against Iran, once relieved, will be extremely difficult to reconstitute in response to Iranian violations of its international obligations;

(5) Iran would be an internationally-approved nuclear-threshold state under the framework of the CJPOA, which will likely lead to the proliferation of nuclear weapons across the Middle East;

(6) Congress should review and assess all elements of any agreement entered into between the countries of the P5+1 and Iran and it should approve or disapprove of any sanctions relief that results from such an agreement;

(7) the United States must continue to support the defense of allies and partners in the region, including Israel, strengthening ballistic missile defense capabilities, and increasing security assistance;

(8) Congress supports efforts to reach a peaceful, diplomatic solution to permanently and verifiably
end Iran’s pursuit, development, and acquisition of
a nuclear weapons capability, and it reaffirms that
it is United States policy that Iran will not be al-
lowed to develop a nuclear weapons capability and
that all instruments of United States power must be
considered to prevent Iran from acquiring a nuclear
weapon; and

(9) Congress reaffirms the rights of United
States allies to exercise their legitimate right to self-
defense against the Government of Iran.

SEC. 1233. REPORT ON MILITARY POSTURE REQUIRED IN
THE MIDDLE EAST TO DETER IRAN FROM DE-
VELOPING A NUCLEAR WEAPON.

shall submit to Congress a report regarding the military
posture required in the Middle East to deter Iran from
developing a nuclear weapon.

(b) Matters to Be Included.—The report re-
quired by subsection (a) shall include a discussion of the
military forces, bases and capabilities required to—

(1) maintain a military option of preventing
Iran from achieving a nuclear weapon;

(3) protect the United States military and other interests in the region.

SEC. 1243. NON-COMPLIANCE BY THE RUSSIAN FEDERATION WITH ITS OBLIGATIONS UNDER THE INF TREATY.

(a) FINDINGS.—Congress finds the following:

(1) The Department of State, on July 31, 2014, released the Annual Report on the “Adherence to and Compliance With Arms Control, Non-proliferation, and Disarmament Agreements and
Commitments” which included the finding that, “The United States has determined that the Russian Federation is in violation of its obligations under the INF Treaty not to possess, produce, or flight-test a ground-launched cruise missile (GLCM) with a range capability of 500 km to 5,500 km, or to possess or produce launchers of such missiles.”

(2) According to the testimony of senior officials of the Department of State, the Russian Federation is not complying with numerous treaties and agreements, including the INF Treaty, the Open Skies Treaty, the Biological Weapons Convention, the Chemical Weapons Convention, the Vienna Document, the Budapest Memorandum, the Istanbul Commitments, the Presidential Nuclear Initiatives, the Missile Technology Control Regime, and the Russian Federation has recently withdrawn from the Treaty on Conventional Armed Forces in Europe (CFE).

(3) The Commander of U.S. European Command, and Supreme Allied Commander of Europe, General Philip Breedlove, USAF, stated that “[a] weapon capability that violates the I.N.F., that is introduced into the greater European land mass is absolutely a tool that will have to be dealt with . . .
I would not judge how the alliance will choose to react, but I would say they will have to consider what to do about it, [i]t can’t go unanswered.”.

(4) General Breedlove has further stated that “we need to first and foremost signal that we cannot accept this change and that, if this change is continued, that we will have to change the cost calculus for Russia in order to help them to find their way to a less bellicose position.”.

(5) General Martin Dempsey, Chairman, Joint Chiefs of Staff testified that, “I think we have to make it very clear that things like their compliance with the INF treaty that there will be political, diplomatic and potentially military costs in terms of the way we posture ourselves and the way we plan and work with our allies to address those provocations...It concerns me greatly. I certainly would counsel them not to roll back the clock.”.

(6) The Secretary of Defense, Ashton B. Carter, testified that, “On the military side, we have begun to consider...what our options are, because the INF treaty is a treaty, meaning that it's a two-way street. We accepted constraints in return for constraints of the then Soviet Union. It is a two-way street, and we need to remind them that it’s a two-
way street, meaning that we, without an INF treaty, can take action also that we both decided years ago was best for neither of us to take.”.

(7) The Department of Defense has been considering a range of military options to respond to the Russian Federation’s violation of the INF Treaty and these options would “aim to negate any advantage Russia might gain from deploying an INF-prohibited system, and all of these would be designed to make us more secure”, and these options “fall into three broad categories: active defenses to counter intermediate-range ground-launched cruise missiles; counterforce capabilities to prevent intermediate-range ground-launched cruise missile attacks; and countervailing strike capabilities to enhance U.S. or allied forces.”.

(8) President Barack Obama stated in Prague in 2009 that, “Rules must be binding. Violations must be punished. Words must mean something.”.

(b) SENSE OF THE CONGRESS.—It is the sense of the Congress that—

(1) the Russian Federation should return to compliance with the INF Treaty;
(2) the continuing violation of the INF Treaty by the Russian Federation threatens the viability of the INF Treaty;

(3) the United States has reportedly been undertaking diplomatic efforts to address with the Russia Federation its violations of the INF Treaty since 2013, and the Russian Federation has failed to respond to these efforts in any meaningful way;

(4) not only should the Russian Federation end its cheating with respect to the INF Treaty, but also its illegal occupation of the sovereign territory of another nation, its plans for stationing nuclear weapons on that nation’s territory, and its cheating and violation of as many as eight of its 12 arms control obligations and agreements; and

(5) there are several United States military requirements that would be addressed by the development and deployment of systems currently prohibited by the INF Treaty.

(c) NOTIFICATION OF RUSSIAN VIOLATIONS OF INF TREATY.—

(1) IN GENERAL.—The President shall submit to the appropriate congressional committees a notification of—
(A) whether the Russian Federation has flight-tested, deployed, or possesses a military system that has achieved an initial operating capability of a covered missile system; and

(B) whether the Russian Federation has begun steps to return to full compliance with the INF Treaty, including by agreeing to inspections and verification measures necessary to achieve high confidence that any covered missile system will be eliminated, as required by the INF Treaty upon its entry into force.

(2) DEADLINE.—The notification required under paragraph (1) shall be submitted not later than 30 days after the date of the enactment of this Act and not later than 30 days after the date on which the Russian Federation meets any of the requirements of subparagraphs (A) and (B) of paragraph (1).

(3) FORM.—The notification required under paragraph (1) shall be submitted in unclassified form, but may contain a classified annex if necessary.

(d) NOTIFICATION OF COORDINATION WITH ALLIES REGARDING INF TREATY.—
1. **IN GENERAL.**—Not later than 120 days
2. after the date of the enactment, and every 120-day
3. period thereafter for a period of 5 years, the Sec-
4. retary of Defense and the Chairman of the Joint
5. Chiefs of Staff, in coordination with the Secretary of
6. State and the Director of National Intelligence, shall
7. jointly submit to the appropriate congressional com-
8. mittees a notification on the status and content of
9. updates provided to the North Atlantic Treaty Orga-
10. nization (NATO) and allies of the United States in
11. East Asia, on the Russian Federation’s flight test-
12. ing, operating capability and deployment of a cov-
13. ered missile system, including updates on the status
14. and a description of efforts with such allies to de-
15. velop collective responses, including economic and
16. military responses, to the Russian Federation’s arms
17. control violations, including violations of the INF
19. 
20. **FORM.**—The notification required under
21. paragraph (1) shall be submitted in unclassified
22. form, but may contain a classified annex if nec-
23. 24. **(e) MILITARY RESPONSE OPTIONS TO RUSSIAN FED-
25. ERATION VIOLATION OF THE TREATY ON INTERMEDIATE
26. RANGE NUCLEAR FORCES.**—
(1) Development of capabilities.—If, as of the date of the enactment of this Act, the President determines that the Russian Federation has not begun steps to return to full compliance with the INF Treaty, including by agreeing to inspections and verification measures necessary to achieve high confidence that any covered missile system will be eliminated, as required by the INF Treaty upon its entry into force, the President shall begin developing the following military capabilities:

(A) Counterforce capabilities to prevent intermediate-range ground-launched ballistic missile and cruise missile attacks, including capabilities that may be acquired from allies.

(B) Countervailing strike capabilities to enhance the Armed Forces of the United States or allies of the United States, including capabilities that may be acquired from allies.

(2) Availability of funds for recommended capabilities.—The Secretary of Defense may use funds authorized to be appropriated by this Act or otherwise made available for fiscal year 2016 for research, development, test, and evaluation, Defense-wide, as specified in the funding table in section 4201, to carry out the development
of capabilities pursuant to paragraph (1) that are recommended by the Chairman of the Joint Chiefs of Staff to meet military requirements and current capability gaps. In making such a selection, the Chairman shall give priority to such capabilities that the Chairman determines could be tested and fielded most expediently, with the most priority given to capabilities that the Chairman determines could be fielded in two years.

(3) REPORTS ON DEVELOPMENT.—

(A) IN GENERAL.—During each 180-day period beginning on the date on which funds are first obligated to develop capabilities under paragraph (2), the Chairman shall submit to the appropriate congressional committees a report on such capabilities, including the costs of development (and estimated total costs of each system if pursued to deployment) and the timeline for development flight testing and deployment.

(B) SUNSET.—The provisions of subparagraph (A) shall not be in effect on and after the date on which the President certifies to the appropriate congressional committees that the INF Treaty is no longer in force or the Russian
Federation has fully returned to compliance with its obligations under the INF Treaty.

(4) REPORT ON DEPLOYMENT.—Not later than 180 days after the date of the enactment of this Act, the Secretary of Defense, in coordination with the Secretary of State, shall submit to the appropriate congressional committees a report on the following:

(A) Potential deployment locations of the military capabilities described in paragraph (1) in East Asia and Eastern Europe, including any potential basing agreements that may be required to facilitate such deployments.

(B) Any required safety and security measures, estimates of potential costs of deployments described in subparagraph (A) and an assessment of whether or not such deployments in Eastern Europe may require a decision of the North Atlantic Council.

(f) DEFINITIONS.—In this section:

(1) APPROPRIATE CONGRESSIONAL COMMITTEES.—The term “appropriate congressional committees” means the following:

(1) by striking “30 days” and inserting “90 days”; and

(2) by striking “and the Chairman of the Joint Chiefs of Staff” and inserting “, the Chairman of the Joint Chiefs of Staff, and the commander of each relevant combatant command”.

SEC. 1245. SENSE OF CONGRESS ON SUPPORT FOR ESTONIA, LATVIA, AND LITHUANIA.

(a) FINDINGS.—Congress finds the following:

(1) The Baltic States of Estonia, Latvia, and Lithuania are highly valued allies of the United States, and they have repeatedly demonstrated their commitment to advancing our mutual interests as well as those of the NATO Alliance.

(2) Operation Atlantic Resolve is a series of exercises and coordinating efforts meant to demonstrate the United States’ commitment to the Baltic States of Estonia, Latvia, and Lithuania, and the
United States-Baltic partnership’s shared goal of peace and stability in the region. Built upon the common values of peace, stability and prosperity, Operation Atlantic Resolve strengthens communication and understanding, and is an important effort to deter Russian aggression against the Baltic States.

(3) As part of Operation Atlantic Resolve, the European Reassurance Initiative undertakes exercises, training, and rotational presence necessary to reassure and integrate our Baltic State allies into a common defense framework.

(4) All three Baltic States contributed to the NATO-led International Security Assistance Force in Afghanistan, sending disproportionate numbers of troops and operating with few caveats. They also continue to engage in the Resolute Support Mission in Afghanistan.

(b) SENSE OF CONGRESS.—Congress—

(1) reaffirms its support for the principle of collective defense as enshrined in Article 5 of the North Atlantic Treaty for our NATO allies, Estonia, Latvia, and Lithuania;

(2) supports the sovereignty, independence, territorial integrity, and inviolability of Estonia, Latvia,
and Lithuania as well as their internationally recog-
nized borders, and expresses concerns over increas-
ingly aggressive military maneuvering by Russia
near their borders and airspace;

(3) expresses concerns over increasingly aggres-
sive military maneuvering by the Russian Federation
near Baltic state borders and airspace, and con-
demns reported subversive and destabilizing activi-
ties by the Russian Federation within the Baltic
states; and

(4) encourages the Administration to further
enhance defense cooperation efforts with Estonia,
Latvia, and Lithuania and supports the efforts of
their Governments to provide for the defense of their
people and sovereign territory.

SEC. 1246. SENSE OF CONGRESS ON SUPPORT FOR GEOR-
GIA.

(a) FINDINGS.—Congress finds the following:

(1) Georgia is a valued friend of the United
States and has repeatedly demonstrated its commit-
ment to advancing the mutual interests of both
countries, including the deployment of Georgian
forces as part of the NATO-led International Secu-
rity Assistance Force (ISAF) in Afghanistan and the
Multi-National Force in Iraq.
The European Reassurance Initiative builds the partnership capacity of Georgia so it can work more closely with the United States and NATO, as well as provide for their own defense.

(3) In addition to the European Reassurance Initiative, Georgia’s participation in the NATO initiative Partnership for Peace is paramount to interoperability with the United States and NATO, and establishing a more peaceful environment in the region.

(4) Despite the heavy and painful losses suffered during the ISAF, as a NATO partner Georgia is engaged in the Resolute Support Mission in Afghanistan with the second largest contingent on the ground.

(b) SENSE OF CONGRESS.—Congress—

(1) reaffirms United States support for Georgia’s sovereignty and territorial integrity within its internationally-recognized borders, and does not recognize the Abkhazia and South Ossetia regions, currently occupied by Russia, as independent; and

(2) supports continued cooperation between the United States and Georgia and the efforts of the Government of Georgia to provide for the defense of its people and sovereign territory.
Subtitle F—Matters Relating to the Asia-Pacific Region

SEC. 1251. SENSE OF CONGRESS RECOGNIZING THE 70TH ANNIVERSARY OF THE END OF ALLIED MILITARY ENGAGEMENT IN THE PACIFIC THEATER.

(a) FINDINGS.—Congress makes the following findings:

(1) September 2, 2015, marks the 70th anniversary of the end of Allied military engagement in the Pacific theater, also marking the end of the Second World War.

(2) The United States entered the Second World War in December 1941, following the Empire of Japan’s attack on Pearl Harbor, and over the next four years Americans participated in what was arguably the greatest national endeavor in the Nation’s history.

(3) The casualty toll of Americans in the Pacific theater during the Second World War was approximately 92,904 killed, 208,333 wounded, and tens of thousands missing in action and prisoners of war, with civilians and military forces of the Allied Powers suffering equally devastating tolls.
(4) American military forces displayed extraordinary courage and suffered significant casualties in battles across the Pacific theater, including in the Battle of the Philippine Sea, the Battle of Leyte Gulf, the Philippines Campaign, the Battle of Iwo Jima, and the Battle of Okinawa.

(5) Japanese military forces and the Japanese civilian population also suffered staggering losses.

(6) On August 15, 1945, Emperor Hirohito of Japan announced the unconditional surrender of Japan’s military forces, made formal on September 2, 1945, aboard the U.S.S. Missouri in Tokyo Bay, Japan, thus ending the most devastating war in human history.

(7) Japan is now a free and prosperous democracy; a valued ally with shared values and mutual interests based on the principles of democracy, individual liberty, and the rule of law, who serves as a cornerstone for peace and security in the region and for whom the United States seeks to further enhance security, economic, and diplomatic ties.

(8) The bravery and sacrifice of the members of the United States Armed Forces and the military forces of the Allied Powers who served valiantly to
rescue the Pacific nations from tyranny and aggres-

sion should be always remembered.

(b) SENSE OF CONGRESS.—Congress—

(1) recognizes the 70th anniversary of the end

of Allied military engagement in the Pacific theater,

and also marking the end of Second World War;

(2) joins with a grateful nation in expressing

respect and appreciation to the members of the

United States Armed Forces who served in the Pa-

cific theater during the Second World War;

(3) remembers and honors those Americans who

made the ultimate sacrifice and gave their lives for

their country during the campaigns in the Pacific

theater during the Second World War; and

(4) preserves and applies the lessons learned

from the history of the Second World War in the

Pacific theater and recognizes the close alliance be-

tween the United States and Japan, codified in the

1960 Treaty of Mutual Cooperation and Security be-

tween the United States and Japan, that continues

to be enhanced to maintain peace and prosperity in

the region.
SEC. 1252. SENSE OF CONGRESS REGARDING CONSOLIDATION OF UNITED STATES MILITARY FACILITIES IN OKINAWA, JAPAN.

(a) FINDINGS.—Congress finds the following:

(1) The defense alliance between the United States and Japan remains important and strong.

(2) Progress continues to be made in the United States and Japan to fulfill the April 27, 2012, agreement of the United States-Japan Security Consultative Committee that modified the United States-Japan Roadmap for Realignment Implementation, originally codified on May 1, 2006, including the Governor of Okinawa signing the landfill permit for Henoko construction on December 27, 2013, and the elimination of restrictions on Government of Japan contributions for the realignment of Marine Corps forces in the Asia-Pacific region by section 2821 of the Military Construction Authorization Act for Fiscal Year 2015 (division B of Public Law 113–291).

(3) The Government of Japan has made significant and unprecedented direct financial contributions of more than $3,000,000,000 to the Support for United States Relocation to Guam Account pursuant to section 2350k of title 10, United States Code, for the relocation of Marine Corps forces from
Okinawa to Guam and the relocation of certain training from Okinawa to the Marianas region, of which nearly $1,000,000,000 has already been received from the Government of Japan, and a significant amount of these funds has already been obligated and expended to support the relocation of Marine Corps forces on Guam.

(4) It is important to return formerly used United States military property in Okinawa to the local government.

(5) Consolidation of United States facilities and the return of formerly used United States military property in Okinawa will be implemented as soon as possible, while ensuring operational capability, including training capability, throughout the consolidation process.

(6) Under the April 27, 2012, agreement referred to in paragraph (2), the United States is authorized to establish Marine Air-Ground Task Forces at additional locations in the Asia-Pacific region, including Guam, Hawaii, and Australia, which will enhance their readiness posture through flexibility and speed to respond to regional threats and maintain regional peace, stability, and security.
(7) Even though realignment of Marine Corps forces from Okinawa to Guam is “de-linked” from progress on the construction of the Futenma Replacement Facility in Henoko, there must be continued progress on Guam and Okinawa to meet the agreement.

(b) **SENSE OF CONGRESS.**—It is the sense of Congress that the Henoko location for the Futenma Replacement Facility—

(1) has been studied and analyzed for several decades, reaffirmed by both the United States and Japan on several occasions, including the 2010 Futenma Replacement Facility Bilateral Experts study and the independent assessment required by section 346 of the National Defense Authorization Act for Fiscal Year 2012 (Public Law 112–81; 125 Stat. 1373); and

(2) remains the only option for the Futenma Replacement Facility.

**SEC. 1253. STRATEGY TO PROMOTE UNITED STATES INTERESTS IN THE INDO-ASIA-PACIFIC REGION.**

(a) **STRATEGY.**—The President shall develop an overall strategy to promote United States interests in the Indo-Asia-Pacific region. Such strategy shall be informed by the following:

(2) The strategy to prioritize United States defense interests in the Asia-Pacific region as contained in the report required by section 1251(a) of the National Defense Authorization Act for Fiscal Year 2015 (Public Law 113–291).

(3) The integrated, multi-year planning and budget strategy for a rebalancing of United States policy in Asia submitted to Congress pursuant to section 7043(a) of the Department of State, Foreign Operations, and Related Programs Appropriations Act, 2014 (division K of the Consolidated Appropriations Act, 2014 (Public Law 113–76)).

(b) PRESIDENTIAL POLICY DIRECTIVE.—The President shall issue a Presidential Policy Directive to relevant Federal departments and agencies that contains the strategy developed under subsection (a) and includes implementing guidance to such departments and agencies.

(c) RELATION TO AGENCY PRIORITY GOALS AND ANNUAL BUDGET.—
(1) AGENCY PRIORITY GOALS.—In identifying agency priority goals under section 1120(b) of title 31, United States Code, for each relevant Federal department and agency, the head of such department or agency, or as otherwise determined by the Director of the Office of Management and Budget, shall take into consideration the strategy developed under subsection (a) and the Presidential Policy Directive issued under subsection (b).

(2) ANNUAL BUDGET.—The President, acting through the Director of the Office of Management and Budget, shall ensure that the annual budget submitted to Congress under section 1105 of title 31, United States Code, includes a separate section that clearly highlights programs and projects that are being funded in the annual budget that relate to the strategy developed under subsection (a) and the Presidential Policy Directive issued under subsection (b).

SEC. 1254. SENSE OF CONGRESS ON THE UNITED STATES ALLIANCE WITH JAPAN.

It is the sense of Congress that—

(1) the United States highly values its alliance with the Government of Japan as a cornerstone of peace and security in the region, based on shared
values of democracy, the rule of law, free and open
markets, and respect for human rights in order to
promote peace, security, stability, and economic
prosperity in the Asia-Pacific region;

(2) the United States welcomes Japan’s deci-
sion to contribute more proactively to regional and
global peace and security;

(3) the United States supports recent changes
in Japanese defense policy, including the adoption of
collective self-defense and the new bilateral Guidel-
lines for U.S.-Japan Defense Cooperation which
were approved on April 27, 2015, and will promote
a more balanced and effective alliance to meet the
emerging security challenges of this century;

(4) the United States and Japan should con-
tinue to improve joint interoperability and collabo-
rate on developing future capabilities with which to
maintain regional stability in an increasingly uncer-
tain security environment;

(5) the United States and Japan should con-
tinue efforts to strengthen regional multilateral in-
stitutions that promote economic and security co-
operation based on internationally accepted rules
and norms;

SEC. 1267. UNITED STATES-ISRAEL ANTI-TUNNEL DEFENSE

COOPERATION.

(a) FINDINGS AND SENSE OF CONGRESS.—

(1) FINDINGS.—Congress finds the following:

(A) Tunnels have been used for centuries around the world as a means of avoiding detection or circumventing defenses.

(B) Tunnels can be used for criminal purposes, such as smuggling drugs, weapons, or humans, or for terrorist or military purposes, such as launching surprise attacks or detonating explosives underneath infrastructure.

(C) Tunnels have been a growing threat on the southern border of the United States for more than 11 years, and the Department of Homeland Security has been working to address this threat.

(D) The conflict in Gaza in 2014 showed that terrorists are now actively using tunnels as a means of attack, and news reports indicate that tunnels are being used in Syria as well.

(E) Terrorist organizations are quick to adopt successful tactics, and it is only a matter of time before other terrorist organizations begin using tunnels.
(F) The facilities of the United States, and those of the allies of the United States, could be under threat very quickly if tunnel threats continue to proliferate.

(G) Hamas, Hezbollah, and the Palestinian Islamic Jihad are United States-designated terrorist organizations.

(H) Designated Palestinian terrorist organizations have killed hundreds of Israelis and dozens of Americans in rocket attacks and suicide bombings.

(I) Hamas has used underground tunnels to Israel and Egypt to smuggle weapons, money, and supplies into Gaza and to send members of Hamas out of Gaza for training and to bring trainers in to Gaza to teach Hamas how to manufacture rockets and build better tunnels. Tunnels in Gaza have also been used as underground rocket launching sites, weapons caches, bunkers, transportation networks and command and control centers.

(J) In 2006, Hamas kidnapped Israeli soldier Gilad Shalit through a tunnel and held him for five years.
(K) The Israel Defense Forces discovered 32 tunnels during the conflict with Hamas in the summer of 2014, 14 of which crossed into Israel.

(L) Hamas intentionally uses civilians as human shields by placing its underground tunnel network in densely populated areas and schools, hospitals, and mosques.

(M) Hamas’s placement of explosive material in its vast network of tunnels in Gaza has caused civilian casualties through secondary and tertiary explosions.

(N) While the unemployment rate in Gaza is at 38 percent, it is estimated that Hamas spends $3,000,000 per tunnel.

(O) United Nations Secretary-General Ban Ki-moon said he was “shocked by the tunnels used for the infiltration of terrorists”.

(P) Hamas has claimed to be rebuilding tunnels in Gaza after the war with Israel in the summer of 2014.

(Q) Hezbollah has used underground tunnels in southern Lebanon to move Hezbollah fighters and to launch attacks.
The Palestinian Islamic Jihad claims to be digging new tunnels on the Gaza border. Israel has a right to defend itself from the violence of Palestinian terrorist groups, including the violence that is facilitated through terrorist tunnel networks.

The United States is working cooperatively with the Government of Israel to develop technologies to detect and neutralize tunnels penetrating the territory of Israel.

It is the sense of Congress that—

(A) it is in the best interests of the United States to develop technology to detect and counter tunnels, and the best way to do this is to partner with other affected countries; and

(B) Israel is facing serious threats posed by tunnels and should be the first partner of the United States in addressing this significant challenge.

(b) ASSISTANCE TO ISRAEL TO ESTABLISH AN ANTI-TUNNELING DEFENSE SYSTEM.—

(1) IN GENERAL.—The President, upon request of the Government of Israel, is authorized to carry out research, development, and test activities on a
joint basis with Israel to establish an anti-tunneling

ground tunnels into and directed at the territory of
Israel.

thorized to be appropriated to carry out this section
may be obligated or expended to carry out sub-
section (a) until the President certifies to Congress
the following:

(A) The President has finalized a memo-
randum of understanding or other formal
agreement between the United States and Israel
regarding sharing of research and development
costs for the system described in paragraph (1).

(B) The understanding or agreement—

(i) requires sharing of costs of
projects, including the cost of claims and
in-kind support, between the United States
and Israel on an equitable basis unless the
President determines, on a case-by-case
basis, the Government of Israel is unable
to contribute on an equitable basis;

(ii) requires the designation of pay-
ment of non-recurring engineering costs in
connection with the establishment of a ca-
pacity for co-production in the United States;

(iii) establishes a framework to negotiate the rights to any intellectual property developed under the cooperative research and development projects; and

(iv) requires the United States Government to receive quarterly reports on expenditure of funds by the Government of Israel, including a description of what the funds have been used for, when funds were expended, and an identification of entities that expended the funds.

(3) Assistance.—The President, upon request of the Government of Israel, is authorized to provide assistance to Israel for the procurement, maintenance, and sustainment of an anti-tunneling system described in paragraph (1).

(e) Assistance to Other Allies to Establish an Anti-Tunneling Defense System.—In addition to the memorandum of understanding or other formal agreement described in subsection (b), the President is authorized to seek to enter into a similar memorandum of understanding or other formal agreement with any other ally
of the United States upon request of the government of
such ally.

(d) DESIGNATION OF LEAD DEVELOPMENT AGENCY.—The Secretary of Defense, with the concurrence of
the Secretary of State, shall designate a military depart-
ment or other element of the Department of Defense to

tect and counter tunnels.

submit to Congress a quarterly report that contains
a copy of the most-recent quarterly report provided

1 year after the date of the enactment of this Act,
the Secretary of Defense shall submit to Congress a
report containing the following:
(A) Instances of tunnels being used to attack installations of the United States or allies of the United States.

(B) Trends or developments in tunnel attacks throughout the world.

(C) Key technologies used and challenges faced by potential adversaries of the United States with respect to using tunnels.

(D) The capabilities of the Department of Defense for defending fixed or forward locations from tunnel attacks.

(E) Partnerships entered into with allies of the United States under this section, and potential opportunities for increased partnerships with other allies with respect to researching tunnel detection technologies and the opportunities for co-development or co-production.

(F) The plans, including with respect to funding, of the Secretary for countering threats posed by tunnels.

SEC. 1531. STATEMENT OF POLICY REGARDING EUROPEAN REASSURANCE INITIATIVE.

(a) FINDINGS.—Congress makes the following findings:

(1) In February 2015, Lieutenant General James Clapper (retired), Director of National Intel-
intelligence, testified to the Committee on Armed Services of the Senate that “Russian dominance over the former Soviet space is Russia’s highest foreign policy goal”.

(2) Russia, under the direction of President Vladimir Putin, has demonstrated its intent to expand its sphere of influence beyond its borders and limit Western influence in the region.

(3) The Russian military is aggressively postured on the Ukrainian boarder and continues its buildup of military personnel and material. These aggressive and unwarranted actions serve to intimidate, with a show of force, the Ukrainian people as well as the other nations in the region including Georgia, the Baltic States, and the Balkan States.

(4) In December 2014, Congress enacted the Ukraine Freedom Support Act of 2014 (Public Law 113–272), which gives the President the authority to expand assistance to Ukraine, increase economic sanctions on Russia, and provide equipment to counter offensive weapons.

(5) In February 2015, the Atlantic Council, the Brookings Institute, and the Chicago Council on Global Affairs published a report entitled “Preserving Ukraine’s Independence, Resisting Russian
Aggression: What the United States and NATO Must Do” advocating for increased United States assistance to Ukraine with nonlethal and lethal defensive equipment.

(6) Despite Russia signing the February 2015 Minsk Agreement, it has continued to violate the terms of the agreement, as noted by Assistant Secretary of State for European and Eurasian Affairs, Victoria Nuland, at the German Marshall Fund Brussels Forum in March 2015: “We’ve seen month on month, more lethal weaponry of a higher caliber...poured into Ukraine by the separatist Russian allies...the number one thing is for Russia to stop sending arms over the border so we can have real politics.”

(7) The military of the Russian Federation continues to increase their show of force globally, including frequent international military flights, frequent snap exercises of thousands of Russian troops, increased global naval presence, and the threat of the use of nuclear weapons in defense of the annexation of Crimea in March 2014.

(8) The Government of the Russian Federation continues to exert and increase undue influence on the free will of sovereign nations and people with in-
timidation tactics, covert operations, cyber warfare, and other unconventional methods.

(9) In testimony to the Committee on Armed Services of the House of Representatives in February 2015, Commander of European Command, General Philip Breedlove, United States Air Force, stated that ‘Russia has employed ‘hybrid warfare’...to illegally seize Crimea, foment separatist fever in several sovereign nations, and maintain frozen conflicts within its so-called ‘sphere of influence’ or ‘near abroad’”.

(10) The use of unconventional methods of warfare by Russia presents challenges to the United States and its partners and allies in addressing the threat.

(11) An enhanced United States military presence and readiness posture and the provision of security assistance in Europe are key elements to deterring further Russian aggression and reassuring United States allies and partners.

(12) In the National Defense Authorization Act for Fiscal Year 2015 (Public Law 113–291), Congress authorized and appropriated $1 billion for the European Reassurance Initiative, which supports
Operation Atlantic Resolve of the United States

Armed Forces.

(13) The European Reassurance Initiative expands United States military presence in Europe, through—

(A) bolstered and continual United States military presence;

(B) bilateral and multilateral exercises with partners and allies;

(C) improved infrastructure;

(D) increased prepositioning of United States equipment throughout Europe; and

(E) building partnership capacity for allies and partners.

(14) The European Reassurance Initiative has served as a valuable tool in strengthening the partnerships with the North Atlantic Treaty Organization (NATO) as well as partnerships with non-member allies in the region.

(15) As a result of the NATO 2014 Summit in Wales, NATO has initiated a Readiness Action Plan to increase partner nation funding and resourcing to combat Russian aggression. NATO’s efforts with the Readiness Action Plan and United States investment in regional security through the European Reassur-
ance Initiative will serve to continue and reinforce
the strength and fortitude of the alliance against ne-
farious actors.

(16) The President’s Budget Request for fiscal
year 2016 includes $789.3 million to continue the
European Reassurance Initiative focus on increased
United States military troop rotations in support of
Operation Atlantic Resolve, maintaining and further
expanding increasing regional exercises, and building
partnership capacity.

(b) STATEMENT OF POLICY.—It is the policy of the
United States to continue and expand its efforts in Europe
to reassure United States allies and partners and deter
further aggression and intimidation by the Russian Gov-
ernment, in order to enhance security and stability in the
region. This policy shall include—

(1) continued use of conventional methods, in-
cluding increased United States military presence in
Europe, exercises and training with allies and part-
ners, increasing infrastructure, prepositioning of
United States military equipment in Europe, and
building partnership capacity;

(2) increased emphasis on countering unconven-
tional warfare methods in areas such as cyber war-
fare, economic warfare, information operations, and
intelligence operations, including increased efforts in
the development of strategy, operational concepts,
capabilities, and technologies; and

(3) increased security assistance to allies and
partners in Europe, including the provision of both
non-lethal equipment and lethal equipment of a de-
defensive nature to Ukraine.
