#### EXPLANATION OF WAIVERS

The waiver of all points of order against consideration of H.R. 538 includes a waiver of clause 3(e)(1) of rule XIII ("Ramseyer"), requiring a committee report accompanying a bill amending or repealing statutes to show, by typographical device, parts of statute affected. The waiver is provided because the submission provided by the Committee on Natural Resources was insufficient to meet the standards established by the rule in its current form. The Committee on Rules continues to work with the House Office of Legislative Counsel and committees to determine the steps necessary to comply with the updated rule.

Although the resolution waives all points of order against the amendment in the nature of a substitute to H.R. 538 made in order as original text, the Committee is not aware of any points of order. The waiver is prophylactic in nature.

Although the resolution waives all points of order against the amendments to H.R. 538 printed in part A of this report, the Committee is not aware of any points of order. The waiver is prophylactic in nature.

Although the resolution waives all points of order against consideration of H.R. 702, the Committee is not aware of any points of order. The waiver is prophylactic in nature.

The waiver of all points of order against the amendment in the nature of a substitute to H.R. 702 made in order as original text includes a waiver of clause 7 of rule XVI, which requires that no motion or proposition on a subject different from that under consideration shall be admitted under color of amendment.

Although the resolution waives all points of order against the amendments to H.R. 702 printed in part B of this report, the Committee is not aware of any points of order. The waiver is prophylactic in nature.
