**A BILL**

To modernize Government information technology, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*  
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Modernizing Govern-  
5 ment Technology Act of 2017” or the “MGT Act”.

1 **SEC. 2. FINDINGS; PURPOSES.**

2 (a) FINDINGS.—The Congress finds the following:

3 (1) The Federal Government spends nearly 75  
4 percent of its annual information technology funding  
5 on operating and maintaining existing legacy infor-  
6 mation technology systems. These systems can pose  
7 operational risks, including rising costs and inability  
8 to meet mission requirements. These systems also  
9 pose security risks, including the inability to use cur-  
10 rent security best practices, such as data encryption  
11 and multi-factor authentication, making these sys-  
12 tems particularly vulnerable to malicious cyber activ-  
13 ity.

14 (2) In 2015, the Government Accountability Of-  
15 fice (GAO) designated Improving the Management  
16 of IT Acquisitions and Operations to its biannual  
17 High Risk List and identified as a particular con-  
18 cern the increasing level of information technology  
19 spending on operations and maintenance, making  
20 less funding available for development or moderniza-  
21 tion. The GAO also found the Government has spent  
22 billions on failed and poorly performing information  
23 technology investments due to a lack of effective  
24 oversight.

1           (3) The Federal Government must modernize  
2 Federal IT systems to mitigate existing operational  
3 and security risks.

4           (4) The efficiencies, cost savings, and greater  
5 computing power offered by modernized solutions,  
6 such as cloud computing, have the potential to—

7                 (A) eliminate inappropriate duplication and  
8 reduce costs;

9                 (B) address the critical need for  
10 cybersecurity by design; and

11                 (C) move the Federal Government into a  
12 broad, digital-services delivery model that will  
13 transform the ability of the Federal Govern-  
14 ment to meet mission requirements and deliver  
15 services to the American people.

16         (b) PURPOSES.—The purposes of this Act are the fol-  
17 lowing:

18                 (1) Assist the Federal Government in modern-  
19 izing Federal information technology to mitigate  
20 current operational and security risks.

21                 (2) Incentivize cost savings in Federal informa-  
22 tion technology through modernization.

23                 (3) Accelerate the acquisition and deployment  
24 of modernized information technology solutions, such  
25 as cloud computing, by addressing impediments in

1 the areas of funding, development, and acquisition  
2 practices.

3 **SEC. 3. ESTABLISHMENT OF AGENCY INFORMATION TECH-**

9 agency may establish within such agency an infor-

12 “IT working capital fund”) for necessary expenses  
13 described in paragraph (3).

10 information technology systems in the covered  
11 agency to enhance cybersecurity and to improve  
12 efficiency and effectiveness.

13 the Administrator of the Office of Electronic Gov-  
14 ernment. The head of each covered agency may re-  
15 program and transfer any amounts saved as a direct  
16 result of such activities for deposit into the applica-

2 ble, guidance issued pursuant to section 4(a)(1) to  
3 evaluate applications for funding from the Tech-  
4 nology Modernization Fund established under that  
5 section that include factors such as a strong busi-  
6 ness case, technical design, procurement strategy  
7 (including adequate use of incremental software de-  
8 velopment practices), and program management.

9 (b) REPORTING REQUIREMENT.—

10 (1) IN GENERAL.—Not later than one year  
11 after the date of the enactment of this Act, and

14 lowing, with respect to the IT working capital fund  
15 for the covered agency:
