

DIVISION A – AGRICULTURE, RURAL DEVELOPMENT, FOOD AND DRUG ADMINISTRATION, AND RELATED AGENCIES APPROPRIATIONS ACT, 2018

CONGRESSIONAL DIRECTIVES

The explanatory statement is silent on provisions that were in both the House Report (H.Rpt. 115-232) and Senate Report (S.Rpt. 115-131) that remain unchanged by this agreement, except as noted in this explanatory statement.

The agreement restates that executive branch wishes cannot substitute for Congress's own statements as to the best evidence of congressional intentions, which are the official reports of the Congress. The agreement further points out that funds in this Act must be used for the purposes for which appropriated, as required by section 1301 of title 31 of the United States Code, which provides: "Appropriations shall be applied only to the objects for which the appropriations were made except as otherwise provided by law."

The House and Senate report language that is not changed by the explanatory statement is approved and indicates congressional intentions. The explanatory statement, while repeating some report language for emphasis, does not intend to negate the language referred to above unless expressly provided herein.

In cases in which the House or the Senate have directed the submission of a report, such report is to be submitted to both the House and Senate Committees on Appropriations no later than 60 days after enactment of this Act, unless otherwise directed.

Hereafter, in division A of this statement, the term 'the Committees' refers to the Committees on Appropriations of the House of Representatives and the Senate.

For the appropriations provided by this Act and previous Acts, the departments and agencies funded by this agreement are reminded that the Committees use the definitions for transfer, reprogramming, and program, project, and activity as defined by the Government Accountability Office (GAO) in GAO-04-261SP Appropriations Law—Vol. I and GAO-05-734SP Budget Glossary.

A transfer is the shifting of funds between appropriations. It applies to (1) transfers from one agency to another, (2) transfers from one account to another within the same agency, and (3) transfers to an interagency or intra-agency working fund. In each instance, statutory authority is required.

Reprogramming is the utilization of funds in an appropriation account for purposes other than those contemplated at the time of appropriation. It is the shifting of funds from one object to another within an appropriation.

A program, project, or activity (PPA) is an element within a budget account. PPAs are identified by reference to include the most specific level of budget items identified in the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Act, 2018, accompanying Committee reports, explanatory statements, the Statement of Managers, and budget justifications. Program activity structures are intended to provide a meaningful representation of the operations financed by a specific budget account by project, activity, or organization.

For fiscal year 2018, the Committees continue to include bill language requiring advanced notification of certain agency actions. Notification will be required at least 30 days in advance of any action if (1) a major capital investment is modified; (2) an office is realigned or reorganized; and (3) activities are carried out that were not described in the budget request.

The agreement directs the Office of Budget and Program Analysis (OBPA) of the U.S. Department of Agriculture (USDA) to provide an organizational chart for each agency funded by this Act to the division and subdivision level, as appropriate, by May 1, 2018. The agreement also directs the Food and Drug Administration (FDA), the Commodity Futures Trading Commission (CFTC), and the Farm Credit Administration (FCA) to provide an organizational chart of each agency respectively to the division and subdivision level, as appropriate, by May 1, 2018.

Further, USDA, CFTC, and FDA should be mindful of Congressional authority to determine and set final funding levels for fiscal year 2019. Therefore, the agencies should not presuppose program funding outcomes and prematurely initiate action to redirect staffing prior to knowing final outcomes on fiscal year 2019 program funding. The agreement directs OBPA to provide the Committees with the number of staff years and employees on board for each agency funded by this Act on a quarterly basis.

TITLE I

AGRICULTURAL PROGRAMS

PROCESSING, RESEARCH AND MARKETING

OFFICE OF THE SECRETARY

(INCLUDING TRANSFERS OF FUNDS)

The agreement provides \$46,532,000 for the Office of the Secretary.

The agreement directs the Secretary to provide the report on the Commodity Credit Corporation in H. Rpt. 115-232 under this heading on May 16, 2018 and November 15, 2018.

The agreement recognizes the Department has statutory authorities and programs designed to help break the multi-generational trap of poverty in rural counties and supports USDA's utilization of existing programs and funding within Rural Development (RD) and the Food and Nutrition Service (FNS) in order to assist families, create jobs, and develop a path towards self-sufficiency. Other existing resources such as the extension service and public universities can be used for coordination and outreach activities. The Committees still await the detailed plan required to be submitted by the Secretary detailing all funding resources and bundled services to combat rural poverty.

The agreement includes \$600,000,000 for a rural broadband pilot program to assist in further closing the digital divide. Lack of adequate broadband is an impediment to rural economic development, and deployment of broadband service yields a multitude of socio-economic benefits including: economic growth, improved educational opportunities, and increased access to healthcare options. The agreement reiterates that funding should be prioritized to areas currently lacking access to broadband service, and investments in broadband shall consider any technology that best serves the goals of broadband expansion. Lastly, the agreement restates the importance of coordination among federal agencies in expanding broadband deployment and adoption and expects the Department to take caution to maximize these limited resources and not overbuild or duplicate existing broadband capable infrastructure.

The agreement acknowledges that the United States Department of Homeland Security (DHS) will continue to be responsible for the construction of the National Bio and Agro-Defense Facility (NBAF). The agreement provides an additional \$4,000,000 to USDA to support operational activities of the NBAF.

In addition to \$10,000,000 in mandatory funding available to assist socially disadvantaged and veteran farmers and ranchers, the agreement includes an additional \$3,000,000 in discretionary funding for these activities.

It was the intent of Congress that the Secretary consider the views of all producers who suffered losses related to the consequences of Hurricanes Harvey, Irma, Maria, and other hurricanes and wildfires occurring in calendar year 2017 in determining eligibility for assistance provided in Title I of Public Law No: 115-123.

The agreement provides an additional \$500,000,000 for Water and Waste grants and loans to address infrastructure needs in Rural America, and directs the Secretary to prioritize communities that have the greatest infrastructure needs.

On February 3, 2017, USDA restricted the public's access to the search tool for the Animal Care Inspection System, saying it needed to conduct a comprehensive review of the information on its website. USDA is now posting heavily redacted inspection reports that make it difficult in certain cases for the public to understand the subject of the inspection, assess USDA's subsequent actions, and to evaluate the effectiveness of its enforcement. USDA's actions to date do not meet the requirements in H. Rpt. 115-232 that the online searchable database should allow analysis and comparison of data and include all inspection reports, annual reports, and other documents related to enforcement of animal welfare laws. USDA is directed to comply with these requirements and is reminded that as part of its oversight responsibilities, Congress has the right to make any inquiry it wishes into litigation in which USDA is involved. USDA is directed to respond to any such inquiries fully.

EXECUTIVE OPERATIONS

OFFICE OF THE CHIEF ECONOMIST

The agreement provides \$19,786,000 for the Office of the Chief Economist. This includes \$2,869,000 for the Office of Pest Management Policy, previously funded through the Agricultural Research Service.

OFFICE OF HEARINGS AND APPEALS

The agreement provides \$15,222,000 for the Office of Hearings and Appeals.

OFFICE OF BUDGET AND PROGRAM ANALYSIS

The agreement provides \$9,525,000 for the Office of Budget and Program Analysis.

OFFICE OF THE CHIEF INFORMATION OFFICER

The agreement provides \$58,950,000 for the Office of the Chief Information Officer.

OFFICE OF THE CHIEF FINANCIAL OFFICER

The agreement provides \$6,028,000 for the Office of the Chief Financial Officer.

OFFICE OF THE ASSISTANT SECRETARY FOR CIVIL RIGHTS

The agreement provides \$901,000 for the Office of the Assistant Secretary for Civil Rights.

OFFICE OF CIVIL RIGHTS

The agreement provides \$24,206,000 for the Office of Civil Rights.

AGRICULTURE BUILDINGS AND FACILITIES (INCLUDING TRANSFERS OF FUNDS)

The agreement provides \$64,414,000 for Agriculture Buildings and Facilities.

HAZARDOUS MATERIALS MANAGEMENT (INCLUDING TRANSFERS OF FUNDS)

The agreement provides \$3,503,000 for Hazardous Materials Management.

OFFICE OF INSPECTOR GENERAL

The agreement provides \$98,208,000 for the Office of Inspector General.

OFFICE OF THE GENERAL COUNSEL

The agreement provides \$44,546,000 for the Office of General Counsel.

The Office of General Counsel (OGC) and the Committees have had a longstanding tradition of working together to ensure that legislation is properly drafted and effectuates the Committees' intent. This greatly benefits the Committees as well as USDA. OGC is directed to provide such assistance promptly when requested.

OFFICE OF ETHICS

The agreement provides \$4,136,000 for the Office of Ethics.

OFFICE OF THE UNDER SECRETARY FOR RESEARCH, EDUCATION, AND ECONOMICS

The agreement provides \$800,000 for the Office of the Under Secretary for Research, Education, and Economics.

ECONOMIC RESEARCH SERVICE

The agreement provides \$86,757,000 for the Economic Research Service.

NATIONAL AGRICULTURAL STATISTICS SERVICE

The agreement provides \$191,717,000 for the National Agricultural Statistics Service (NASS), including up to \$63,350,000 for the Census of Agriculture.

The agreement directs NASS to calculate and report in the monthly Agricultural Prices Report on the average price of premium or better alfalfa sold in the United States. Additionally, NASS should work with the Agricultural Marketing Service to develop more robust price discovery mechanisms for alfalfa.

AGRICULTURAL RESEARCH SERVICE

SALARIES AND EXPENSES

The agreement provides \$1,202,766,000 for the Agricultural Research Service (ARS), Salaries and Expenses.

The agreement does not accept the President's budget request regarding the termination of research programs, redirections of research programs, or closure of research locations. The agreement expects extramural research to be funded at no less than the fiscal year 2017 levels. The agreement provides funding increases for cotton ginning, alfalfa, small grains genomics, falling wheat, the National Agricultural Library, the National Arboretum, high performance computing, pear genetics, sustainable water use, warmwater aquaculture, poultry, the U.S. Wheat and Barley Scab Initiative, the Pulse Crop Health Initiative, rangeland research, floriculture, hops research, oriental fruit fly, cattle fever tick, UAS precision agriculture, plant and animal genomic

research preservation, sorghum sugarcane aphid, cranberry and blueberry research, greenhouse research, molecular potato breeding, whitefly research, and human nutrition.

The agreement includes no less than the fiscal year 2017 level for ARS to develop the necessary mechanisms to ensure a viable and qualified scientific workforce is available upon completion of NBAF. The agreement supports implementation of a program to recruit and train scientists, and other technical positions, focused on pathology, virology, immunology, entomology, epidemiology, microbiology, and computational biology for productive USDA careers at NBAF.

The agreement directs ARS to work with the Animal and Plant Health Inspection Service (APHIS) and stakeholders to develop an integrated management program for control of the scale insect pest infestation that is destroying Roseau cane in the Mississippi River's Delta region along the Gulf of Mexico.

The whitefly (*Bemisia tabaci*) epidemic is severely impacting vegetable and cotton production in the Southeast U.S., particularly in Georgia, Mississippi and Alabama. Therefore, the agreement includes \$1,250,000 for whitefly research and directs ARS and the National Institute of Food and Agriculture (NIFA), in cooperation with land-grant universities located in the impacted states, to develop and submit a plan of action which addresses the whitefly problem to the Committees no later than 90 days after the date of enactment of this Act.

The agreement supports additional funding for plant disease research to improve the quality of sugar beet production.

BUILDINGS AND FACILITIES

For ARS Buildings and Facilities, the agreement provides an appropriation of \$140,600,000 for the next highest priorities identified in the USDA ARS Capital Investment Strategy, April 2012.

NATIONAL INSTITUTE OF FOOD AND AGRICULTURE RESEARCH AND EDUCATION ACTIVITIES

The agreement provides \$887,171,000 for the National Institute of Food and Agriculture, Research and Education Activities.

ANIMAL AND PLANT HEALTH INSPECTION SERVICE

SALARIES AND EXPENSES

(INCLUDING TRANSFERS OF FUNDS)

The agreement provides \$981,893,000 for the Animal and Plant Health Inspection Service (APHIS), Salaries and Expenses

The agreement includes a net increase of \$35,681,000 for high priority initiatives in order to protect the plant and animal resources of the Nation from pests and diseases. The agreement provides increases within the total funding level of: \$7,500,000 for Avian Health to help pay for losses due to low pathogenic avian influenza; \$5,000,000 for Cattle Health in support of the Cattle Fever Tick Eradication Program; \$2,000,000 for Agricultural Quarantine Inspection; \$500,000 for Field Crop and Rangeland Ecosystems Pests in order to control or eradicate pests destroying Roseau cane in wetlands near the Mississippi River Delta; \$11,670,000 for Specialty Crop Pests, including \$5,000,000 for the control or eradication of the spotted lanternfly and \$2,500,000 for oriental fruit fly port detection; \$2,000,000 for Tree and Wood Pests; \$2,000,000 for Animal Welfare; and, \$5,000,000 for the Wildlife Damage Management program.

The agreement provides \$30,810,000 for the Animal Welfare program. The agreement directs that APHIS continue its inspections of registered ARS research facilities to ensure their adherence to the Animal Welfare Act.

To address the cattle fever tick infestation in South Texas, the agreement provides an additional \$5,000,000 for all activities under the Cattle Fever Tick Eradication Program (CFTEP) for research and scientific tools concentrating on the following: new systematic cattle fever tick treatment products with longer treatment intervals for cattle; new cattle fever tick treatment

products for wildlife, especially nilgai antelope; and new or improved cattle fever tick preventative therapies, such as vaccines, for both cattle and wildlife hosts. APHIS and ARS are urged to collaborate with Mexican National Animal Health Officials, Mexican State Animal Health Officials from the Mexican states that border Texas, and Mexican livestock and wildlife industry representatives to develop and implement a fever tick control or eradication program that will reduce or eliminate the fever tick population along the Mexican side of the Rio Grande River, and thus the threat of fever tick incursion presented by wildlife and livestock populations across the Rio Grande from the permanent quarantine zone in Texas.

The agreement includes no less than \$3,500,000 for cervid health activities. Within the funds provided, APHIS should give consideration to indemnity payments if warranted.

The agreement directs APHIS to complete the requirements under the Foreign Market Access Requests heading in H.Rpt. 115-232 by July 15, 2018.

The agreement includes a \$6,170,000 increase to help states and producers address the damaging effects of citrus greening disease within the Specialty Crop Pests program as well as a one-time increase of \$7,500,000 for the Huanglongbing Multi-Agency Coordination (HLB-MAC) group.

The agreement includes \$28,000,000 under Wildlife Damage Management for national rabies management, surveillance, and eradication efforts and \$2,000,000 for Wildlife Services education and training. The agreement also provides \$1,600,000 for combatting wildlife depredation to production aquaculture and an additional \$5,000,000 for increased feral swine surveillance. Additionally, no less than \$250,000 should be available for the agency to reduce blackbird depredation in the Northern Great Plains.

The agreement notes that assessing AQI treatment monitoring fees on a per-enclosure basis imposes disproportionate impacts on industry and user groups at certain key ports of entry, including ports along the southeast United States. The agreement encourages USDA to conduct a new study that specifically outlines the actual costs of treatments, examines the disproportionate impact the fee has on airports and seaports in different regions of the U.S., and evaluates alternative and equitable funding mechanisms. Such report should also incorporate due consideration of the recommendations of the Treatment Fee Working Group's September 27, 2016 "Report to APHIS". USDA shall brief the Committees on the status of such study and

other efforts to ensure equitable collection of revenues for vital AQI treatment monitoring efforts no later than 120 days after enactment of this Act.

FARM PRODUCTION AND CONSERVATION PROGRAMS

OFFICE OF THE UNDER SECRETARY FOR FARM PRODUCTION AND CONSERVATION

The agreement provides \$901,000 for the Office of the Under Secretary for Farm Production and Conservation.

Within 90 days of enactment of this Act, USDA is directed to provide to the Committees and the House and Senate Agriculture Committees its reorganization and implementation plans for the new Farm Production and Conservation (FPAC) Mission Area. The reorganization plan should include any cost-benefit analysis, workforce and staffing assessment, and customer service assessments. The implementation plan shall include projected budget and staffing trends for the agencies and business center. The Department shall also provide a detailed spending plan for the FY 2019 budget request to transfer to the FPAC Business Center \$60,228,000 appropriated pursuant to 16 U.S.C. 3841(a). Thereafter, the Department is directed to provide quarterly staffing reports for the FPAC agencies.

FARM PRODUCTION AND CONSERVATION BUSINESS CENTER

The agreement provides \$1,028,000 for the Farm Production and Conservation Business Center.

FARM SERVICE AGENCY SALARIES AND EXPENSES

TITLE IV

DOMESTIC FOOD PROGRAMS

OFFICE OF THE UNDER SECRETARY FOR FOOD, NUTRITION, AND CONSUMER SERVICES

The agreement provides \$800,000 for the Office of the Under Secretary for Food, Nutrition, and Consumer Services.

Some state contracted electronic benefit transfer (EBT) processors are charging switching or routing fees in connection with the routing of SNAP benefits. These fees require retailers and/or those routing transactions on behalf of retailers (often referred to as third party processors) to pay for EBT transaction switching and routing to the State EBT processor that handles the client EBT account. In addition, these fees may seek to offset artificially low cost-per-case-month fees that are bid as part of State contracts, and therefore adversely affect competition among existing or new EBT Processors. Therefore, in the interest of maintaining competitiveness for EBT transaction routing. Section 750 extends existing statutory prohibitions against the charging of fees by State contracted EBT processors in connection with the redemption of USDA domestic food assistance benefits to include the charging of gateway switching or routing fees to SNAP authorized retailers or their third party processors.

FOOD AND NUTRITION SERVICE

CHILD NUTRITION PROGRAMS

(INCLUDING TRANSFERS OF FUNDS)

The agreement provides \$24,254,139,000 for Child Nutrition Programs. Included in the total is an appropriated amount of \$15,382,129,000 and a transfer from Section 32 of \$8,872,010,000.

The agreement provides an increase of \$5,000,000 for the Summer Electronic Benefits Transfer for Children Demonstration and directs USDA to expand the program into new States and areas.

The agreement provides the following for Child Nutrition Programs:

Total Obligational Authority (Dollars in Thousands)

School lunch program	\$13,133,155
School breakfast program	4,807,380
Child and adult care food program	3,832,748

SPECIAL SUPPLEMENTAL NUTRITION PROGRAM FOR WOMEN, INFANTS, AND CHILDREN (WIC)

The agreement provides \$6,175,000,000 for the Special Supplemental Nutrition Program for Women, Infants, and Children.

The agreement fully funds estimated WIC participation in fiscal year 2018. The agreement includes \$60,000,000 for breastfeeding support initiatives; \$14,000,000 for infrastructure; and an increase of \$25,000,000 for the contingency reserve.

The work of the National Academies of Science (NAS) to review and make recommendations for updating the WIC food packages to reflect current science and cultural factors is recognized. The agreement notes, however, that while all revised packages now allow some fish, the amounts remain low compared to the recommendations of other authoritative health agencies. The agreement strongly encourages the Department to consider the health and cultural benefits of fish consumption as the NAS recommendations are reviewed and used to inform the Department's next course of action. The agreement also strongly encourages the Department to continue to allow states to submit cultural food package proposals to respond to the cultural preferences of WIC participants in states like Alaska.

SUPPLEMENTAL NUTRITION ASSISTANCE PROGRAM

The agreement provides \$74,013,499,000 for the Supplemental Nutrition Assistance Program (SNAP).

Animal Generic Drug User Fee Act	9,419
Tobacco Product User Fees	672,000
Subtotal, User Fees	2,337,963
Total, FDA Program Level	<u>\$5,138,041</u>

The agreement provides \$2,800,078,000 in new discretionary budget authority and \$2,337,963,000 in definite user fees for a total of \$5,138,041,000 for Food and Drug Administration, Salaries and Expenses. This total does not include permanent, indefinite user fees for the Mammography Quality Standards Act; Color Certification; Export Certification; Priority Review Vouchers Pediatric Disease; Food and Feed Recall; Food Reinspection; Voluntary Qualified Importer Program; the Third Party Auditor Program; Outsourcing Facility; and Medical Countermeasure Priority Review Vouchers. The agreement expects the FDA to continue all projects, activities, laboratories, and programs as included in fiscal year 2017 unless otherwise specified.

The agreement includes increases of \$1,000,000 to review botanical drug and dietary supplement interactions; \$400,000 to support the Critical Path Initiative; \$2,800,000 to support intramural work and extramural collaborations necessary to begin developing the appropriate lab methods to detect evidence of seafood decomposition; \$300,000 to help expedite the clearance at ports and distribution hubs of critically important medical products; \$15,000,000 for the Oncology Center of Excellence; \$10,500,000 to support produce safety cooperative agreements with states; and \$9,700,000 for the animal drugs and feeds program to manage increased workloads. The agreement also includes \$1,500,000 for the HHS Office of Inspector General specifically for oversight of FDA activities, and \$1,500,000 for consumer education and outreach regarding biotechnology.

The agreement includes a one-time increase of \$2,500,000 to assist the agency in obtaining information from medical specialists and medical specialty groups concerning clinical use of each of the substances nominated for the list developed by the FDA of bulk drug substances for which there is a clinical need ("503B Bulks List"). Additionally, the agreement directs the FDA to follow congressional intent as it relates to human drug compounded medicines and the standards set forth under current Good Manufacturing Practices (CGMP). Given the need for high quality control and patient safety, the agency is instructed to prohibit

outsourcing facilities from compounding drug products from bulk ingredients when outsourcing facilities could otherwise be compounding from an FDA approved drug product.

The agreement also includes a general provision providing \$94,000,000 for the FDA to expand its efforts related to addressing the opioid crisis. According to the FDA, there is an increasing trend in the number of deaths involving fentanyl, a synthetic opioid, being used in combination with other drugs, including cocaine, heroin, and methamphetamine. A significant amount of illicit fentanyl is entering the country as part of the hundreds of millions of parcels that come through International Mail Facilities (IMF) annually. This funding will allow the FDA to strategically strengthen the agency's presence at IMFs to increase its overall operational capacity to inspect more incoming packages. Specifically, this funding is for the FDA to purchase equipment and information technology to identify unapproved and counterfeit pharmaceuticals, and to upgrade laboratory facilities used in this effort. Additionally, funding is provided to better identify and target firms and organizations importing into the United States; increase the staff inspecting packages and to increase the number of packages they are inspecting; increase criminal investigation resources; and increase staff and equipment to efficiently screen imported products.

Additionally, the agreement encourages the FDA to continue implementing the Opioid Action Plan to determine how changes in opioid packaging, distribution, and medication disposal procedures can help mitigate the national opioid crisis, including working to support ongoing efforts at the state and regional level.

The agreement notes that the FDA has not finalized the rule to extend the compliance date for manufacturers for the Nutrition Facts Label Final Rule and the Serving Size Final Rule, which is causing significant confusion and market disruptions, and directs the agency to finalize the rule before July 26, 2018. Further, the agreement directs the agency to issue its conclusions on the status of pending dietary fiber ingredients expeditiously.

The agreement directs the FDA to make the report on Tobacco Product User Fees described in H. Rpt. 115-232 publicly available on its website within 60 days of enactment of the Act.

The agreement notes that the FDA initiated studies concerning glass products for injectable products and directs the FDA to evaluate the agency's study data and any other

appropriate available data and report back to the Committees within 45 days on whether it plans to update the 2011 Advisory to reflect recent science.

Concerns remain about the FDA's ability to meet its legal obligation to protect trade secrets and confidential commercial information the agency obtains from its regulated industries. FDA is overdue in providing a detailed description of its systems to ensure protection of such information and is directed to provide this plan within 60 days of enactment of this Act.

The agreement fully supports the requirement for all covered facilities to have food defense plans but concerns have been raised that the final rule entitled "Mitigation Strategies to Protect Food Against Intentional Adulteration," dated May 27, 2016 (81 Fed. Reg. 34165) is overly prescriptive, costly, and inconsistent with current successful practices that have been used to protect the nation's food supply. In order to address the fundamental concerns with the final rule, the agreement urges the Agency to consider providing more time for further collaborative dialogue with stakeholders.

BUILDINGS AND FACILITIES

The agreement provides \$11,788,000 for the Food and Drug Administration Buildings and Facilities.

FDA INNOVATION ACCOUNT, CURES ACT

The agreement provides \$60,000,000 for the FDA as authorized in the 21st Century Cures Act.

INDEPENDENT AGENCIES

COMMODITY FUTURES TRADING COMMISSION

The agreement provides \$249,000,000 for the CFTC, of which \$48,000,000 is for the purchase of information technology and of which \$2,700,000 is for the Office of Inspector General (OIG). Of this amount for OIG, not less than \$350,000 should be for overhead expenses.

The agreement directs the CFTC to submit, within 30 days of enactment, a detailed spending plan for the allocation of the funds made available, displayed by discrete program, project, and activity, including staffing projections, specifying both FTEs and contractors, and planned investments in information technology.

The agreement hereby restates the language under the headings Swap Dealer de Minimis and Internal Risk Management Transactions in H.Rpt.115-232.

FARM CREDIT ADMINISTRATION

LIMITATION ON ADMINISTRATIVE EXPENSES

The agreement includes a limitation of \$70,600,000 on administrative expenses of the Farm Credit Administration.
