TEXT OF AMENDMENTS TO H.R. 6395 MADE IN ORDER

1. AN AMENDMENT TO BE OFFERED BY REPRESENTATIVE MALONEY OF NEW YORK OR HER DESIGNEE, DEBATABLE FOR 10 MINUTES

Add at the end the following:

**DIVISION F—CORPORATE
TRANSPARENCY ACT OF 2019**

SEC. 6001. SHORT TITLE.

This division may be cited as the “Corporate Transparency Act of 2019”.

SEC. 6002. FINDINGS.

Congress finds the following:

(1) Nearly 2,000,000 corporations and limited liability companies are being formed under the laws of the States each year.

(2) Very few States require information about the beneficial owners of the corporations and limited liability companies formed under their laws.

(3) A person forming a corporation or limited liability company within the United States typically provides less information at the time of incorporation than is needed to obtain a bank account or driver’s license and typically does not name a single beneficial owner.

(4) Criminals have exploited State formation procedures to conceal their identities when forming corporations or limited liability companies in the United States, and have then used the newly created entities to commit crimes affecting interstate and international commerce such as terrorism, proliferation financing, drug and human trafficking, money laundering, tax evasion, counterfeiting, piracy, securities fraud, financial fraud, and acts of foreign corruption.

(5) Law enforcement efforts to investigate corporations and limited liability companies suspected of committing crimes have been impeded by the lack of available beneficial ownership information, as documented in reports and testimony by officials from the Department of Justice, the Department of Homeland Security, the Department of the Treasury, and the Government Accountability Office, and others.

(6) In July 2006, the leading international antimoney laundering standard-setting body, the Financial Action Task Force on Money Laundering (in this section referred to as the “FATF”), of which the United States is a member, issued a report that criticizes the United States for failing to comply with a FATF standard on the need to collect beneficial ownership information and urged the United States to correct this deficiency by July 2008. In December 2016, FATF issued another evaluation of the United States, which found that little progress has been made over the last ten years to address this problem. It identified the “lack of timely access to adequate, accurate and current beneficial ownership information” as a fundamental gap in United States efforts to combat money laundering and terrorist finance.

(7) In response to the 2006 FATF report, the United States has urged the States to obtain beneficial ownership information for the corporations and limited liability companies formed under the laws of such States.

(8) In contrast to practices in the United States, all 28 countries in the European Union are required to have corporate registries that

include beneficial ownership information.

(9) To reduce the vulnerability of the United States to wrongdoing by United States corporations and limited liability companies with hidden owners, to protect interstate and international commerce from criminals misusing United States corporations and limited liability companies, to strengthen law enforcement investigations of suspect corporations and limited liability companies, to set a clear, universal standard for State incorporation practices, and to bring the United States into compliance with international anti-money laundering standards, Federal legislation is needed to require the collection of beneficial ownership information for the corporations and limited liability companies formed under the laws of such States.

SEC. 6003. TRANSPARENT INCORPORATION PRACTICES.

SEC. 13_. SENSE OF CONGRESS REGARDING BIOLOGICAL THREAT REDUCTION AND COOPERATIVE BIOLOGICAL ENGAGEMENT OF THE COOPERATIVE THREAT REDUCTION PROGRAM.

It is the sense of Congress that—

(1) keeping Americans safe means ensuring that global health security is prioritized as a national security issue;

(2) as highlighted by the 2017 National Security Strategy of the United States, biological threats, whether “deliberate attack, accident, or a natural outbreak”, are growing threats and “require actions to address them at their source” through programs carried out by cooperative engagement, such as working “with partners to ensure that laboratories that handle dangerous pathogens have in place safety and security measures”;

(3) the 2017 National Security Strategy of the United States appropriately affirms the importance of supporting advancements in biomedical innovation while mitigating harm caused by advanced bioweapons and capabilities;

(4) the intrinsically linked nature of biological threats, whether naturally occurring, accidental, or deliberate, underscores the relationship between the Global Health Security Strategy of the United States and the National Biodefense Strategy, and the national security tools used to prevent and mitigate these threats must be similarly connected;

(5) biological threats are a critical emerging threat against the United States and addressing these threats through cooperative programs is an opportunity to achieve long-standing nonproliferation goals;

(6) cooperative programs to address biological threats through improved global capacity in the areas of biosafety, biosecurity, bio-surveillance, research oversight, and related legislative and regulatory frameworks have become even more important as the world faces increasing availability of and advancements in biotechnology, which has broad dual-use and proliferation implications;

(7) under the Cooperative Threat Reduction Program of the Department of Defense established under the Department of Defense Cooperative Threat Reduction Act (50 U.S.C. 3701 et seq.), Congress authorized the Secretary of Defense to address such threats through activities to prevent, detect, and report on highly pathogenic diseases or other diseases, “regardless of whether such diseases are caused by biological weapons”;

(8) in 2014, President Obama declared the Ebola virus disease epidemic a national security priority and exercised the authority under such Program to build capacity that mitigated the imminent threat posed by the Ebola virus disease and established capabilities required to prevent future outbreaks;

(9) many of the prevention, detection, and response capacities built in response to the Ebola virus disease epidemic are also those used to prevent, detect, and respond to the use of biological weapons abroad;

(10) continuing to use cooperative engagement programs is in the national security interests of the United States because of the important

relationships established between the United States and partner countries, which are based on ideals such as transparency, information sharing, and a shared responsibility in advancing global security;

(11) the recent coronavirus disease 2019 (COVID-19) global pandemic has illustrated the dire consequences resulting from a single disease that knows no boundaries, impacting the United States economy and the health of United States citizens and members of the Armed Forces, both domestically and abroad;

(12) in light of the impacts caused by COVID-19, and following two congressionally mandated reports that call for better implementation of the biological cooperative engagement programs of the United States and the National Biodefense Strategy (the report published by the Government Accountability Office on March 11, 2020, titled “National Biodefense Strategy: Opportunities and Challenges with Early Implementation” and the report published by the National Academies of Sciences, Engineering, and Medicine on April 14, 2020, titled “A Strategic Vision for Biological Threat Reduction: The U.S. Department of Defense and Beyond”), it is of utmost importance that such programs are given due and increased prioritization for national security purposes; and

(13) the Secretary of Defense and the Secretary of State should make every effort to prioritize and advance the determination, concurrence, and notification processes under the Department of Defense Cooperative Threat Reduction Act (50 U.S.C. 3701 et seq.) to provide for necessary new country determinations in a timely manner and be responsive to emerging biological threats.

(b) **ELEMENTS.**—The study shall—

(1) examine the financial hardships members of the Armed Forces experience as a result of the COVID-19 pandemic, including the effects of stop movement orders, loss of spousal income, loss of hazardous duty incentive pay, school closures, loss of childcare, loss of educational benefits, loss of drill and exercise pay, cancelled deployments, and any additional financial stressors identified by the Secretary;

(2) recommend best practices to provide assistance for members of the Armed Forces experiencing the financial hardships listed in paragraph (1); and

(3) identify actions that can be taken by the Secretary to prevent financial hardships listed in paragraph (1) from occurring in the future.

(1) The people of the United States celebrate cultural and linguistic diversity and seek to prepare students with skills to succeed in the 21st century.

(3) The congressionally requested Commission on Language Learning, in its 2017 report “America’s Languages: Investing in Language Education for the 21st Century”, notes the pressing national need for more people of the United States who are proficient in two or more languages for national security, economic growth, and the fulfillment of the potential of all people of the United States.

(5) Biliteracy in general correlates with higher graduation rates, higher grade point averages, higher rates of matriculation into higher education, and higher earnings for all students, regardless of background.

(8) States such as Utah, Arizona, Washington, and New Mexico have developed innovative testing methods for languages, including Native American languages, where no formal proficiency test currently exists.

(9) The use of proficiency in a government-recognized official Native American language as the base language for a Seal of Biliteracy, with proficiency in any additional partner language demonstrated through tested proficiency, has been successfully demonstrated in Hawaii.

SEC. 1006. SENSE OF THE CONGRESS ON NEED FOR NEW GREAT LAKES ICEBREAKER.

(a) **FINDINGS.**—The Congress finds the following:

(1) The Great Lakes shipping industry is crucial to the American economy, including the United States manufacturing base, providing important economic and national security benefits.

(2) A recent study found that the Great Lakes shipping industry supports 237,000 jobs and tens of billions of dollars in economic activity.

(3) United States Coast Guard icebreaking capacity is crucial to full utilization of the Great Lakes shipping system, as during the winter icebreaking season up to 15 percent of annual cargo loads are delivered, and many industries would have to reduce their production if Coast Guard icebreaking services were not provided.

(4) Six of the Coast Guard’s nine icebreaking cutters in the Great Lakes are more than 30 years old and are frequently inoperable during the winter icebreaking season, including those that have completed a recent service life extension program.

(5) During the previous 10 winters, Coast Guard Great Lakes icebreaking cutters have been inoperable for an average of 65 cutter-days during the winter icebreaking season, with this annual lost capability exceeding 100 cutter days, with a high of 246 cutter days during the winter of 2017–2018.

(6) The 2019 ice season provides further proof that current Coast Guard icebreaking capacity is inadequate for the needs of the Great Lakes shipping industry, as only six of the nine icebreaking cutters are operational, and millions of tons of cargo was not loaded or was delayed due to inadequate Coast Guard icebreaking assets during a historically average winter for Great Lakes ice coverage.

(7) The Congress has authorized the Coast Guard to acquire a new Great Lakes icebreaker as capable as Coast Guard Cutter *Mackinaw*(WLBB-30), the most capable Great Lakes icebreaker, and \$10 million has been appropriated to fund the design and initial acquisition work for this icebreaker.

(8) The Coast Guard has not initiated a new acquisition program for this Great Lakes icebreaker.

(b) SENSE OF THE CONGRESS.—It is the sense of the Congress of the United States that a new Coast Guard icebreaker as capable as Coast Guard Cutter *Mackinaw*(WLBB-30) is needed on the Great Lakes, and the Coast Guard should acquire this icebreaker as soon as possible.

(b) REPORT.—Not later than 30 days after the date of the enactment of this Act, the Commandant shall submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a plan for acquiring an icebreaker as required by section 820(b) of the Frank LoBiondo Coast Guard Authorization Act of 2018 (Public Law 115-282).

(1) the extent to which specifications, key drawings, and detail design for the Polar Security Cutter are complete before the start of construction;

(2) the extent to which Polar Security Cutter hulls numbers one, two, and three are science ready; and

(3) what actions will be taken to ensure that Polar Security Cutter hull number four is science capable, as described in the National Academies of Sciences, Engineering, and Medicine's Committee on Polar Icebreaker Cost Assessment letter report entitled "Acquisition and Operation of Polar Icebreakers: Fulfilling the Nation's Needs" and dated July 11, 2017.

Subtitle C—Arctic

SEC. 4301. COAST GUARD ARCTIC PRIORITIZATION.

(a) **FINDINGS.**—Congress makes the following findings:

(1) The strategic importance of the Arctic continues to increase as the United States and other countries recognize the military significance of the sea lanes and choke points within the region and understand the potential for power projection from the Arctic into multiple regions.

(2) Russia and China have conducted military exercises together in the Arctic, have agreed to connect the Northern Sea Route, claimed by Russia, with China's Maritime Silk Road, and are working together in developing natural gas resources in the Arctic.

(3) The economic significance of the Arctic continues to grow as countries around the globe begin to understand the potential for maritime transportation through, and economic and trade development in, the region.

(4) Increases in human, maritime, and resource development activity in the Arctic region may create additional mission requirements for the Department of Defense and the Department of Homeland Security.

(5) The increasing role of the United States in the Arctic has been highlighted in each of the last four national defense authorization acts.

(6) The United States Coast Guard Arctic Strategic Outlook released in April 2019 states, “Demonstrating commitment to operational

presence, Canada, Denmark, and Norway have made strategic investments in ice-capable patrol ships charged with national or homeland security missions. The United States is the only Arctic State that has not made similar investments in ice-capable surface maritime security assets. This limits the ability of the Coast Guard, and the Nation, to credibly uphold sovereignty or respond to contingencies in the Arctic.”.

(b) **SENSE OF CONGRESS.**—It is the sense of Congress that—

(1) the Arctic is a region of strategic importance to the national security interests of the United States, and the Coast Guard must better align its mission prioritization and development of capabilities to meet the growing array of challenges in the region;

(2) the increasing freedom of navigation and expansion of activity in the Arctic must be met with an increasing show of Coast Guard forces capable of exerting influence through persistent presence;

(3) Congress fully supports the needed and important re-capitalization of the fleet of cutters and aircraft of the Coast Guard, but, the Coast Guard must avoid overextending operational assets for remote international missions at the cost of dedicated focus on this domestic area of responsibility with significant international interest and activity; and

(4) although some progress has been made to increase awareness of Arctic issues and to promote increased presence in the region, additional measures are needed to protect vital economic, environmental, and national security interests of the United States, and to show the commitment of the United States to this emerging strategic choke point of increasing great power competition.

(c) **ARCTIC DEFINED.**—In this section, the term “Arctic” has the meaning given that term in section 112 of the Arctic Research and Policy Act of 1984 (15 U.S.C. 4111).

SEC. 4302. ARCTIC PARS NATIVE ENGAGEMENT.

The Commandant shall—

(1) engage directly with local coastal whaling and fishing communities in the Arctic region when conducting the Alaskan Arctic Coast Port Access Route Study, in accordance with chapter 700 of title 46, United States Code, and as described in the notice of study published in the Federal Register on December 21, 2018 (83 Fed. Reg. 65701); and

Section 305(i)(1)(G)(iv) of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1855(i)(1)(G)(iv)) is amended to read as follows:

“(iv) **VOTING REQUIREMENT.**—The panel may act only by the affirmative vote of at least 5 of its members, except that any decision made pursuant to the last sentence of subparagraph (C) shall require the unanimous vote of all 6 members of the panel.”.

SEC. 4304. REPORT ON THE ARCTIC CAPABILITIES OF THE ARMED FORCES.

(a) **REPORT REQUIRED.**—Not later than 180 days after the date of the enactment of this Act, the Secretary of the department in which the Coast Guard is operating shall submit to the appropriate committees of Congress a report setting forth the results of a study on the Arctic capabilities of the Armed Forces. Add at the end the following:

DIVISION F—KLEPTOCRACY ASSET RECOVERY REWARDS ACT

SEC. 6001.SHORT TITLE.

The division may be cited as the “Kleptocracy Asset Recovery Rewards Act”.

SEC. 6002. FINDINGS; SENSE OF CONGRESS.

(a) **FINDINGS.**—Congress finds the following:

(1) The Stolen Asset Recovery Initiative (StAR), a World Bank and United Nations anti-money-laundering effort, estimates that between \$20 billion to \$40 billion has been lost to developing countries annually through corruption.

(2) In 2014, more than \$480 million in corruption proceeds hidden in bank accounts around the world by former Nigerian dictator Sani Abacha and his co-conspirators was forfeited through efforts by the Department of Justice.

(3) In 2010, the Department of Justice established the Kleptocracy Asset Recovery Initiative, to work in partnership with Federal law enforcement agencies to forfeit the proceeds of foreign official corruption and, where appropriate, return those proceeds to benefit the people harmed by these acts of corruption and abuse of office.

(4) Of the \$20 billion to \$40 billion lost by developing countries annually through corruption, only about \$5 billion has been repatriated in the last 15 years.

(5) Governments weakened by corruption and loss of assets due to corruption have fewer resources to devote to the fight against terrorism and fewer resources to devote to building strong financial, law enforcement, and judicial institutions to aid in the fight against the financing of terrorism.

(6) The United States has a number of effective programs to reward individuals who provide valuable information that assist in the identification, arrest, and conviction of criminal actors and their associates, as well as seizure and forfeiture of illicitly derived assets and the proceeds of criminal activity.

(7) The Internal Revenue Service has the Whistleblower Program, which pays awards to individuals who provide specific and credible information to the IRS if the information results in the collection of taxes, penalties, interest or other amounts from noncompliant taxpayers.

(8) The Department of State administers rewards programs on international terrorism, illegal narcotics, and transnational organized crime with the goal of bringing perpetrators to justice.

(9) None of these existing rewards programs specifically provide monetary incentives for identifying and recovering stolen assets linked solely to foreign government corruption, as opposed to criminal prosecutions or civil or criminal forfeitures.

(10) The recovery of stolen assets linked to foreign government corruption and the proceeds of such corruption may not always involve a BSA violation or lead to a forfeiture action. In such cases there would be

no ability to pay rewards under existing Treasury Department authorities.

(11) Foreign government corruption can take many forms but typically entails government officials stealing, misappropriating, or illegally diverting assets and funds from their own government treasuries to enrich their personal wealth directly through embezzlement or bribes to allow government resources to be expended in ways that are not transparent and may not either be necessary or be the result of open competition. Corruption also includes situations where public officials take bribes to allow government resources to be expended in ways which are not transparent and may not be necessary or the result of open competition. These corrupt officials often use the United States and international financial system to hide their stolen assets and the proceeds of corruption.

(12) The individuals who come forward to expose foreign governmental corruption and kleptocracy often do so at great risk to their own safety and that of their immediate family members and face retaliation from persons who exercise foreign political or governmental power. Monetary rewards can provide a necessary incentive to expose such corruption and provide a financial means to provide for their well-being and avoid retribution.

(b) SENSE OF CONGRESS.—It is the sense of Congress that a Department of the Treasury stolen asset recovery rewards program to help identify and recover stolen assets linked to foreign government corruption and the proceeds of such corruption hidden behind complex financial structures is needed in order to—

(1) intensify the global fight against corruption; and

(2) serve United States efforts to identify and recover such stolen assets, forfeit proceeds of such corruption, and, where appropriate and feasible, return the stolen assets or proceeds thereof to the country harmed by the acts of corruption.

SEC. 6003. IN GENERAL.

(a) DEPARTMENT OF THE TREASURY KLEPTOCRACY ASSET RECOVERY REWARDS PROGRAM.—Chapter 97 of title 31, United States Code, is amended by adding at the end the following:

“(A) personally authorizes such greater amount in writing;

“(B) determines that offer or payment of a reward of a greater amount is necessary due to the exceptional nature of the case; and

“(C) notifies the appropriate committees of the Congress of such determination.

“(3) APPROVAL.—

“(A) IN GENERAL.—No reward amount may be paid under this section without the written approval of the Secretary.

“(B) DELEGATION.—The Secretary may not delegate the approval required under subparagraph (A) to anyone other than an Under Secretary of the Department of the Treasury.

“(4) PROTECTION MEASURES.—If the Secretary determines that the identity of the recipient of a reward or of the members of the recipient’s immediate family must be protected, the Secretary shall take such measures in connection with the payment of the reward as the Secretary considers necessary to effect such protection.

“(5) FORMS OF REWARD PAYMENT.—The Secretary may make a reward under this section in the form of a monetary payment.

“(f) INELIGIBILITY, REDUCTION IN, OR DENIAL OF REWARD.—

“(1) OFFICER AND EMPLOYEES.—An officer or employee of any entity of Federal, State, or local government or of a foreign government who, while in the performance of official duties, furnishes information described under subsection (b) shall not be eligible for a reward under this section.

“(2) PARTICIPATING INDIVIDUALS.—If the claim for a reward is brought by an individual who the Secretary has a reasonable basis to believe knowingly planned, initiated, directly participated in, or facilitated the actions that led to assets of a foreign state or governmental entity being stolen, misappropriated, or illegally diverted or to the payment of bribes or other foreign governmental corruption, the Secretary shall appropriately reduce, and may deny, such award. If such individual is convicted of criminal conduct arising from the role described in the preceding sentence, the Secretary shall deny or may seek to recover any reward, as the case may be.

(3) the types of suspicious financial activity that are associated with illicit trafficking networks, and how financial institutions identify and report such activity;

(7) what role gatekeepers, such as lawyers, notaries, accountants, investment advisors, logistics agents, and trust and company service providers, play in facilitating trafficking networks and the laundering of illicit proceeds; and
