DIVISION K - DEPARTMENT OF STATE, FOREIGN OPERATIONS, AND RELATED PROGRAMS APPROPRIATIONS ACT, 2022

The explanatory statement accompanying this division is approved and indicates congressional intent. In implementing this agreement, Federal departments, agencies, commissions, and other entities are directed to comply with the directives, reporting requirements, and instructions contained in the H. Rept. 117-84 (House report) accompanying H.R. 4373 (House bill) as though stated in this explanatory statement, unless specifically directed to the contrary.

This explanatory statement, while repeating some House report language for emphasis or clarification, does not negate language in such report unless expressly provided herein. Language expressing an opinion or making an observation in the House report represents the view of the House committee unless specifically endorsed in this explanatory statement.

Reports required to be submitted pursuant to the Act, including reports required by this explanatory statement and the House report, may not be consolidated to include responses to multiple requirements in a single report, except following consultation with the Committees on Appropriations.

For purposes of this explanatory statement, the term “the Act” means the Department of State, Foreign Operations, and Related Programs Appropriations Act, 2022, and the term “prior Acts” means prior Acts making appropriations for the Department of State, foreign operations, and related programs. In addition, “division K of Public Law 116-260” means the Department of State, Foreign Operations, and Related Programs Appropriations Act, 2021; “division G of Public Law 116-94” means the Department of State, Foreign Operations, and Related Programs Appropriations Act, 2020; “division F of Public Law 116-6” means the Department of State, Foreign Operations, and Related Programs Appropriations Act, 2019; “division J of Public Law 115-31” means the Department of State, Foreign Operations, and Related Programs Appropriations Act, 2017; and “division K of Public Law 113-76” means the Department of State, Foreign Operations, and Related Programs Appropriations Act, 2014.

For the purposes of this Act, the term “regular notification procedures of the Committees on Appropriations” shall mean such Committees must be notified not less than 15 days in advance of the initial obligation of funds, and the term "reporting procedures of the Committees on Appropriations" shall mean a report must be provided to such Committees not more than 90 days after the conclusion of fiscal year 2022.

Federal agencies funded by the Act shall notify the Committees on Appropriations of any reprogramming, as required by section 7015 of the Act, at the most detailed level of the Congressional Budget Justification (CBJ), the Act, or this explanatory statement.

Congressional notifications submitted by the heads of the Federal agencies funded in the Act for funds that are being reallocated prior to initial obligation, reprogrammed, or reobligated after deobligation, shall, to the maximum extent practicable, contain detailed information about the sources of the funds and why such funds are no longer needed or intended to be used as previously justified.

The agencies and entities funded by the Act are directed to obligate the funds appropriated for fiscal year 2022 in a prudent but timely manner.

Section 7019 of the Act requires that amounts designated in the respective tables included in this explanatory statement for funds appropriated in titles III through V, including tables in title VII, shall be made available in the amounts designated, unless otherwise provided for in the Act, and shall be the basis of the report required by section 653(a) of the Foreign Assistance Act of 1961 (FAA) (653(a) report), where applicable. In lieu of the tables and allocations of funding contained in the House report, the tables and allocations contained in this explanatory statement shall guide departments, agencies, commissions, and other entities when allocating funds. The Act provides that the amounts designated in the tables shall be made available notwithstanding the date of the transmission of the 653(a) report. The authority of section 7019(b) to deviate by more than 10 percent shall not be used to deviate to zero unless such funds cannot be legally obligated or conditions are such that such deviation is directly related to the national security interest of the United States.

Proposed deviations from tables in titles I and II in this explanatory statement are subject to the regular notification procedures of the Committees on Appropriations, unless an exception or deviation authority is specifically provided in the Act or this explanatory statement.

The Secretary of State and the Administrator of the United States Agency for International Development (USAID) shall continue to provide the Committees on Appropriations electronic copies of all reports, notifications, spend plans, and any other documents required by the Act, prior Acts, this and prior explanatory statements and statements of managers, the House report, and prior reports.

For purposes of the Act and this explanatory statement, the term “prior consultation” means a pre-decisional engagement between a relevant Federal agency and the Committees on Appropriations during which such Committees are given a meaningful opportunity to provide facts and opinions, in advance of any public announcement, to inform: (1) the use of funds; (2) the development, content, or conduct of a program or activity; or (3) a decision to be taken. Additionally, section 7020 of the Act includes specific requirements regarding multi-year pledges.

Notwithstanding authority included in any provision of the Act shall not be construed to exclude the requirements of such provision.

Pursuant to section 7016(b) any Federal agency receiving funds made available by the Act shall post on its publicly available website any report required by the Act not later than 45 days following the receipt of such report by Congress. This requirement does not apply if: (1) the public posting of the report would compromise national security, including the conduct of diplomacy; (2) the report contains proprietary, privileged, or sensitive information; or (3) the public posting of the report is specifically exempted in the House report or this explanatory statement.

For purposes of the Balanced Budget and Emergency Deficit Control Act of 1985 (Public Law 99-177), with respect to appropriations contained in the Act, the term “program, project, and activity” (PPA) means any item for which a dollar amount is specified in the Act or this explanatory statement. In addition, the definition of PPA in section 7023 of the Act shall apply to

the accounts listed in that section. In carrying out any Presidential sequestration, Federal agencies funded by the Act shall conform to the definition of PPA described in this paragraph.

In submitting annual CBJs, each Federal agency funded by the Act shall include detailed information on all available resources, including estimated prior year unobligated balances and recoveries, reimbursable agreements, funds transferred pursuant to section 632(a) and (b) of the FAA and significant uses of the Economy Act (31 U.S.C. 1535). Agencies that use a Working Capital Fund (WCF) shall include in CBJs the total budgetary resources for each office that receives funds from a WCF, and include a table on WCF resources that will serve as a baseline for reprogramming and transfer purposes. CBJs shall also include estimated savings from any proposed office or mission closure or reorganization, elimination of special envoys and other senior level special representatives, and actual prior year representation expenses for each department and agency where such expenses are authorized.

Spend plans submitted pursuant to section 7062(b) of the Act shall: (1) include all intended sources of funds made available by the Act and any other resources, as applicable, for such program; and (2) conform to the definition of such plan under section 7034(t)(4) of the Act.

Consistent with prior fiscal years, none of the funds made available by the Act may be used to send or otherwise pay for the attendance of more than 50 employees of Federal agencies who are stationed in the United States at any single international conference occurring outside the United States, unless the Secretary of State reports to the appropriate congressional committees at least 5 days in advance that such attendance is important to the national interest. For purposes of this restriction, the term "international conference" means a conference attended by representatives of the United States Government and of foreign governments, international organizations, or nongovernmental organizations (NGOs).

Federal agencies funded by the Act shall not provide bonuses to government contractors who fail to complete their contract in a satisfactory manner, including as a result of avoidable scheduling delays or cost overruns.

In lieu of language in the House report under the heading *COVID-19 Response and Recovery*, the agreement provides for the safety of United States citizens by combating infectious diseases and strengthening health systems abroad.

In lieu of the directive in the House report regarding the response to the global pandemic, the USAID Administrator should ensure such programming is inclusive of all affected communities, including marginalized groups, that may experience barriers in access to government services.

The agreement does not endorse directives under certain House report headings: *Discrimination of LGBTQI+ persons; Non-Discrimination Policies* (under Operating Expenses); and *Mexico*, regarding funding for violence prevention programs at Mexico's northern border.

The language in the House report under the heading *Bill Organization* regarding women's health and family planning is modified by the agreement.

For the purposes of this explanatory statement, the term "designated as an emergency requirement" means that such amount is designated as an emergency requirement pursuant to a concurrent resolution on the budget or the Balanced Budget and Emergency Deficit Control Act of 1985.

In addition to amounts in this division, the agreement includes \$6,800,000,000 in division N for assistance to respond to the situation in Ukraine and in countries impacted by the situation in Ukraine and for additional support for other vulnerable populations and communities and \$5,000,000,000 in division M to support the global response to the COVID-19 pandemic. Each of the additional amounts are designated as an emergency requirement.
