Professional Profile

Business leader working within the Agricultural space to create and launch innovation. Innovative work done with early stage companies to create team building, communication with investors, and develop strategic partnerships. I also have thirty plus years of on the ground experience in growing crops and raising cattle. In addition I was involved for almost a decade in Agricultural lending to farmers and ranchers.

Personal Statement	<p>Finally to the important items in my life. I have been married 33 years to Christal Tiller who is a wonderful business partner. She has provided me with the guidance to remember what is really valuable, and that would be three wonderful daughters and a son. All grown and proving to be productive citizens. These children have contributed two son-in-laws, two granddaughters and three grandsons to the clan. They should add to all these categories going forward. We are involved in church and community and this group keeps me reminded that I must contribute more to these most important institutions.</p>
