Name: Joe L. Outlaw
Title: Professor and Extension Economist-Farm Management and Policy
Department: Agricultural Economics
Program Unit: 755

EDUCATION

- **Ph.D.** Agricultural Economics, Texas A&M University, College Station, TX, December 1992.
Major area: Agricultural Economics with specializations in Production Economics and Agricultural Policy.
Dissertation: "The Impacts of Regional Structural Changes on the Supply Response of Milk in the United States."
Major Professor: James W. Richardson
- **M.S.** Agricultural Economics, Texas A&M University, College Station, TX, December 1988.
Major area: Agricultural Economics with an Agricultural Policy and Community Economics emphasis.
Thesis: "A Framework for Identifying Rural Agribusiness Centers."
Major Professor: Ronald D. Knutson
- **B.S.** Agricultural Economics, Texas A&M University, College Station, TX, May 1987.

POSITION DESCRIPTION

Current Appointment: Professor and Extension Specialist - 100% Extension
Dates: September 2005 - Present

Detailed Job Description

Dr. Outlaw's responsibilities as the state-level Extension Economist-Policy are to provide leadership in the development and delivery of extension educational programs in agricultural policy. This entails providing the appropriate information and educational materials to all levels of extension faculty (county agents to Extension administration), clientele groups, and other interested organizations and individuals. A major emphasis of the program is working individually or as a team member to conduct applied research and disseminate educational programs to clientele. Examples of these programs include: analyzing the effects of alternative technologies, agricultural and environmental policies, and renewable fuels.

Since 1997, Dr. Outlaw has provided leadership as Coordinator of the Financial and Risk Management (FARM) Assistance Program funded by the Texas Legislature. In 2002, Dr. Outlaw assumed all of the responsibilities for developing educational programs and materials on agricultural policy for Texas Cooperative Extension. At that time, a Co-Coordinator of the FARM Assistance program was appointed to oversee the day-to-day operations of risk management specialists who are extending the model's analytical capacity to producers. Dr. Outlaw remains involved in overall FARM Assistance program management and direction.

With his current agricultural policy job responsibilities, Dr. Outlaw has become a leader in Agricultural and Food Policy Center (AFPC) activities. In September 2003, Dr. Outlaw was named Co-Director of AFPC. In this role, he works with U.S. Congressional Agricultural Committee Staff to analyze their requests, prepare reports, and present research findings. He also plays a key role in securing the annual appropriations for AFPC from Congress.

PAST EXPERIENCE

September 2000 to August 2005 - **Associate Professor and Extension Specialist**, Texas Cooperative Extension. Appointment: Extension 100%

Responsibilities: From 1997 to 2002, Dr. Outlaw provided leadership as Coordinator of the Financial and Risk Management (FARM) Assistance Program funded by the Texas Legislature. At that time, a Co-Coordinator of the FARM Assistance program was appointed to oversee the day-to-day operations of risk management specialists who are extending the model's analytical capacity to producers. Dr. Outlaw remains involved in overall FARM Assistance program management and direction.

September 1995 to August 2000 - **Assistant Professor and Extension Specialist**, Texas Agricultural Extension Service. Appointment: Extension 100%

Responsibilities: Provided leadership in the development and delivery of extension educational programs in crop farm management and policy.

January 1996 to January 1999 - **Extension Economist District 9 (Southeast Texas)**, Texas Agricultural Extension Service. Appointment: Extension 100%

Responsibilities: Served as the resource specialist in agricultural economics for the district. Conducted educational programs on economics for crop and livestock producers as well as County Extension Agents.

September 1992 to September 1995 - **Assistant Research Scientist**, Agricultural and Food Policy Center, TAES, Texas A&M University. Appointment: Research 100%.

Responsibilities: Worked as a member of the AFPC team. Led AFPC research in the analysis of the impacts of dairy and environmental policy changes. Conducted applied research at the request of the U.S. Congress on representative crop and livestock farms. Participated as a member of the Cornell Dairy Markets and Policy Extension Education Committee, which is comprised of the top dairy economists in the United States.

May 1990 to September 1992 - **Research Associate**, Agricultural and Food Policy Center, TAES, Texas A&M University. Appointment: Research 100%.

Responsibilities: Worked with AFPC faculty to evaluate the effects of alternative farm policies on representative farms. Developed 22 representative dairy farms and several crop and livestock farms in various locations across the United States. Assisted AFPC faculty members in the development of research proposals. Worked with AFPC faculty to analyze requested quick turnaround analyses of policy proposals, such as the impacts of changing federal milk marketing order differentials and establishing two-tier milk pricing plans.

January 1990 to May 1990 - **Assistant Lecturer**, Department of Agricultural Economics, Texas A&M University. Appointment: Teaching 100%.

Responsibilities: Taught AGEC 429, the undergraduate agricultural and food policy course consisting of 99 students. Developed materials for classroom instruction, lectured and interacted with students on a daily basis. Graded tests and weekly quizzes and assigned grades.

September 1988 to December 1989 - **Extension Associate**, TAEX, Texas A&M University. Appointment: Extension 100%.

Responsibilities: Primarily responsible for research on the W. K. Kellogg Foundation project, Policy Options and Strategies for Total Community Adjustment: A Texas Program Model. Met with community leaders in 19 communities in the Texas Panhandle to assist in developing strategic plans for the region as a whole.

June 1987 to August 1988 - **Graduate Assistant**, TAEX, Texas A&M University. Appointment: Extension 50%. **Responsibilities:** Conducted research aimed at identifying rural agribusiness centers and their characteristics. This research spanned five states (Texas, Kansas, Alabama, Georgia, and Mississippi). Developed and administered three questionnaires to gather primary data from local community leaders. Resulting master's thesis was used to prepare final project report to the Southern Rural Development Center.

September 1987 to September 1988 - **Tutor**, Texas A&M Athletic Department, Texas A&M University. **Responsibilities:** Provided student athletes assistance with agricultural economics, economics, and statistics course material.

December 1986 to June 1987 - **Student Technician**, for Ron Knutson, TAEX, Texas A&M University. **Responsibilities:** Reviewed literature regarding factors impacting business location decisions.

PROFESSIONAL HONORS AND AWARDS

- **Southern Agricultural Economics Association, 2020** – Outstanding Extension Program Award Team. This award recognizes excellence in extension programming for the Southern Extension Committee Task Force on the Farm Economy Downturn.
- **Texas Wheat Producers Board, 2019** – Man of the Year. This award recognizes the dedicated service to the wheat producers of Texas.
- **The College of Agriculture and Life Sciences, Texas A&M University, 2019** – Honor Professor Award. This award is voted on by the COALs Council and given to one Honors Faculty member from the College each year.
- **Western Agricultural Economics Association, 2018** – Fellow. This award recognizes contributions to the WAEA over a career.
- **Texas A&M University Board of Regents, 2016** – Regents Service Fellow. This award recognizes long-term service to clientele.

- **Southern Agricultural Economics Association, 2016** – Outstanding Extension Program Award Team. This award recognizes excellence in extension programming for the Texas A&M Farm Bill Decision Aid Team.
- **Southern Agricultural Economics Association, 2016** – Lifetime Achievement Award. This award recognizes individuals in the Southern Region for their significant and enduring contributions to the Agricultural Economics Profession.
- **Texas AgriLife Extension Service Superior Service Unit Award, 2016.** (Agricultural Economics Extension Farm Bill Education Team)
- **National Excellence in Extension Award, 2015.** The Extension Committee on Organization and Policy and the National Institute of Food and Agriculture, USDA. This award recognizes one Extension Specialist in the Nation annually for excellence.

- **Southern Region Excellence in Extension Award, 2015. The Association of Southern Region Extension Directors.** This award recognizes one Extension Specialist in the Southern Region annually for excellence.
- **Texas Commodity Symposium, 2014** – Distinguished Service Award for service to the Texas Corn Producers, Plains Cotton Growers, Texas Sorghum Producers, and Texas Wheat Producers.
- **Texas Independent Ginners Association, 2013** – Distinguished Service Award for service to the Texas Cotton Ginning Industry.
- **Southern Agricultural Economics Association, 2011** – Outstanding Teaching of a Course Award. Award for excellence in teaching AgEcon 429, Agricultural and Food Policy.
- **The Agricultural and Applied Economics Association, 2010** – Distinguished Extension/Outreach Program Group. This award recognizes excellence in team extension programming for their development and on-going leadership in the Farm Assist – Risk Management program.
- **Southern Agricultural Economics Association, 2010** – Team Award. This award recognizes excellence in team extension programming for their development and on-going leadership in the Farm Assist – Risk Management program.
- **The Gold Quill Award, The Journal of the American Society of Farm Managers and Rural Appraisers (ASFMRA), 2009.** Presented to the author(s) of the most outstanding Journal article published in a particular Volume year.
- **Superior Service Specialist Award, Texas AgriLife Extension Service, 2008.** Several awards are given annually.
- **Superior Service Team Award, Texas AgriLife Extension Service, 2008.** Award was for the Food versus Fuel outreach activity. Several awards are given annually. Co-recipient with J.W. Richardson, D.P. Anderson, H. Bryant, and M. Welch.
- **Distinguished Achievement Award for Extension, Outreach, Continuing Education, and Professional Development, Association of Former Students University Level Awards, 2008.** Award was for career achievement in Extension. Only one such award is presented each year.
- **Outstanding Extension Program Award, Western Agricultural Economics Association, 2008.** Award was for the Financial and Risk Management (FARM) Assistance Unit. Only one such award is presented each year. Co-recipient with FARM Assistance team.
- **Superior Service Unit Award, Texas AgriLife Extension Service, 2007.** Award was for the Financial and Risk Management (FARM) Assistance Unit. One award is given annually. Co-recipient with FARM Assistance team.
- **President's Award, American Agricultural Economics Association, 2007.** Award was for initiative, risk, imagination, and labor in improving, redesigning, and expanding the AAEE's outreach organ, *CHOICES*. Co-recipient with B. McCarl, R. Nayga, O. Capps, and J. Penson.
- **Outstanding Public Issues Education Program Award, National Public Policy Education Committee, 2003.** Award was for developing 2002 Farm Bill educational curriculum and conducting educational seminars across the United States. One award is presented each year. Co-recipient with J. Novak (Auburn University), L. Sanders (Oklahoma State University), N. Smith (University of Georgia), B. Lubben (Kansas State University), J. Johnson (Montana State University), M. Stephenson (Cornell University), J. Pease (Virginia Tech), and J. Richardson.

- **Distinguished Extension Program Group Award, American Agricultural Economics Association, 2003.** Award was for developing and implementing the 2002 Farm Bill Education Program. Only one such award is presented each year. Co-recipient with J. Richardson, D. Anderson, S. Klose, and J. Sartwelle.
- **Administrator's Award, Farm Service Agency, USDA, 2003.** Award was for developing the Base and Yield Analyzer and partnering with FSA/USDA to provide access to the decision software to all U.S. farmers via the FSA web site. Several such awards are presented each year. Co-recipient with J. Richardson, K. Rister, and R. Ostensen.
- **Administrator's Award, Farm Service Agency, USDA, 2003.** Award was for partnering with FSA/USDA to provide farm bill educational seminars across the United States. Several such awards are presented each year. Co-recipient with J. Novak (Auburn University), L. Sanders (Oklahoma State University), N. Smith (University of Georgia), B. Lubben (Kansas State University), J. Johnson (Montana State University), M. Stephenson (Cornell University), J. Pease (Virginia Tech), and J. Richardson.
- **Distinguished Extension Program Award, Southern Agricultural Economics Association, 2003.** Award was for developing and implementing the 2002 Farm Bill Education Program. Only one such award is presented each year. Co-recipient with J. Richardson, D. Anderson, S. Klose, and J. Sartwelle.
- **Deputy Chancellor's Award in Excellence for an Extension Team in the College of Agriculture and Life Sciences, Texas A&M University, 2003.** Award was for developing and implementing the 2002 Farm Bill Educational Program. Only one such award is presented each year. Co-recipient with J. Richardson, D. Anderson, and S. Klose.
- **Outstanding Public Issues Education Program Award, National Public Policy Education Committee, 2002.** Award was in recognition of chairing, planning, and editing a publication of 39 farm bill educational papers used extensively by members of Congress and their staffs. Normally one such award is presented each year. Co-recipient with E. Smith.
- **Director's Award for Innovative Application of Information Technology in Extension Education, Texas Cooperative Extension, 2002.** Award was in recognition of the innovative use of a web site for disseminating information to clientele. This was the initial award given in this category. Two awards are given annually. Co-recipient with D. Anderson, J. Richardson, S. Klose, K. Rister, N. Outlaw, and G. Travis.
- **Epsilon Sigma Phi, National Honorary Extension Fraternity State Early Career Award, 2002.** Award was in recognition of program development and achievement for Specialists with less than 10 years of service. Several of these awards are given annually.
- **American Agricultural Economics Association Distinguished Policy Contribution Award, 1996-97.** Award was in recognition of national policy education activities related to the 1996 Farm Bill by the Agricultural and Food Policy Center (AFPC) team. One Distinguished Policy Contribution Award is presented each year. Co-recipient with R. Knutson, E. Smith, J. Richardson, J. Penson, D. Anderson, R. Schwart, J. Perera, A. Gray, S. Klose, J. Miller, and D. Ernstes.
- **Deputy Chancellor's Award in Excellence for Graduate Student Research in the College of Agriculture and Life Sciences, Texas A&M University, 1993.** Award was for graduate research relating to dairy policy research activities. This was the initial award given in this category. Only one such award is presented each year.
- **Deputy Chancellor's Award in Excellence for Team Research in the College of Agriculture and Life Sciences, Texas A&M University, 1993.** Award was in recognition of efforts related to the policy education activities of the Agricultural and Food Policy Center (AFPC) team. Only one such award is presented each year. Co-recipient with R. Knutson, E. Smith, J. Richardson, J. Penson, P. Rosson, J. Davis, and D. Anderson.

EXTENSION ACTIVITIES

Percent of time budgeted to Extension - 100%

Program Statement:

Dr. Outlaw's employment as a specialist with Texas A&M AgriLife Extension Service began in September 1995. Initially, his primary job responsibilities were in the area of crop farm management. In this role, his goal was to develop relevant educational programs on issues impacting farm management decisions across the state using conventional and state-of-the art educational media such as the internet and World Wide Web (WWW). Additionally, in his role as Co-coordinator of the Financial and Risk Management (FARM) Assistance program, Dr. Outlaw continues to educate Texas producers and agribusinesses in managing risk from all sources. This is accomplished by analyzing individual producer data with the FARM Assistance computerized risk management decision aid, enabling producers to receive a quantitative assessment of the amount of risk that is reduced by employing alternative risk management strategies.

Dr. Outlaw's position has broadened as he has added responsibilities in the area of agricultural policy. With this change in program direction, Dr. Outlaw has used his association with the Agricultural and Food Policy Center to be proactive in developing educational programs for Texas clientele. For example, knowing what the likely policy will be allows him to be proactive and out in front with his educational programs and materials.

Dr. Outlaw has received national recognition for his work in agricultural policy. Specifically, he has developed educational programs and materials related to each Farm Bill since 1996 that have been used by extension educators across the United States.

In 2004, Dr. Outlaw along with Drs. McCarl, Capps, Nayga, and Penson (also in Agricultural Economics) were selected to serve as editors for the American Agricultural Economics Association publication, Choices: The Magazine of Food, Farm, and Resource Issues. In this role Dr. Outlaw had the responsibility for articles associated with agriculture and trade. Choices is intended to be an outreach vehicle for the association designed to communicate with a broad audience. Their term as editors ended in May 2007.

Summary of Major Achievements:

- **Post-2002 Farm Bill Education** - In his role with the Agricultural and Food Policy Center (AFPC), Dr. Outlaw conducts analyses of the impacts of various farm policy proposals that originate from the House and Senate Agricultural Committees. Such work allowed Dr. Outlaw to get a head-start on the development of a comprehensive educational program for the 2002 Farm Bill. Dr. Outlaw developed a web site to serve as a "one-stop source" for information regarding the farm bill. The web site was a coordinated educational effort encompassing meetings with producers from around the state and nation, educational meetings using distance education techniques, web-based supporting information, and decision aid software. Recognizing the Farm Service Agency (FSA) had limited resources to train and educate all of the interested parties, the farm bill education team coordinated with FSA to take the lead in educational and informational efforts across the state.

The educational program included a wide range of information useful to producers ranging from basic information regarding the details of the legislation, to interactive question and answer forums, to software aids that assist producers in understanding the impacts of the bill on individual operations. Two components of particular significance were: (1) An informational package developed for viewing and downloading the provisions of the 2002 Farm Bill. The package included real-time updates to the materials with revision/addition dates, making it simple to check for new updates. This package was updated more than 20 times and contains over 100 pages of information available in four software formats. The updated information reflected changes as USDA implemented the rules of the farm bill. As a testament to the reliability and usefulness of the contents of this package, it was used by FSA in their own national farm bill educational training; and (2) The Base and Yield Analyzer (BYA) software designed to help producers analyze their base

and yield updating decision in a risk framework. This effort required an unprecedented level of cooperation with FSA. As implementation decisions were made, the software was updated to reflect those decisions. While the software was designed to assist Texas producers, the endorsement of this software by FSA and the use in every county office in the United States is a testament to the success of this effort. The software was run by producers in 48 states more than 430,000 times to assist them in analyzing base and yield update decisions on more than 140 million acres nationwide.

The 2002 Farm Bill education program developed by Dr. Outlaw and his team received both the American and Southern Agricultural Economics Associations' Distinguished Extension Program Award; the Deputy Chancellor's Award in Excellence for an Extension Team in the College of Agriculture and Life Sciences, Texas A&M University; and the Texas Cooperative Extension Director's Award for Innovative Application of Information Technology in Extension Education. In addition, the BYA analyzer was recognized with a Farm Service Agency Administrator's Award for cooperating in the development and dissemination of the software.

Dr. Outlaw also joined with Extension colleagues from across the U.S. to develop and deliver a train-the-trainer program, working in cooperation with FSA. The four regional meetings trained 97 trainers. This team received a Farm Service Agency Administrator's Award and was recognized with the 2003 Outstanding Public Issues Education Program Award from the National Public Policy Education Committee.

- **Pre-2002 Farm Bill Education** - Dr. Outlaw chaired a two-year, national effort of extension educators in the development of an educational publication on the primary farm bill options and their likely consequences. Dr. Outlaw and Dr. Edward Smith served as the publication editors. Dr. Outlaw secured authors and reviewers for each of the leaflets and managed the entire publication process. The publication contained 39 educational leaflets and was distributed to over 1,000 agricultural interests including: members of the U.S. Congress, commodity organizations, and extension educators across the United States. The publication was developed in printed form and was made available on the web as well as on a cd-rom. Dr. Outlaw received the 2002 Outstanding Public Issues Education Program Award from the National Public Policy Education Committee for his work on the publication.
- **Ethanol Feasibility Analyses/Alternative Energy** - In 2002, Dr. Outlaw was asked by the Texas Office of the Comptroller to evaluate the feasibility of ethanol production in several regions of Texas using alternative feedstocks. He assembled a research team that moved beyond the traditional approach to feasibility analyses to a risk-based feasibility analysis. The grant report has been widely cited and used by communities throughout Texas to assist them in developing their plans with regard to renewable energy production. A subsequent risk-based feasibility analysis of lignocellulosic ethanol production was conducted at the request of the TCE Director. These analyses and the background work required for their completion have provided Dr. Outlaw a solid foundation from which to move forward in the economic evaluation of energy development and policy. Dr. Outlaw has worked with a graduate student to develop supply/demand models for ethanol. Both the feasibility analyses and supply/demand model research were accepted for presentation at the 2004 Western Agricultural Economics Association annual meeting. As a result of these efforts, Dr. Outlaw was asked to serve on the steering committee for an energy conference sponsored by the USDA Office of Energy Policy and New Uses and Farm Foundation. Dr. Outlaw also coordinated a contributed paper section, securing reviewers for 42 papers and working with authors from several disciplines across the U.S. and Canada. Dr. Outlaw, along with Keith Collins (USDA Chief Economist), served as co-editor of a book on agriculture as a producer and consumer of energy resulting from the conference.

In 2004, Dr. Outlaw was appointed by the TCE Director to serve as the TCE representative on the Rural Alliance for Renewable Energy (RARE), which is a group of non-profit organizations, governmental agencies, and educational institutions assisting rural Texas communities in developing their renewable energy resources.

- **Financial and Risk Management (FARM) Assistance** - The FARM Assistance program is a concentrated, highly-intensified extension effort funded by the Texas Legislature to assist agricultural producers with strategic planning and risk management. The program utilizes a decision support simulation model that projects a farm's or ranch's financial performance over ten years, incorporating risk. The program allows individuals producers

in Texas to analyze specific strategic decisions on their operations, assisting the farm/ranch manager with long-range planning and decision analysis. The broader scope of the program is to provide unique educational and analytical capacity to the Texas agriculture industry through the development of a database of program participants.

From 1997 to 2003, Dr. Outlaw served as the coordinator of the FARM Assistance program. In this role, he had responsibility for the day-to-day operations of the program, including program planning, evaluating and hiring new employees, and resource allocation. Also, Dr. Outlaw worked with the programmer to design the entire process from the software to input and output forms and the report that individual clients receive. In addition to these responsibilities, during the initial start-up of the program, Dr. Outlaw conducted almost all of the individual producer analyses, working with more than 50 clients. Due to the additional responsibilities assumed in agricultural policy in 2003, Dr. Steven Klose was added as Co-Coordinator of FARM Assistance. While he is no longer able to be involved in day-to-day activities, Dr. Outlaw remains involved in a management/supervisory capacity of 11 program specialists/program assistants.

Currently, over 600 reports have been completed for producers statewide, representing roughly 2 million acres of land and over \$700 million in managed assets. One measure of the FARM Assistance program's impact is the projected net worth consequences of alternatives, or the value of decisions, analyzed for each subscriber. This measure indicates the gain or loss in net worth a producer would likely see, at the end of the 10-year planning horizon, by adopting the alternative under consideration versus their current practices. Just looking at the difference between the base situation and one alternative yields a projected 10-year impact of the FARM Assistance program of just over \$270,000 in real equity per participant. In total, FARM Assistance has helped Texas producers analyze decisions valued at over \$160 million in projected farm equity.

In addition, Dr. Outlaw worked with FARM Assistance program specialists to utilize the database of producer information to develop six applied research articles that were submitted papers at American and Southern Agricultural Economics Associations annual meetings.

- **Texas Risk Assessed Management/Marketing (TRAMM)** - In 1996, Dr. Outlaw worked with Dr. Mark Waller to develop an educational workshop for Texas modeled after a successful program developed in Kansas. The program combines traditional classroom style educational presentations on available risk management tools with a simulation exercise. The result was an adult education program designed to reinforce traditional educational presentations getting participants to use what they learned to plan the production and marketing of a year's crop in a risky environment. These materials have been used by District-based Extension Economists throughout the state to conduct over 100 TRAMM workshops. To date, Dr. Outlaw has conducted three TAEX County Extension Agent TRAMM trainings and six producer TRAMM workshops. These participants have provided an overall evaluation of the TRAMM program with an average rating of 4.4 based on a 1 to 5 scale with 1 indicating poor and 5 indicating excellent. In addition, Drs. Outlaw and Waller received a 1997/98 TAEX training grant to conduct the workshop across the state as a County Extension Agent training program.
- **Land Tenure Arrangements** - During the late 1990's, the combination of 1996 Farm Bill changes and declining real market prices for agricultural commodities resulted in significant demand for educational programs focusing on alternative land tenure/leasing arrangements. Dr. Outlaw made 12 presentations to national, state, and local audiences and authored or co-authored 9 publications on land tenure/leasing arrangements. In 1997, Dr. Outlaw, in cooperation with Dr. Larry Falconer and Dr. Ed Rister, obtained three grants totaling \$40,500 from the Texas Corn Producers Board, Texas Rice Research Foundation, and Rice Belt Warehouse, Inc., to develop computerized decision aids and educational programs relating to land tenure. Drs. Outlaw and Falconer conducted one leasing workshop that included landowners and tenants from as far away as New Orleans, LA. In addition, the materials developed by Dr. Outlaw were used to conduct three County Extension Agent trainings as part of an Extension Training '99 grant for professional development.
- **Technology Assessment** - The rapid increase in new technologies available to agricultural producers created demand for educational programs assessing their economic viability. Dr. Outlaw has conducted analyses on the economics of precision agriculture and biotechnology in crop agriculture. This work resulted in one

presentation at a national conference, three presentations at statewide conferences, two county programs, and four publications. In addition, the analyses were made available on the World Wide Web (WWW).

- **Crop and Revenue Insurance** - The lowering of government safety nets for crop producers resulting from the passage of the 1996 Farm Bill significantly increased the demand for educational programs on crop and revenue insurance products. In addition, there has been a significant number of new insurance products made available to producers with little information regarding their advantages and disadvantages. Dr. Outlaw provided leadership in the development of educational programs explaining the different insurance options and the situations which would increase the usefulness of each. This information was made available to District-based Extension Economists and made available to clientele across the state. Dr. Outlaw developed a reputation for being knowledgeable about crop and revenue insurance products. As a result, in 1998 and 1999, he was asked to present this information at one statewide conference and five county meetings. In addition, Dr. Outlaw annually assists the Stiles Foundation Research Farm manager in selecting insurance products and coverages.
- **1996 Farm Bill Education** - Early in his role as the State Farm Management Economist, Dr. Outlaw utilized his background in agricultural policy research and his association with the Agricultural and Food Policy Center to provide Texas producers with timely information regarding agricultural policy changes associated with the 1996 Farm Bill. This was accomplished by serving as a constant resource to District-based Extension Economists who disseminated time-sensitive information to clientele. The uncertainty surrounding the major changes made in the 1996 Farm Bill (e.g., planting flexibility, conservation reserve program changes, and decoupling of farm program payments) created significant demand for educational programs detailing the exact changes that were made and the likely impacts on farm and ranch management decisions. This work resulted in 44 experiment station and extension service publications, 42 presentations, and one county extension agent training program. In addition, all information was made accessible on the World Wide Web (WWW) on both the Extension Economics and Agricultural and Food Policy Center home pages.
- **4-H Farm Management Contest** - From 1996 through 2003, Dr. Outlaw served as the Superintendent of the 4-H Farm Management Contest at the State Roundup. In this role, he was responsible for securing judges and sponsors, and running the contest in a professional manner. This contest is one of the largest at State Roundup with 20 to 30 contestants each year. In addition, Dr. Outlaw served as an information source to 4-H participants across the state for farm management and agricultural policy information as they prepared their programs for contest.

Program Evaluation Activity:

Agent Training Evaluations

Outlaw, J. L. "General Overview of Biofuel Policy." Districts 9, 11, and 12 Agricultural Agent Training held in Corpus Christi, Texas, April 4-5, 2007. Evaluations forthcoming.

Outlaw, J. L. "Economic Consideration in Biofuel Production." Districts 6, 7, and 10 Agricultural Agent Training held in San Antonio, Texas, March 27, 2007, and in San Angelo, Texas on March 29, 2007. Evaluations forthcoming.

Outlaw, J. L., A. L. Ribera, and L. L. Falconer. "Biofuels Opportunities in Texas." Districts 9, 11, and 12 Agricultural Agent Training via Centra Symposium, September 15, 2006. Fourteen CEAs in attendance. 100% of respondents indicated the session was organized or well organized. Eighty-five percent of respondents indicated their knowledge of the biofuels industry was either improved or greatly improved. Seventy-one percent of respondents gave an overall evaluation of the training as excellent with 21% indicating good.

Outlaw, J. L. "Crop and Pastureland Leases." District 9 Agricultural Agent Training, Houston, Texas, December 15, 1997. Eighteen CEAs in attendance. Evaluation summary based on 1 to 5 scale with 1 indicating poor and 5 indicating excellent. Informative presentations (4.03), improved knowledge (3.86), overall evaluation of training (4.24).

Outlaw, J. L. and M. L. Waller. "Texas Risk Assessed Management and Marketing." Districts 10 and 12 Agricultural Agent Training, San Antonio, Texas, November 13, 1997. Twelve CEAs in attendance. Unsolicited Comments from Clientele and County Extension Agents

- “Even though the subject matter was very painful for us to discuss with him, he made us feel comfortable sharing with him and he went out of his way to make us feel our situation was important to him.” - **H.P. Bradley, Wheeler County Producer and FARM Assistance participant**
- “Joe was very professional and easy to work with. I appreciate his determination to get the input data correct to provide the most accurate information.” **Kurt Stallwitz, Moore County Producer and FARM Assistance participant**
- “Joe was excellent - very kind and professional.” **Floyd Light, Lamb County Producer and FARM Assistance participant**
- “Thanks for coming to our office...to share the implications of the 1996 Farm Bill on the farm equipment industry. We all appreciated your comments and information as we adjust to the changing industry.” **Gary W. Burau, John Deere Company, Marketing Manager**
- “I would like to personally thank you for putting on such an informative presentation on the Internet. I really learned a lot and I heard nothing but good things about it.” **Southeast Texas Independent Cattlemen Association**
- “Thanks for obtaining speakers for the FARM Assistance and Leasing Seminars at the Annual B.I.G. Conference and for your presentations. Your comments were timely, informative, and interesting for the audience.” **Ashley C. Lovell, Chairman of B.I.G. Speakers Committee and Head and Professor of Agricultural Economics, Tarleton State University**

- “Thank you for your presentation at the TAIA Biotechnology Conference. Your participation definitely contributed to the success of the conference. We consider ourselves fortunate to have you address the membership. The surveys reflected many favorable comments from your presentation.” **Patrick T. Miller, President, Texas Agricultural Industries Association**
- “Thanks for an excellent job at our ‘Update on Crop Insurance’ educational program... The presentation was timely, informative and heightened the awareness on crop insurance. I appreciate your willingness to work with me on short notice. The news release you prepared and your presentation provided agriculture producers with critical information. We had 31 in attendance, but I can assure you the information has been disseminated to many more.” **Ronald E. Leps, County Extension Agent-Agriculture, Williamson County**
- “I enjoyed your presentation on rice market outlook and the factors that affect rice prices, and I know that the farmers did too! Response to the program has been great!” **Kelby R. Boldt, County Extension Agent-Agriculture, Jefferson County**
- “Just a short note to express my appreciation for the Land Leasing Workshop you conducted in Washington County this past week. I think everyone who attended really enjoyed the program and the excellent manner in which you made the presentation. I am most appreciative of the handout booklet you prepared and the excellent examples you prepared on leasing agricultural pasture and hay land.” **Spencer Tanksley, County Extension Agent-Agriculture, Washington County**

World Wide Web Activities:

Dr. Outlaw has adopted the World Wide Web (WWW) as an important communication tool for disseminating educational information to agricultural clientele. In this regard, he has provided the leadership in the development of three web sites aimed at providing relevant and timely information to agricultural producers, County Extension Agents and Specialists, and researchers.

Texas Risk Management Education Program (TRMEP)

Established the TRMEP web site (<http://trmep.tamu.edu>) in May of 1997 to increase awareness of the risk management initiative funded by the Texas Legislature. This page serves as a source of information about the ongoing activities of the TRMEP. The page provides Texas farmers and ranchers information regarding the program and future activities. Clientele can obtain risk management educational materials, information about the FARM Assistance decision support system, and information requirements via the TRMEP web site.

Extension Agricultural Economics

Established the Extension Economics web site (<http://agecoext.tamu.edu>) in June of 1996 to increase awareness and access to programs and activities of the Extension Agricultural Economics project group. This web site has made programs and products of the Extension Agricultural Economics group available to a much larger audience, averaging nearly 4,000 hits per week. This web site provides access to Extension publications, outlook information, and a calendar of upcoming Extension programs. The calendar of upcoming events is setup to enable interested viewers to register for the programs online.

The types of information available on the Extension Economics web site include:

- A brief description of the products and programs of the Extension Economics program group through the Assessing Risk for Management & Economic Decisions (ARMED) page.
- Short biographical sketches of Extension faculty members are provided with links to facilitate sending e-mail to individual faculty members.

- A Texas map that has the Extension Districts designated as clickable areas that indicate the Extension Economist and county agents serving the District.
- Links to major Extension Economics program web sites across the United States.

Agricultural and Food Policy Center

Established the AFPC web site (<http://www.afpc.tamu.edu>) in June of 1995 as a tool to increase awareness of AFPC and its activities. Publications developed by AFPC are put on the web site so they can be accessed by those interested in agricultural policy. Developed an e-mail address list for more than 200 policy analysts, agribusiness economists, Congressional staffers, farmers, extension educators, and agricultural economists to notify these people each time a new publication was added to the AFPC web site.

The types of information available on the AFPC web site include:

- A brief description of AFPC, its purpose, organizational background, and expertise is provided for general information to the user.
- Short biographical sketches of faculty members in the Center are provided with links to facilitate sending e-mail to individual faculty members.
- Full text versions of more than 120 AFPC Working Papers.
- Policy extension education materials used for 2002 Farm Bill education programs.
- Links to the major agricultural and food policy related web sites across the United States.

Evidence of Demand for Programs:

The following is a list of presentations and planning meetings covering the period December 2013 to the present. This section is provided as an indication of the frequency and scope of extension programming presentations and program development meetings. All presentations involved development of handout materials resulting from applied research, except when noted.

Professional Improvement Activities

- San Antonio Livestock Exposition (S.A.L.E.) - Leadership Extension. One of 28 selected from 63 Texas Cooperative Extension applicants to be a participant in a program designed to develop comprehensive leadership skills. Participants meet from November 2001 through November 2003 for five two-day sessions and receive intense training on personnel management, legal and liability issues, and team building.

RESEARCH ACTIVITIES

Percent of time budgeted to Research - 0%

Program Statement:

To support Extension programming at the state level, Dr. Outlaw has undertaken applied research in the areas of farm management, agricultural policy, and environmental regulation and policy. In particular, Dr. Outlaw's research activities have focused on analyzing the effects of alternative risk management strategies, farm level changes of alternative agricultural and environmental policies, and land tenure arrangements. This applied research has been utilized in Extension programming across the state by Dr. Outlaw, other Extension Economists, and County Extension Agents. In his role as Co-Director of the Agricultural and Food Policy Center, Dr. Outlaw supervises and conducts time-sensitive analyses for the Agricultural Committees of the U.S. Congress on an on-going basis.

Summary of Major Achievements:

- **Evaluation of 2002 Farm Bill Alternatives** - As a member of the Agriculture and Food Policy Center (AFPC) team, Dr. Outlaw participated in research evaluating the economic impacts of more than 20 different farm bill alternatives on the set of 100 representative farms maintained by AFPC. This research involved analyzing the impacts of the House and Senate farm bill proposals in a side-by-side risk analysis for each of the 100 representative farms. This analysis provided the basis for the Conference Committee's decision for comparing the economic impacts of the two bills. Congressmen Combest and Stenholm wrote the following about the contributions of AFPC to the farm bill debate:

"AFPC developed charts with 'cumulative probability density functions' that show how alternative policies compare under different market scenarios and the probability associated with each scenario. This was a major innovation that allowed members and staff to easily grasp the differences."

In addition, since taking the position of Co-Director of AFPC, Dr. Outlaw has revised and upgraded publications and reports provided to the Congress and staff. The emphasis is on shorter publications that tell the story with graphs and charts rather than pages of numbers.

- **Base and Yield Analyzer (BYA)** - Six months prior to the passing of the Farm Bill, Dr. Outlaw recognized the need for a tool to assist farmers with base and yield updating decisions. At that point, he formed a group that began working on the model which was presented to the Deputy Administrator of the Farm Services Agency (FSA) one month before the bill was signed. Once the bill was signed, FSA had a short time to develop all of the necessary protocol and forms required for program sign-up. FSA decided to adopt and endorse the BYA program and make it available in every county office in the nation as well as on their home page - a first for USDA to link non-USDA developed software to their site. What made BYA so useful was the combination of advanced simulation techniques embedded in a web interface that allowed producers not only to choose the best alternative, but to make the evaluation considering risky future prices. The software was run more than 430,000 times on more than 120 million acres.
- **Ethanol Feasibility Analyses** - In 2002, Dr. Outlaw was asked by the Texas Office of the Comptroller to evaluate the feasibility of ethanol production in several regions of Texas using alternative feedstocks. He assembled a research team that moved beyond the traditional approach to feasibility analyses to a risk-based feasibility analysis. The grant report has been widely cited and used by communities throughout Texas to assist them in developing their plans with regard to renewable energy production. A subsequent risk-based feasibility analysis of lignocellulosic ethanol production was conducted at the request of the TCE Director.
- **Evaluation of Dairy Policy Alternatives** - Dr. Outlaw has been asked to be a part of three major project teams tasked with: (1) evaluating the competitiveness of the U.S. dairy industry relative to the Mexican and Canadian

industries; (2) developing and analyzing the alternatives for the basic formula price (BFP); and (3) evaluating the impact of NAFTA on the U.S. dairy industry. This research was utilized to shape Federal Dairy Program legislation found in the 1990 and 1996 Farm Bills.

- **FARM Assistance** - As the FARM Assistance Coordinator and Co-Coordinator, Dr. Outlaw has been directly involved in the design, development, and implementation of the computerized decision support system, FARM Assistance. In addition, he has developed the producer information database which facilitates research activities in the areas of policy analysis, farm management, and marketing for research and extension faculty at Texas A&M University. This database has been used to develop 6 research papers presented at professional meetings.
- **Assistance to Junior Faculty and Graduate Students** - Dr. Outlaw continually provides ideas and research assistance to junior faculty and graduate students to help them develop proposals for presented papers at annual association meetings. Since 2000, he has made significant contributions toward more than 15 applied research articles presented by junior faculty and graduate students at annual association meetings. Dr. Outlaw has directed the research of 13 graduate students and one Undergraduate Research Fellow who have worked on applied farm management and agricultural policy issues.

TEACHING ACTIVITIES

Percent of time budgeted to Teaching - 0%

Program Statement:

Currently, Dr. Outlaw does not have a University teaching appointment. In 1990, as a graduate student, Dr. Outlaw was hired as an Assistant Lecturer to teach Agricultural Economics 429, undergraduate agricultural policy. Dr. Outlaw also taught Agricultural Economics 314, undergraduate agricultural marketing, in 1993 and 1994. In addition, Dr. Outlaw taught Agricultural Economics 615, the Ph.D. level agricultural policy course, in 1994. In 2002, Dr. Outlaw co-taught the Ph.D.-level, advanced agricultural and food policy course with Dr. Abner Womack. In the fall of 2003 Dr. Outlaw began teaching Agricultural Economics 429 on a temporary teaching assignment. He has taught that class each fall since that time.

Dr. Outlaw guest lectures in the undergraduate, Masters, and Ph.D.-level agricultural policy courses several times each year, as well as in the Advanced Farm and Ranch Management and Introduction to Agricultural Economics courses, covering selected topics in his area of expertise.

The following are unsolicited statements included on teaching evaluations by individual course.

AGEC 429 - Agricultural Policy

- “Joe did a great job - I found this course to be very interesting and extremely applicable to what is currently going on in agriculture. I learned so much in this class and I’m not sure if anyone could have done a better job than Joe!”
- “In my opinion, Joe did an excellent job in relating the course material to the class. I also feel that he displayed a genuine sense of concern about the ability of the students to grasp the subject matter. Joe was always polite, patient and willing to work with students, both in the classroom and at his office. For me, this was an interesting class and I feel that Joe’s interest in the subject has inspired me in my future career plans in Agriculture.”
- “A great teacher. He actually cares about his students and was always available when we needed help.”
- “I have really enjoyed this class. I have found it to be very educational. I thought you taught very well and I would say I have learned a lot which will stay with me a long time. You taught in a way which we could relate to it. To be honest, this is the class I have learned from the most since being here at A&M, now, my Dad and I can have intellectual conversations concerning Agricultural and Food Policy. Thanks!”
- “This was the most practical/applicable course I’ve taken in the Agricultural Economics department. Outlaw is a great teacher.”
- “This is my favorite class that I have taken at Texas A&M University.”

AGEC 314 - Marketing Agricultural Products (1993 and 1994)

- “Great teacher. Wish there were more like him.”
- “Dr. Outlaw was the best AgEco teacher I have had so far. He presents his material so that it is organized, structured, and easy to learn. His tests were great, and his review sessions before the test helped! He also is very funny, and kept the class interesting.”
- “Dr. Outlaw was always available during office hours and willing to help people individually. He also planned evening study sessions before tests and was present to help his students understand the material that would be on the exam.”
- “Dr. Outlaw went out of his way and was always available to the students for questions or help with subject matter.”
- “Dr. Outlaw stirred my interest in the marketing side of Ag and I also understand more about Ag as a whole.”
- “I’ve recommended you to all my Ag. Eco. friends, and if you ever teach a class again I would love to take it. I really appreciate you taking time out to help the students -- more professors should do that.”

AGEC 615 - Agricultural and Food Policy Analysis

- “I enjoyed the course. I feel it was practical and very well focused. I like Dr. Outlaw’s relaxed way of teaching.”
- “Presenting a problem and then providing the most useful tools for finding the solution is good for organization, i.e., attacking one thing at a time.”

“Dr. Outlaw was extremely personable and although the material would sometimes be dry, he would make every effort to liven it up. Also, he took the time to answer any questions we may have had and really made sure we understood the material.”

Development of Instruction Materials

Dr. Outlaw developed bound booklets of lecture overhead materials for the three separate courses he taught. Dr. Outlaw has also collaborated with Ron Knutson in the development of an instructors’ manual to accompany the *Agricultural and Food Policy* text by Knutson, Penn, and Flinchbaugh. He also co-authored the 6th edition of the undergraduate text, *Agricultural and Food Policy* with Knutson, Penn, and Flinchbaugh.

SERVICE ACTIVITIES

National

- **Co-editor for Choices: The Magazine of Food, Farm, and Resource Issues.** Choices is intended to be the primary outreach vehicle for the American Agricultural Economics Association designed to communicate with a broad audience. In this role, Dr. Outlaw, along with Drs. McCarl, Capps, Nayga, and Penson (also in Agricultural Economics) was selected to serve as a member of the editorial team. Dr. Outlaw held editorial responsibility for articles associated with agriculture and trade. January 2004 – May 2007.
- **American Agricultural Economics Association (AAEA) Distinguished Policy Contribution Award Committee** - Member of committee that chooses AAEA Distinguished Policy Contribution Award which is the highest award that an agricultural economist can be awarded in the area of agricultural policy. 2004 – 2006.
- **National Public Policy Education Committee** - Texas Cooperative Extension representative on the national committee that focuses on developing educational programs and resources on contemporary public policy issues. 1999 – May 2004.
 - Chair-Elect, 2002, Chair, 2003
 - Chair of subcommittee assigned with developing Farm Bill educational materials for the details of the 2002 Farm Bill. (2001-2002)
 - Chair of subcommittee assigned with the development of quick response/flashpoint national educational meetings on public policy issues. 2001 to May 2004.
 - Organized a national training on the provisions of the 2002 Farm Bill. This conference was held 13 days after the bill became law. (2001-2002)
 - Chair of subcommittee assigned with the development of educational materials for the 2002 Farm Bill debates. (2000-2001)
- **Cornell Dairy Markets and Policy Extension Education Committee** - Member of committee composed of national dairy policy experts that developed a series of dairy policy, marketing, and management educational materials. These materials were provided to members of the U.S. Congress and their staff, along with dairy analysts at government agencies during the 1996 and 2002 Farm Bill debates. (1992 - 1996 and 2002 - present)

Herbst, B. K., Anderson D. P., Fischer, B. L., Outlaw, J. L., Bryant, H., and N. Graff. “Impacts of CFAP and CFAP 2 on Representative Dairies.” Presented paper at the 53rd Annual Southern Agricultural Economics Association Meetings, Irving, TX, February 6-9, 2021.

Knappek, G. M., Raulston, J. M., Herbst, B., Zimmel, P., Fischer, B. L., and J. L. Outlaw. “Qualities of Today’s Successful Producers.” Presented paper at the 53rd Annual Southern Agricultural Economics Association Meetings, Irving, TX, February 6-9, 2021.

Nelson, H. R., Fischer, B. L., Outlaw, J. L., and J. M. Raulston. “Evaluating Improvements to Commodity Programs in Lieu of Emergency Aid.” Presented paper at the 53rd Annual Southern Agricultural Economics Association Meetings, Irving, TX, February 6-9, 2021.

Raulston, J. M., Outlaw, J. L., Fischer, B. L., Knappek, G. M., and H. Bryant. “Evaluating the Farm Level Impacts of the Market Facilitation Program (MFP) and the Coronavirus Food Assistance Program (CFAP).” Presented paper at the 53rd Annual Southern Agricultural Economics Association Meetings, Irving, TX, February 6-9, 2021.

Wilton, A. E., Fischer, B. L., and D. P. Anderson. “Changes in Livestock Packing Plants Over Time.” Presented paper at the 53rd Annual Southern Agricultural Economics Association Meetings, Irving, TX, February 6-9, 2021.

- Wright, K., Outlaw, J. L., and B. L. Fischer. "Analysis of Changes in Farm Service Agency (FSA) Payment Yields for Southern Crops." Presented paper at the 53rd Annual Southern Agricultural Economics Association Meetings, Irving, TX, February 6-9, 2021.
- Fischer, B. L., **J. Outlaw**, G. Knapek, and *J.M. Raulston*. "Evaluating the Impact of Recent Changes to the Wildfires and Hurricanes Indemnity Program-Plus (WHIP+) on the Western United States." Presented paper at the Western Agricultural Economics Association Annual Meeting, Santa Fe, NM (Virtual), June 30, 2020.
- Raulston, M.*, H. L. Bryant, B. L. Fischer, **J. L. Outlaw** and G. M. Knapek. "Sensitivity of Representative Farm Financial Viability to Alternative Debt Levels and Interest Rates." Presented paper at the 52nd Annual Southern Agricultural Economics Association Meetings, Louisville, Kentucky, February 3, 2020.
- Moore, M.*, G. Knapek, **J. Outlaw** and B. L. Fischer. "Hemp: The Next American Staple Crop?" Presented paper at the 52nd Annual Southern Agricultural Economics Association Meetings, Louisville, Kentucky, February 3, 2020.
- Graff, N. A.*, B. L. Fischer, **J. L. Outlaw** and D. P. Anderson. "Evaluating the Efficacy of the New Annual Forage Insurance Program Dual Use Option." Presented paper at the 52nd Annual Southern Agricultural Economics Association Meetings, Louisville, Kentucky, February 3, 2020.
- Nelson, H. R.*, **J. L. Outlaw**, B. L. Fischer and *J. Marc Raulston*. "Cost of a Mandatory Base Update for Federal Farm Programs." Presented paper at the 52nd Annual Southern Agricultural Economics Association Meetings, Louisville, Kentucky, February 3, 2020.
- Herbst, B.*, B. Fischer, D. Anderson, **J. Outlaw** and *N. Graff*. "Analyzing Dairy Margin Coverage Decisions for Southern Representative Dairies." Presented paper at the 52nd Annual Southern Agricultural Economics Association Meetings, Louisville, Kentucky, February 3, 2020.
- Knapek, G. M., **J. L. Outlaw**, B. L. Fischer, *J. M. Raulston* and *M. L. Moore*. "Risk Management Options for Hemp Producers." Presented paper at the 52nd Annual Southern Agricultural Economics Association Meetings, Louisville, Kentucky, February 3, 2020.
- Graff, N.*, D. Anderson, J. Benavidez, **J. Outlaw** and *B. Herbst*. "Economic Impact of a Bovine Babesiosis Outbreak." Presented paper at the 2019 Western Agricultural Economics Association Annual Meeting, Coeur d'Alene, Idaho, July 2, 2019.
- Newton, M.*, **J. Outlaw**, H. Bryant and *G. Knapek*. "The Nuts and Bolts of Agricultural Equipment and the Farm Economy." Presented paper at the 2019 Western Agricultural Economics Association Annual Meeting, Coeur d'Alene, Idaho, July 2, 2019.
- Herbst, B.*, D. Anderson, **J. Outlaw** and A. Maisashvil. "A Structural Shift in US Hay Production." Presented paper at the 2019 Western Agricultural Economics Association Annual Meeting, Coeur d'Alene, Idaho, July 1, 2019.
- Harper, M.*, G. Knapek and **J. Outlaw**. "Industrial Hemp: The Next American Staple Crop? Presented paper at the 2019 Western Agricultural Economics Association Annual Meeting, Coeur d'Alene, Idaho, July 1, 2019.
- Kirkpatrick, R., D. Anderson and **J. Outlaw**. "Beef Prices at Texas Farmers Markets and Retail Outlets." Presented paper at the 2019 Western Agricultural Economics Association Annual Meeting, Coeur d'Alene, Idaho, July 1, 2019.
- Horton, B., D. Anderson and **J. Outlaw**. "Examining Price Differences Between Fed Steers and Heifers." Presented paper at the 2019 Western Agricultural Economics Association Annual Meeting, Coeur d'Alene,

Idaho, July 1, 2019.

Outlaw, J. L. and J. W. Richardson. “*Economic Outlook for Farm Survival in the Current Farm Economy Downturn.*” Presented Paper at the 20nd International Farm Management Association Meeting, Launceston Tasmania, March 3-8, 2019.

Herbst, B., D. Anderson, J. Outlaw, N. Graff, J. Richardson, G. Knapek and J. M. Raulston. “An Analysis of the Market Facilitation Program on Representative Dairies.” Presented paper at the 51st Annual Southern Agricultural Economics Association Meetings, Birmingham, Alabama, February 5, 2019.

Newton, M., J. Outlaw, J. M Raulston and G. Knapek. “Case Study of the Essentiality for the Market Facilitation Program” Presented paper at the 51st Annual Southern Agricultural Economics Association Meetings, Birmingham, Alabama, February 5, 2019.

Moore, M., J. Richardson, **J. Outlaw** and H. Bryant. “Economic Effects of Alternative Farm Program Payment Limitations.” Presented paper at the 51st Annual Southern Agricultural Economics Association Meetings, Birmingham, Alabama, February 4, 2019.

Graff, N., J. Outlaw, H. Bryant, J. M. Raulston and G. Knapek. “Where the Rubber Meets the Road: Producer Choices for the Seed Cotton Program.” Presented paper at the 51st Annual Southern Agricultural Economics Association Meetings, Birmingham, Alabama, February 4, 2019.

Benavides, J., **J. Outlaw** and D. Anderson. “Evaluating the Choice Between ARC, PLC and a Blended Safety Net – A Real Options Approach.” Presented paper at the 2018 Western Agricultural Economics Association Annual Meetings, Anchorage, Alaska, June 25, 2018.

Nelson, H., G. Knapek, J. Outlaw, J. Richardson and J. Raulston. “What Does a Forced Update for Base Acres Mean for Western Farmers and Ranchers?” Presented paper at the 2018 Western Agricultural Economics Association Annual Meetings, Anchorage, Alaska, June 25, 2018.

Herbst, B., J. Richardson, T. Harris, G. Knapek and J. Outlaw. “Economic Analysis of the Shadow Price of Federal Grazing Permits for Western U.S. Ranches.” Presented paper at the 2018 Western Agricultural Economics Association Annual Meetings, Anchorage, Alaska, June 25, 2018.

Newton, M., D. Anderson, G. Knapek, J. Outlaw and A. Maisashvili. “Going Nuts Over Pecans.” Presented paper at the 2018 Western Agricultural Economics Association Annual Meetings, Anchorage, Alaska, June 24, 2018.

Herbst, B., G. Knapek, D. Anderson, J. Outlaw and J. Richardson. “Analyzing Proposed Dairy Margin Protection Program Enhancements.” Presented paper at the 50th Annual Southern Agricultural Economics Association Meetings, Jacksonville, Florida, February 5, 2018.

Smith, N., K. Coble, **J. Outlaw**, B. Fischer and J. Campiche. “The 2014 Farm Bill and Southern Agriculture.” Invited Symposium at the 47th Annual Southern Agricultural Economics Association Meetings, Atlanta, Georgia, January 31-February 3, 2015.

Mazurkiewicz, S. D., J. L. Outlaw, J. W. Richardson, G. M. Knapek, J. M. Raulston, and B. K. Herbst. “Evaluation of Farmer Choices for the 2014 Farm Bill.” Presented Poster at the 47th Annual Southern Agricultural Economics Association Meetings, Atlanta, Georgia, January 31-February 3, 2015.

Herbst, B., D. Anderson, J. Outlaw, and J. Richardson. “What Decision Will Western Dairies Make Under the New Farm Bill Dairy Program. Presented paper at the 2014 Western Agricultural Economics Association annual meetings, Colorado Springs, Colorado, June 22-24, 2014.

Raulston, J. M., G. Knapek, J. Richardson, and J. Outlaw. “Drought: A Case Study of Adaptation on a South

Texas Cotton and Grain Farm.” Presented paper at the 2014 Western Agricultural Economics Association annual meetings, Colorado Springs, Colorado, June 22-24, 2014.

Knapek, G., J. Richardson, **J. Outlaw**, and *J. M. Raulston*. “An Evaluation of Farm Bill Alternatives for Western Wheat Farms.” Presented paper at the 2014 Western Agricultural Economics Association annual meetings, Colorado Springs, Colorado, June 22-24, 2014.

Richardson, J. W. and **J. L. Outlaw**. “Economic and Nutritional Impacts of Small Irrigation Projects on Small Holder Farms in Ethiopia.” Presented paper at the 2014 Hawaii International Conference on Business, Honolulu, Hawaii, May 22-25, 2014.

Outlaw, J. L., G. M. Knapek, *J. M. Raulston*, J. W. Richardson and D. P. Anderson. “Economic Factors Driving USDA’s 2013/14 U.S. Domestic Rice Market Baseline Projections.” Presented paper at the 35th Meeting of the Rice Technical Working Group, New Orleans, LA, February 19, 2014.

Mazurkiewicz, S. D., **J. L. Outlaw**, *J. M. Raulston*, G. M. Knapek and D. P. Anderson. “Comparison of AFPC Representative Farm Cost of Production Across the U.S. Rice Belt.” Presented paper at the 35th Meeting of the Rice Technical Working Group, New Orleans, LA, February 19, 2014.

Raulston, J. M., **J. L. Outlaw**, G. M. Knapek, D. P. Anderson and J. W. Richardson. “An Analysis of Preferred Safety Net Components for U.S. Rice Farms Under Budget Reduction Scenarios.” Presented paper at the 35th Meeting of the Rice Technical Working Group, New Orleans, LA, February 19, 2014.

Knapek, G. M., J. W. Richardson, **J. L. Outlaw** and *J. M. Raulston*. “Optimal Risk Reducing Government Programs for Rice Farms.” Presented paper at the 35th Meeting of the Rice Technical Working Group, New Orleans, LA, February 19, 2014.

Herbst, B., D. Anderson, **J. Outlaw**, J. Richardson and *S. Mazurkiewicz*. “Risk Reducing Effects of the Dairy Security Act on Southern Dairies.” Presented paper at the 46th Annual Southern Agricultural Economics Association Meetings, Dallas, TX, February 1-4, 2014.

Outlaw, J. L. “Designing a defensible safety net framework.” Presented paper at The 2012 Farm Bill Issues and Challenges Conference, Fargo, ND, November 7-8, 2011.

Richardson, J. W., **J. L. Outlaw**, and H. Bryant. “Regional Considerations in Use of Model Farms for Policy Analysis.” Invited presentation at AAEEA symposium on “Crop Insurance and the Farm Bill,” Louisville, KY, October 8-9, 2013.

Richardson, J. W., M. Johnson, and **J. L. Outlaw**. “Economics of Algae Biofuels Production.” Presented paper at the 2013 Hawaii International Conference on Business, Honolulu, Hawaii, May 23-26, 2013.

Outlaw, J. L., *M. Raulston*, and J. W. Richardson. “A Reverse Engineering Analysis of Cellulosic Ethanol Production Economics.” Presented paper at the 2013 Hawaii International Conference on Business, Honolulu, Hawaii, May 23-26, 2013.

Fischer, B. L., J. W. Richardson, **J. L. Outlaw** and M. Allison. “Economic Feasibility of Commercial Algae Oil Production in the US.” Presented paper at the 43rd Annual Southern Agricultural Economics Association Meetings, Corpus Christi, TX, February 5-8, 2011.

Raulston, J. M., J. W. Richardson, **J. L. Outlaw**, and G. M. Knapek. “The Farm Level Impacts of Replacing Current Farm Programs with a Whole Farm Revenue Program.” Presented paper at the 43rd Annual Southern Agricultural Economics Association Meetings, Corpus Christi, TX, February 5-8, 2011.

Knapek, G. M., J. W. Richardson, and **J. L. Outlaw**. “Investigating the Redundancies in Current Farm Programs.”

Presented paper at the 43rd Annual Southern Agricultural Economics Association Meetings, Corpus Christi, TX, February 5-8, 2011.

Richardson, J.W., **J.L. Outlaw**, and K. Schumann. "Kernel Density Functions to Estimate Parameters to Simulate Stochastic Variables with Sparse Data: What is the Best Distribution." Invited paper for Seventh International Conference on Computer Simulation on Risk Analysis and Hazard Mitigation, Wessex Institute of Technology, UK, The Algarve, Portugal, September 13-15, 2010.

Raulston, J.M., **J.L. Outlaw**, D.P. Anderson, and J.W. Richardson. "The Farm Level Impacts of Cap and Trade Legislation on Texas Rice Producers." Selected paper at the Rice Technical Working Group 33rd Meeting, Biloxi, Mississippi, February 22-25, 2010.

Richardson, J.W., **J.L. Outlaw**, and B.L. Fischer. "Potential Animal Feed Demand and Prices for Algae By-products." Presented poster at 3rd Annual Southwestern Biofuels Summit, Albuquerque, NM. April 13-14, 2010.

Richardson, J. W., J. L. Outlaw, J. Anderson, N. Smith, C. Lacy, D. de la Torre Ugarte, J. Larson, Chad Hellwinckel and L. Ribera. "Impact of Cap and Trade on Crop and Livestock Farms in the South." Presented paper at the 42nd Annual Southern Agricultural Economics Association Meetings, Orlando, FL, February 6 - 9, 2010.

Raulson, J. M., J. W. Richardson, J. L. Outlaw and G. M. Knapek. "Does Crop Insurance Reduce the Need for Cash Reserves in Savings Accounts?" Presented paper at the 42nd Annual Southern Agricultural Economics Association Meetings, Orlando, FL, February 6 - 9, 2010.

Herbst, B. K., D. P. Anderson, J. L. Outlaw and J. W. Richardson. "Relative Profitability of Dairy Farms in a High Feed Cost Environment." Presented paper at the 42nd Annual Southern Agricultural Economics Association Meetings, Orlando, FL, February 6 - 9, 2010.

Bryant, H. L., J. Lu, J. W. Richardson, and **J. L. Outlaw**. "Long-term Effects of Increasing Ethanol Production on Agricultural Markets and Trade, Land Use, and Food Insecurity." Presented paper at The Economics of Alternative Energy Sources and Globalization: The Road Ahead conference, Orlando, FL, November 15-16, 2009.

Raulston, J. M., G. M. Knapek, **J. L. Outlaw**, J. W. Richardson. "Farm Level Impacts of 2008 Farm Bill Payment Limit Rules and Adjusted Gross Income Eligibility Criteria." Presented paper at the Western Agricultural Economics Association Annual Meeting, Kauai, HI, June 24-26, 2009.

Herbst, B. K., David P. Anderson, **Joe L. Outlaw**, James W. Richardson. "Potential Ramifications of the EPA Dairy Cow Tax." Presented paper at the Western Agricultural Economics Association Annual Meeting, Kauai, HI, June 24-26, 2009.

Frosch, B. J., J. W. Richardson, Brittany D. Morris and **J. L. Outlaw**. "Sweet Sorghum Juice to Ethanol in Texas: An Economic Feasibility Analysis." Presented paper at the 41st Annual Southern Agricultural Economics Association Meetings, Atlanta, GA, January 31 - February 3, 2009.

Herbst, B. K., D. P. Anderson, **J. L. Outlaw**, J. W. Richardson and T. R. Bilby. "The Effects of Sex Sorted Semen on Southern Dairy Farms." Presented paper at the 41st Annual Southern Agricultural Economics Association Meetings, Atlanta, GA, January 31 - February 3, 2009.

Campiche, J. L., H. L. Bryant, J. W. Richardson and **J. L. Outlaw**. "Effect of Biofuels Technology Development on World Agricultural Markets and Trade." Presented poster at the American Agricultural Economics and American Council on Consumer Interests Joint Annual Meeting, Orlando, FL, July 27 - 29, 2008.

- Fumasi, R. J., J. W. Richardson and **J. L. Outlaw**. “The Stochastically Efficient Biomass Crop Mix: View From the Biorefinery.” Presented poster at the American Agricultural Economics and American Council on Consumer Interests Joint Annual Meeting, Orlando, FL, July 27 – 29, 2008.
- Higgins, L. M., J. W. Richardson and **J. L. Outlaw**. The Potential Impact of a Texas High Plains Ethanol Plant on Local Water Supplies.” Presented paper at the American Agricultural Economics and American Council on Consumer Interests Joint Annual Meeting, Orlando, FL, July 27 – 29, 2008.
