

Biography:

Dr. Karl Wyant currently serves as the Director of Agronomy at Nutrien. In this position, Dr. Wyant contributes proven agronomic leadership in growing the Nutrien commodity and premium fertilizer product lines and promotes advanced sustainability initiatives. Furthermore, Dr. Wyant holds multiple patents in the biostimulant category and is a recognized thought leader in the product space. Additionally, Dr. Wyant serves the broader agriculture community in his role as the Executive Board Chairman of the Certified Crop Advisor group, representing over 12,000 on-farm advisors across the United States and internationally.

Before working at Nutrien, Dr. Wyant served as the Vice President of Ag Science for Heliae Agriculture (2019-2022) and as an agronomist for Helena Agri-Enterprises in California and Arizona (2014-2019). Dr. Wyant earned his advanced degrees at Arizona State University (PhD - 2014) and Colorado State University (MS - 2008). Dr. Wyant is a Certified Crop Advisor and Certified Professional Agronomist (CPAg) and has his CA and AZ Pest Control Advisor licenses. Karl and his family reside in Tempe, AZ.
