

Bio for Mr. Matt Millea

Deputy County Executive for Physical Services
Onondaga County, New York

Vice Chair of the Government Affairs Committee
Water Environment Federation (WEF)

As Deputy County Executive, Mr. Millea oversees the operations of nine county departments and assists County Executive Joanie Mahoney in the development and implementation of the annual county budget and a broad range of policy issues. County Executive Mahoney has also charged Mr. Millea with managing the County's "Save the Rain" effort, a multi-million dollar public works program that is utilizing both conventional and green infrastructure approaches to mitigate combined sewer overflows into Onondaga Lake and its tributaries.

Prior to joining the Mahoney administration, Mr. Millea served as the Executive Vice President and Acting President of the New York State Environmental Facilities Corporation, which operates the largest Clean Water State Revolving Fund Program in the nation. In 2009, he oversaw the successful deployment of over \$500 million in federal stimulus funding from both the Clean Water and Drinking Water SRF programs and launched New York State's Green Innovation Grant Program, which is now in its fourth round of funding.

Mr. Millea also worked for two years as a legislative assistant with the State Department of Environmental Conservation and as a Senior Legislative Analyst with the New York State Association of Counties.

Mr. Millea serves on the Board of Directors of the Rosamond Gifford Zoo in Syracuse, and the Onondaga County Resource Recovery Agency. He also served for four years on the Board of the Great Lakes Protection Fund, an environmental endowment that invests in the research and development of new technologies and environmental strategies focused on protecting the natural resources of the Great Lakes basin.

Mr. Millea is a graduate of Siena College, where he currently serves as an Associate Trustee, and has a Masters Degree in Public Administration from Columbia University.

Onondaga County is in Central New York and has approximately 450,000 residents. The County operates six waste water treatment facilities, hundreds of pump stations and more than 700 miles of interceptor sewers and force mains that serve approximately 125,000 unique users within the County's Consolidated Sanitary district.
