

[Insert Subcommittee Name Here]

## Witness Disclosure Form

**Clause 2(g) of rule XI of the Rules of the House of Representatives requires non-governmental witnesses to disclose to the Committee the following information. A non-governmental witness is any witness appearing on behalf of himself/herself or on behalf of an organization other than a federal agency, or a state, local or tribal government.**

Your Name, Business Address, and Telephone Number:

Lynn B. Jorde  
Department of Human Genetics  
University of Utah School of Medicine  
Salt Lake City, Utah 84112-5330  
(801) 581-4566

1. Are you appearing on behalf of yourself or a non-governmental organization?  
Please list organization(s) you are representing.

University of Utah, a body politic and corporate of the State of Utah

2. Have you or any organization you are representing received any Federal grants or contracts (including any subgrants or subcontracts) since October 1, 2012 related to the agencies or programs funded by the Subcommittee? Yes

Yes  No

3. Have you or any organization you are representing received any contracts or payments originating with a foreign government since October 1, 2012 related to the agencies or programs funded by the Subcommittee? No.

Yes

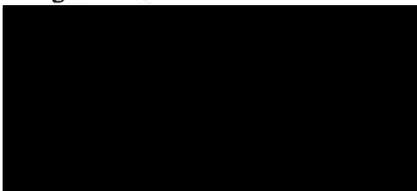

No

I have not received any contracts or payments originating with a foreign government. I do not know if the University of Utah (University) has received any such contracts or payments.

4. If your response to question #2 and/or #3 is "Yes", please list the amount and source (by agency and program) of each Federal grant (or subgrant thereof) or contract (or subcontract thereof), and/or the amount and country of origin of any payment or contract originating with a foreign government. Please also indicate whether the recipient was you or the organization(s) you are representing.

Attached please find (1) a Word document showing my current grants and (2) an Excel spreadsheet showing the grants and contracts the University has received from the Departments of Education, Labor, and HHS. I do not have information on grants or contracts the University has received, if any, from other agencies or programs funded by the Subcommittee - to my knowledge, the University does not track this information.

## Lynn B. Jorde Witness Disclosure

### List of Current Grants

#### ACTIVE

R01 GM59290 (MPI: Jorde,  
Feschotte) 4/1//2015 -  
3/31/2019

NIH/GMS

Population genetics and evolution of mobile elements

The major goals of this project, which is now in its fourth funding cycle, are to explore the effect of mobile elements (*Alu*, L1, and SVA) on human genomic diversity, using novel methods of high-throughput sequencing and genotyping. The effects of *Alu* elements on structural variation and gene expression will be explored.

R01  
GM104390  
09/01/13 - 08/31/17

NIH/GMS (MPI: Yandell,  
Jorde)

Role:MPI

VAAST+: Tool for variant prioritization, risk assessment and disease-gene finding

The VAAST software package is being expanded to deal effectively with pedigree data, individual risk estimation, and gene identification for complex diseases.

Department of Justice (PI:  
Jorde) 01/01/13 - 12/31/15

Role: PI

Genome-Wide Forensic DNA Analysis

Methods are being developed to obtain DNA profiles from highly degraded forensic samples. Analytic methods are being further developed to identify distant relatives from DNA samples for application in mass disasters.

R01 DK091374-01A1 (PI: Guthery) 09/26/11  
- 06/30/15

NIH

Role: Co-investigator

Rare Disease Susceptibility Alleles in Children with Crohn Disease

The overall goal of this project is to identify new genetic risk factors by studying high-risk Crohn disease kindreds and very young children affected by Crohn disease.

NIH (PI:

Valle)

01/01/12 - 12/31/16

Role: Subcontract PI

Mendelian Disorders Genome Center (U54)

The goal of this project is to use high-throughput sequencing to discover new Mendelian disease-causing genes. In addition, we are developing software for use in gene identification.

NIH (PI:

Schiffman)

04/01/12 - 03/31/17

Role: Co-investigator

Genetic Risk Factors for Ewing's Sarcoma

The Utah Population Database and other sources are being used to identify individuals and families at high risk for Ewing sarcoma and to identify genes that underlie this condition.

#### COMPLETED

1P01CA108671-01A2 (PI:Hoffman)

07/01/06 -

06/31/12

NIH/NCI

Myeloproliferative Disorders (MPD) Consortium

Project #1 (PI Prchal): Genetic Basis of Polycythemia Vera

The major goals of this grant are to establish a multi-institutional international research group entitled the "MPD Research Consortium" which will coordinate and facilitate basic and clinical research dealing with the cellular and genetic basis of the Ph negative MPD, to establish a multi-institutional MPD Clinical Consortium to enable uniform, high volume sample collection, storage and distribution, to perform rationally designed clinical trials in patients with Ph negative MPD at multiple institutions and to

maintain an interactive website for MPD Consortium investigators, a sophisticated international tissue bank and an on-line database that will allow for integration of basic and clinical research.

1RC4 MH092880-01 (PI: Kazazian)  
- 09/29/13

09/30/10

NIH

The Role of Retrotransposons in Autism Spectrum Disorders

Role: Subcontract PI

A subcontract with Johns Hopkins University on which we will apply a high-throughput sequencing method to identify and genotype Alu insertions from two Alu families.
