

**JASON UHLEY, P.E., MPA**  
**GENERAL MANAGER-CHIEF ENGINEER**  
**Riverside County Flood Control and Water Conservation District**

Jason Uhley is the General Manager-Chief Engineer at the Riverside County Flood Control and Water Conservation District. Jason has served the District for 25 years since joining the District as a Junior Engineer and is a strong advocate for integrated approaches to stormwater management.

Jason was appointed General Manager – Chief Engineer of the District in 2016 and oversees a 250 person staff and an approximately \$100 million annual capital improvement program focused on delivering stormwater management infrastructure that promotes sustainable and livable communities for 2 million residents in western Riverside County. The District also partners with the U.S. Army Corps of Engineers on numerous projects including the \$2.8 billion Santa Ana Mainstem Project, the \$233 million Murrieta Creek Flood Control, Recreation and Environmental Restoration Project and the \$56 million Santa Ana River Levee Restoration Project.

Jason serves on the Board for the National Association of Flood and Stormwater Management Agencies and serves as Vice-Chairman of the Western Riverside County Water Task Force. Jason has also served on the Board of the California Stormwater Quality Association and served on various committees and subcommittees for the American Society of Civil Engineers, County Engineer’s Association of California and the Southern California Water Committee. Jason is a licensed civil engineer in California and holds a Master of Public Administration Degree with an emphasis on Water Agency Management from California State University San Bernardino and a B.A. in Civil Engineering from San Diego State University.
