

En Bloc Amendments to H.R. 2810**Committee on Armed Services
Full Committee En Bloc #5**

Log #	Sponsor	Description
019	Larsen	Increase funding by \$20M for DoD Impact Aid for schools with large numbers of military-connected students. Offset is commissary civilian personnel compensation and benefits
021	Lamborn	Extend US-Israel anti-tunnel cooperation for two years
045r3	Tsongas	This amendment requires a briefing by the Director of Defense Health Agency and the Secretary of the Army on current studies related to chronic pain management and opioid abuse.
077r2	Knight	Increase funding for Air Force Industrial Responsiveness
078	Knight	Increase funding for Navy RDT&E that would fund the completion of at-sea testing and engineering for an existing approach for a new periscope capability on the Virginia-class submarine.
094r1	Speier	Not more than \$25 million may be used to award grants to medical research and universities to support research into early detection of chronic traumatic Encephalopathy
120r3	Moulton	Maintains civilian workforce capabilities to sustain operational readiness
161	Bacon	Expands the scope of DoD cyber training partnerships by including rapidly emerging cyber threats in building and utility control systems and other Internet of Things operational physical systems.
181r1	Hunter	Strikes the exemption section from the exemption from the DCGS BL in CHM Mark. That exemption guts the "commercial first" statute at 10 USC 2377 as it applies to DCGS
182	Hunter	Strikes the DCGS-SOF language from the DRL in the Chairman's mark
187	Carbajal	Increase funding for Educational Partnership Agreements by \$5 million
189	Suozi	Increases funding for environmental restoration for the Navy.
195	Langevin	SERDP harnesses the latest S&T to develop and demonstrate innovative, cost-effective, and sustainable solutions to meet DOD's environmental and mission resiliency challenges.
208r1	Gaetz	Increases the amount for Test and Evaluation Support (PE 0605807F), Line 129 by \$1.0M (to be used for testing, evaluation, and certification of additional suppliers for arresting gear systems for fighter aircraft).

Amendment to H.R. 2810, National Defense Authorization Act for Fiscal Year
2018

Offered by Rep. Tsongas

In the appropriate place in the report to accompany H.R. 2810, insert the following directive report language:

Opioid – Chronic pain and Recruiting

The committee notes with concern the growing number of servicemembers with chronic pain and musculoskeletal disorders caused in part by the physical stress of heavy kits, body armor and strain associated with training and deployment-related activities. Chronic pain is particularly pronounced among younger veterans returning from deployments to the Middle East and older generations of veterans. The Committee is also concerned that growing rates of addiction among young Americans, especially those in rural communities, can impact current and future recruitment, threatening the overall readiness and operational effectiveness of our military. The Committee has previously expressed its concern about the growing opioid epidemic at the national level and has asked the Department of Defense to submit a report to the House Committee on Armed Services that describes DOD's efforts to prevent, educate and treat prescription drug abuse by military servicemembers (House Report 114-537).

The committee is aware that the Secretary of Defense is designing a gap-driven musculoskeletal and pain research portfolio which includes a diverse collection of studies examining improved management of pain from the point of injury to chronic pain management. The committee is also concerned with the potential challenges that opioid abuse may be having on recruitment. Therefore, the Committee directs Secretary of Defense to brief the House Armed Services Committee by December 31, 2017 on efforts underway to provide opioid-alternative treatments and therapies to manage chronic pain and to address the adverse side effects and consequences of classic opioid use and/or abuse. The briefing shall also address the emerging and ongoing challenges to recruitment by prescription opioid use and include any information regarding departmental collaboration with schools, law enforcement, and health care professionals.

LOG 077r2

**Amendment to H.R. 2810
National Defense Authorization Act for Fiscal Year 2018**

6 tion Act for Fiscal Year 2017 (Public Law 114-328) is
7 amended by adding at the end the following new subpara-
8 graphs:

9 “(D) The minimum civilian end strength
10 specified in section 691 of title 10, United
11 States Code, needed to support the national
12 military strategy.

13 “(E) A civilian operating force structure
14 sized for operational effectiveness, that is
15 manned, equipped and trained to support de-
16 ployment time and rotation ratios sized to sus-
17 tain the readiness and needed retention levels
18 for the regular and reserve components accord-
19 ing to the judgment of the Joint Chiefs of Staff

1 in fulfillment of their responsibilities under sec-
2 tions 151, 3033, 5033, 8033 and 5044 of title
3 10, United States Code.

4 “(F) The development of civilian workforce
5 levels to ensure that every proposal to change
6 military force structure is accompanied with the
7 associated civilian force structure changes need-
8 ed to support that military force structure.

9 “(G) The hiring authorities and other ac-
10 tions that the Secretary of Defense or the Sec-
11 retary of the military department will take to
12 eliminate any gaps between desired pro-
13 grammed civilian workforce levels and the exist-
14 ing size of the civilian workforce by mission and
15 functional area.

16 “(H) A civilian workforce plan that is con-
17 sistent with the total force management re-
18 quirements of sections 129 and 129a of title 10,
19 United States Code.”.

**Amendment to H.R. 2810
National Defense Authorization Act for Fiscal Year 2018**

Offered by: Mr. Don Bacon of Nebraska

In the portion of the report to accompany H.R. 2810 titled "Cyber Training and Talent Management", insert at the second paragraph, after the words "industry, and non-profit institutions", the following new text: "Especially in specialized and emerging areas like Internet-of-Things applications, building and utility control systems, or other operational physical systems, the Department should develop these kinds of partnerships to support training and familiarization of these operational physical systems through emulation technology."
