ITEMS OF SPECIAL INTEREST

Digital Transformation of the Recruiting Process

The committee understands that the Department of Defense and the military departments are working to improve and modernize the military recruiting process. However, the committee is aware that additional modernization is required to optimize recruiting and entrance processing. Therefore, the committee directs the Secretary of Defense, in consultation with the military services, to provide a briefing to the Committee on Armed Services of the House of Representatives no later than April 1, 2018, on the plan to modernize military recruiting and entrance processing. The briefing shall include:

(1) how the enlistment and commissioning workflow process can be modernized to improve workflow by minimizing paperwork and maximizing paperless transactions;
(2) how the military services measure effectiveness and return on investment for recruiting and advertising; and
(3) how the military services are using data analytics to improve recruiting.

GI Bill Benefit Review

The committee recognizes the substantial benefit the Post 9-11 GI Bill provides service members to further their or their dependent’s education. Due to the length of service requirements to earn the benefit or transfer the benefit to a dependent, many service members have experienced difficulty understanding how much of the benefit they have earned. The committee is aware that service members, both Active Duty and in the Reserve Components, have had to reimburse the government for unauthorized use of the benefit due to not meeting the length of service requirements. Therefore, the committee directs the Secretary of Defense to provide a briefing to the House Committee on Armed Services by November 30, 2017, on whether providing service members information on their remaining entitlement upon discharge from service would be feasible and appropriate. The committee believes relevant information would include the amount of the Post 9-11 GI Bill benefit each service member has earned prior to separation, retirement or release from military service, including whether or not they have completed any additional service obligation for transferring the benefit to a dependent.
Military Child Custody Protections

The committee remains concerned that service members are not receiving necessary information related to State child custody laws governing their dependents. While the Secretaries of the military departments are currently required to provide notice of child custody protections under the Servicemembers Civil Relief Act, the military departments do not have uniform requirements to provide information on State child custody laws. Therefore, the committee directs the Secretary of Defense, in consultation with the Secretaries of the military departments, to provide a briefing to the Committee on Armed Services of the House of Representatives not later than March 1, 2018, on the information and resources currently provided to service members regarding State child custody laws. The briefing shall include an analysis of how best to standardize the dissemination of this information to all affected service members, as well as an analysis of when, and how often, the information should be provided to these service members.

Pilot Shortage Assessment

The committee recognizes that the services are having difficulty addressing shortfalls in critical career fields that are vital for the readiness of our Armed Forces, specifically in the pilot career field. The committee is concerned about the Air Force's retention and recruitment issues within the fighter pilot community. The committee notes that the Air Force provided written testimony to the committee on February 7, 2017, stating that the Air Force was short 723 fighter pilots below requirement and 1,555 pilots short across all mission areas.

Therefore, the committee encourages the Secretary of the Air Force to evaluate all options for improving the recruitment and retention of Air Force pilots. As part of such an assessment, the committee directs the Secretary of the Air Force to provide a briefing to the Committee on Armed Services of the House of Representatives by December 1, 2017, on the extent to which moving pilot or other aviation billets to the Active Guard and Reserve Components would address these shortages.

Pre-Command Audit Training Course

The committee believes that good financial management and auditability are important responsibilities of military leaders at all levels and is concerned that responsible officers receive inadequate training on these matters in the course of their careers. Therefore, the committee directs the Secretary of Defense to submit a report to the Committees on Armed Services of the Senate and the House of Representatives by March 1, 2018, on the current programs of education used to train those officers assuming a command billet or a billet directly responsible for financial management on their responsibilities regarding financial management and auditability.
Additionally, the committee directs the Comptroller General of the United States to submit a report to the Committees on Armed Services of the Senate and the House of Representatives by June 1, 2018, that provides an assessment of the programs identified in the Secretary’s report. The report of the Comptroller General shall also include an overview of current law and the Department of Defense’s financial management and audit efforts to be in compliance with statutory guidance, as well as general financial management training requirements for command billets or billets requiring management of Department of Defense funds.

Review of Resourcing of Trial Defense Services

The committee is aware of the integral role that an independent and adequately resourced military trial defense service plays in the military justice system. Accordingly, the committee directs the Secretary of Defense, in coordination with the Secretaries of the military departments, to conduct a review of the trial defense services resourcing, and to provide a briefing to the Committee on Armed Services of the House of Representatives not later than April 1, 2018. The review will include:

1. whether military defense counsel require independent investigators in order to adequately defend their clients, and the costs associated with providing such investigators;
2. whether trial defense offices are adequately resourced with personnel and equipment;
3. the feasibility and advisability of providing independent funding and approval authority to trial defense services for expert witnesses; and
4. the programs in place to ensure that lead defense counsel in complex cases, such as murder and sexual assault, have the appropriate experience and training required to effectively defend their clients.

TITLE VI—COMPENSATION AND OTHER PERSONNEL BENEFITS

ITEMS OF SPECIAL INTEREST

Morale, Welfare, and Recreation Assessment

The committee recognizes that the continued support for service members and families is vital to their quality of life as operational requirements and budgetary pressures continue unabated. The committee is concerned that the military services have not complied with established Department of Defense policy to ensure appropriate financial support of family, welfare, and recreational programs for the past several years, particularly for programs within Category B, which relies on both appropriated and non appropriated funding.

The committee recognizes that all programs, including Morale, Welfare, and Recreation (MWR) programs, need to be constantly reviewed to ensure that
they are necessary, effective, and cost efficient. Therefore, the committee directs the Comptroller General of the United States to conduct a review of the Department of Defense’s MWR programs by category to assess the Department’s current Category A, B, and C appropriated and nonappropriated funding policies and priorities. The review should include a baseline assessment of the programs; the budgeting, funding, and accounting processes used by the services; an analysis and assessment of the review process by which services ensure that programs continue to be effective and cost-effective; and whether the organizational structure of the services are adequate to provide the appropriate oversight of these important programs. The committee further directs the Comptroller General to submit a report to the House Committee on Armed Services not later than April 1, 2018, on the results of the assessment.

Review of Department of Defense Debt Collection Practices

The committee notes that the Department of Defense operates a debt collection process to recoup erroneous payments. While debt collection is sometimes necessary, the committee is concerned that some Department of Defense debt collection practices may place an undue burden on service members and their families. The committee therefore directs the Comptroller General of the United States to submit a report to the Committees on Armed Services of the Senate and the House of Representatives not later than June 1, 2018, on debt collection procedures of the Department of Defense. The report shall include an analysis of the following:

(1) policies of the Department that govern such overpayments and debt collection actions, including the extent to which such policies ensure uniform enforcement and due process for members of the Armed Forces;

(2) the extent to which the Department has processes or controls in place to ensure compliance with applicable laws related to debt collection;

(3) means by which the Department may be flexible in the enforcement of debt collection practices regarding members of the Armed Forces, including the ability to grant debt forgiveness or provide other forms of debt relief;

(4) how the Department reports such overpayments and related debt collection actions to credit rating agencies, including whether and how such agencies distinguish between types of delinquency; and

(5) policies and procedures of the Department that allow members of the Armed Forces to challenge alleged overpayments or debt collection actions by the Department before the Department reports such overpayments or actions to credit rating agencies.
TITLE VII—HEALTH CARE PROVISIONS

ITEMS OF SPECIAL INTEREST

Post-Traumatic Stress Disorder

The committee acknowledges the efforts of the Department of Defense and the military services to diagnose and treat military members suffering from post-traumatic stress disorder (PTSD). Despite the progress that has been made, the committee believes that more needs to be done to ensure service members seek and receive the treatment they deserve. The committee continues to believe PTSD is underreported and underdiagnosed, leading to unnecessary suffering and some service members receiving other than honorable discharges that are unwarranted. The committee wishes to stay informed of the Department’s progress in addressing these concerns and directs the Secretary of Defense to provide a briefing to the Committee on Armed Services of the House of Representatives not later than December 1, 2017, on the extent to which service members are seeking PTSD treatment; steps the military services are taking to eliminate the stigma sometimes associated with seeking treatment; and efforts by the military services to ensure commanders carefully weigh a diagnosis of PTSD when adjudicating involuntary separations.

Post-Traumatic Stress Disorder and Traumatic Brain Injury Research Initiatives

The committee notes that the Defense Centers of Excellence for Psychological Health and Traumatic Brain Injury collaborate with a wide variety of research institutions, both military and civilian, to better understand the impacts and improve treatment for post-traumatic stress disorder (PTSD) and traumatic brain injury (TBI). The committee encourages the Secretary of Defense to continue to explore complementary and integrative PTSD therapies that benefit patients, such as art or music therapy, and to pursue research into appropriate therapy drugs that are under development. With regard to TBI, the committee is heartened by the creation of the Center for Neuroscience and Regenerative Medicine Brain Tissue Repository that will allow service members to donate their brain for research after death, but is concerned by the Department’s slow pace in publicizing the effort and the process involved. Therefore, the committee directs the Secretary of Defense to provide a briefing to the Committee on Armed Services of the House of Representatives by June 1, 2018, on his plan for informing service members about the Brain Tissue Repository, donor qualifications, and the donation process.

TRICARE Pharmacy Pilot Program

The committee notes that section 743 of the National Defense Authorization Act for Fiscal Year 2017 (Public Law 114–328) authorizes the
Secretary of Defense to conduct a pilot program to evaluate whether extending additional discounts for prescription drugs filled at retail pharmacies will maintain or reduce cost for the Department of Defense. This pilot gives the Secretary of Defense the authority to implement a pilot program that would test prescription drug acquisition cost parity in the TRICARE pharmacy program. The committee believes there is merit in executing the pilot program in order to determine if TRICARE pharmacy costs to the Department can be reduced through decreased acquisition costs, lower administrative fees, and competition, while restoring beneficiary access to brand-name maintenance prescription drugs at all dispensing retail pharmacies. Therefore, the committee encourages the Secretary to promptly utilize the authority granted under section 743 and implement the pilot program. In the event the Secretary declines to conduct the pilot, the committee directs the Secretary to provide a briefing to the House Committee on Armed Services by September 15, 2017, on the analytical basis for that decision.
