

Requested Materials In Addition To Written Testimony

Dear House Committee on Armed Services,

Please find attached a copy of my curriculum vitae, as well as the requested disclosure statement, to accompany my submitted written testimony.

In the past 36 months, I have not personally received any federal contracts or grants (including subcontracts and subgrants), and contracts or grants (including subcontracts and subgrants), or payments originating with a foreign government, related to the subject matter of this hearing.

The organization I represent here today, Palantir Technologies Inc. (“Palantir”), along with its subsidiary Palantir USG, Inc., has numerous contracts and subcontracts with a Department of Defense end customer. “Attachment A” contains a listing of those contracts and associated aggregate amounts from 2021 to present, drawn from the Federal Procurement Data System - Next Generation. Upon Committee request, Palantir Technologies Inc. can provide more comprehensive and granular information about each contract, including those that are non-public or may otherwise not be reflected in the Federal Procurement Data System.

My compensation for my role at Palantir is publicly available in Palantir’s proxy statements filed with the SEC, including in its latest proxy statement available [here](#).

In addition to my role at Palantir Technologies Inc., I serve as Chairman of the Board and serve on Board committees of Ginkgo Bioworks (“Ginkgo”), which itself has federal contracts with customers that include the Department of Defense. Although I am not representing Ginkgo here today, my associated compensation for my role may be found in the company’s publicly available proxy statements (see their latest proxy [here](#)).

Except as noted above, I am not a fiduciary of any other organization or entity that has a potential interest in the subject matter of the hearing.

Sincerely,

Shyam Sankar
Chief Technology Officer
Palantir Technologies Inc.

Shyam Sankar

Chief Technology Officer, Palantir Technologies

PROFILE

Shyam Sankar

PROFESSIONAL BIOGRAPHY

Shyam Sankar is the Chief Technology Officer and Executive Vice President of Palantir Technologies. A seasoned technologist, he's spent over two decades building and delivering disruptive software and AI solutions for both government and private sector institutions.

Joining Palantir in 2006 as employee #13, Shyam envisaged the role of the Forward Deployed Engineer, pioneering the company's definitional engineering model. Under his leadership, Palantir transformed from a Silicon Valley startup to a global, industry leading software and AI company.

Shyam is also a thought leader, prolific author, and frequent speaker. He routinely leads strategic sessions with elected officials, and has appeared before the House Select Committee and the Senate Armed Services Subcommittee on Cybersecurity. A frequent guest on CNBC and Bloomberg, his work has been featured in numerous publications, including American Affairs, the Wall Street Journal, and the Washington Post. In 2023, he launched the First Breakfast initiative, where he regularly publishes his thought leadership. He has also appeared on a variety of podcasts, including This Week in Startups and The Arsenal of Democracy. In 2024, he was named as one of The Top 7 People in AI Defense Tech.

He holds a B.S. in Electrical and Computer Engineering from Cornell University and an M.S. in Management Science and Engineering from Stanford University.

In addition to his work at Palantir, Shyam also serves as the Chairman of Ginkgo Bioworks.
