Attachment A

The information contained herein has been compiled in good faith to the knowledge of the organization using its reasonable due diligence. We have sought to avoid unnecessary duplication and confusion in our disclosure by identifying those federal sources with which we have had business relationships during the covered period. Due to the nature of capital markets and custodial banking business, which may be ongoing or periodic, we have characterized the amount applicable to such business as variable. At the request of the Committee, for indicative purposes only, we estimate the approximate scale of aggregate net revenues associated with such relationships to be between \$225 and \$275 million per year for 2017 and 2018, exclusive of items to which we are unable to ascribe a meaningful estimate given time constraints.
