John Miller

Senior Vice President of Policy, Trust, Data, and Technology and General Counsel

John Miller, Senior Vice President of Policy for Trust, Data, and Technology and General Counsel, currently leads ITI's Trust, Data, and Technology policy team, driving ITI's global strategy and advocacy on cybersecurity, privacy and data protection, artificial intelligence, supply chain security and resiliency, government access to data, digital platforms, Internet of Things, cloud computing, telecommunications, surveillance, and other technology and digital policy issues. As general counsel, Mr. Miller serves as ITI's chief legal officer, leading the association's amicus filings and advising on legal and regulatory matters.

A globally recognized expert on technology policy, Miller has testified before the U.S. Congress on an array of tech policy issues including cybersecurity, privacy, data, supply chain, and trade topics, was selected to participate in the OECD Network of Experts on AI and OECD Expert Community on Data Free Flows with Trust, and was previously appointed as a subject matter expert on multiple NSTAC panels, most recently on Addressing the Abuse of Domestic Infrastructure by Foreign Malicious Actors. Miller has also participated as a keynote speaker or panelist at major events in the U.S., EU, Japan, India, Brazil and China. A proven IT industry leader, Mr. Miller received the inaugural National Risk Management Center (NRMC) Partner Award for his work as Co-Chair of the Cybersecurity and Infrastructure Security Agency-sponsored ICT Supply Chain Risk Management Task Force, the preeminent public-private partnership in the U.S. working on supply chain issues. Mr. Miller previously served three terms as Chair of the IT Sector Coordinating Council, the principal IT sector partner on behalf of over 100 organizations to the Department of Homeland Security (DHS) on cybersecurity, supply chain and critical infrastructure protection policy. Mr. Miller also co-founded and launched the Council to Secure the Digital Economy, an initiative comprised of global ICT providers dedicated to enhancing the cyber resiliency of the global digital ecosystem.

Prior to ITI, Miller worked for nearly a decade in the Global Public Policy organization at member company Intel Corporation. Miller's positions at Intel included Director of Cybersecurity Policy, Global Policy Strategist, and Director of Government Relations and Managing Counsel, leading Intel's cybersecurity policy strategy and advocacy activities in the U.S. and spearheading Intel's global policy strategy development and advocacy on a variety of technology policy issues. Earlier in his career, Miller led Intel's privacy and security policy strategy and outreach efforts in the Asia-Pacific region.

Prior to joining Intel, Miller was a lawyer in private practice in New York, where he represented technology, media, and other corporate clients in a variety of complex business and intellectual property litigations and regulatory matters.

Miller received a Bachelor of Arts degree in Government from Hamilton College, *summa cum laude*, and a Juris Doctor from the University of Wisconsin Law School, where he served as Articles Editor of the *Wisconsin Law Review*.
