

**Zoe Lipman**

*Director, Vehicles and Advanced Transportation Program  
BlueGreen Alliance*

Zoe Lipman directs BlueGreen Alliance's Vehicles and Advanced Transportation Program. She is based in the organization's Washington, DC office where her portfolio includes transportation, manufacturing and related economic topics.

Prior to joining BGA, Lipman led the National Wildlife Federation's program on fuel economy and advanced and electric vehicles, and previously headed the organization's Midwest climate policy program. She has written and advocated on advanced vehicle supply chains, transportation and utility sector innovation, and other opportunities to speed adoption of climate and energy solutions while rebuilding America's economy, communities, jobs and competitiveness. Lipman has also served on utility, transportation and climate policy forums at a state, regional and federal level and works closely with labor, environmental, business and government stakeholders.

Prior to joining NWF, Lipman worked in management consulting and as a trade union official in the U.S. and overseas. She holds a BA from Yale University and a Masters in Public Administration from Harvard's John F Kennedy School of Government.
