Subject: Update Charting My Path

Dear Parents and Guardians,
I am writing to inform you of an important update regarding the **Charting My Path for Future Success** program. Unfortunately, as of February 10, 2025, the federal funding provided by the U.S. Department of Education for this initiative has been discontinued immediately. Due to this change, our district can no longer continue the Charting My Path study activities.

What This Means for Your Child:

1. Your child will no longer receive transition supports, specifically those provided by the federally funded Charting My Path program.
2. Your child will continue to receive all other support and services provided by the district before participating in Charting My Path.
3. This cancellation will **not** affect your child's services from the district or other agencies.

We sincerely appreciate your family's participation in this program and regret that we cannot continue providing this additional support. However, our commitment to your child's education and transition planning remains steadfast. We will continue to work closely with you to ensure that your student's Individualized Education Program (IEP) reflects their needs and goals for the future.

Thank you
