

Mr. Ajikumar Parayil, Founder and CEO, Manus Bio, Boston, Massachusetts. Mr. Parayil is an entrepreneur with more than 20 years of experience in technological innovation and commercialization. Manus Bio is a bioalternatives scale-up platform, and Mr. Parayil is also Co-founder of Mirakel Technologies. He invented Manus's core technology platform at the Massachusetts Institute of Technology (MIT), launched Manus in 2011, and led the successful commercialization of various bioalternatives made through precision fermentation. He has also pioneered several novel methods for engineering chemistry using biology to manufacture complex natural chemicals. He received his Ph.D. from Mahatma Gandhi University in India and did his post-doctoral research at the Singapore-MIT Alliance in Singapore and at MIT.
