Representative Bobby Scott (D-VA)

Question(s) for Ms. Lydia Logan

- 1) Ms. Logan, you mention in your testimony that any WIOA reauthorization effort must include a reform of the Eligible Training Provider List. Specifically, you wrote that we should focus on quality and outcome measures. I agree with that sentiment, and think that we need to identify outcomes to separate the good actors from the bad, to ensure that training providers don’t sell credentials of no value while reaping taxpayer dollars. It’s important we ensure training providers are keeping costs low, training for good jobs, and delivering in-demand and marketable credentials of value.
 - a) Can you please send specific recommendations on these types of quality and employment outcomes that we can use as guardrails for the Eligible Training Provider List for any future WIOA reauthorization?
 - b) And how do we hold training providers accountable without being too onerous on them and employers?
