

Mr. Chen Qinglin

Mr. Chen was an activist in Tiananmen Square and was imprisoned for several years in the 1990's for his efforts in attempting to form an opposition party in the wake of the massacre. He was one of the first 303 signatories of "Charter 08". In 2010 he led a program of psychological support for domestic human rights defenders who have been tortured by the government. He remained inside China until April 2014 when he attended a conference in Taiwan and subsequently came to the USA and is currently studying here. He has a message from those brave colleagues who have not ceased fighting for human rights inside China these last 25 years.
