

### Jeffery Morehouse bio

In addition to being an award-winning filmmaker, Jeffery Morehouse, volunteers much of his time as Executive Director of Bring Abducted Children Home (BACHOME.org). Bring Abducted Children Home is a nonprofit organization dedicated to the immediate return of internationally abducted children being wrongfully detained in Japan. It also strives to end Japan's human rights violation of denying children unfettered access to both parents. BAC Home works to increase public awareness through outreach in the general community on the crisis of international parental child abduction.

He believes it is important for Parents of Internationally Kidnapped Children to strategically engage in raising the level of awareness this human and family rights crisis. Info about his son's kidnapping and his efforts is at:

Though he is the sole custodial parent in both the U.S. and Japan, his son remains kidnapped in Japan.
