

The Human Toll of Raúl Castro's Rule: Partial Record of Deaths and Disappearances Attributed to the Cuban State July 31, 2006 – December 31, 2015

Following is a partial list of victims, as documented by Cuba Archive, since Raúl Castro assumed supreme command in Cuba. These numbers are only for cases properly documented and do not represent the actual number of deaths. Many more deaths were reported at sea in exit attempts or of migrants murdered while attempting to cross by land into the U.S., yet there is insufficient data to document these cases. Death reports from prison are very limited, as international monitoring is not allowed and reporting from inside the prisons leads to reprisals, but it is known that many deaths occur in prison from abuses, medical negligence and protest hunger strikes and suicides. (Deaths of non-political prisoners are part of this project given the criminalization in Cuba of many activities that contravene universally-accepted human rights' standards and the absence of due process of law.)
