

Carly Seidewand Eppley is the Vice President of Global Sales and Administration at Resin Technology, LLC, a \$100 million plastic materials trading and compounding company based in the Boston area. She has been with Resin Technology since 2006 and built the export department to include consistent sales to over 30 countries worldwide of US made petrochemical products. Prior to joining Resin Tech, Carly worked in technical sales and marketing in the pharmaceutical/biotech industry and in investment banking. She has a Bachelor of Science in Biology from Boston College and an MBA from Babson College in Global Business & Entrepreneurship.
