

Questions for the Record from Rep. Garcia for Mr. Wu
“Hearing on the Weaponization of the Federal Government”
July 9, 2024

Mr. Wu, I now have a few questions for you.

- How do calls for violence against judges overseeing cases potentially threaten the fair administration of justice?
- What will be the larger effect downline if we do not ensure our judges’ safety?
- Do you think it’s dangerous for Trump to be so publicly admonishing a judge the way he has?
- How would that danger expand if Trump chose to do this as President, if he is elected to a second term?
- Under the new Supreme Court ruling, isn’t it plausible that if elected to a second term, Trump could call for Judge Merchan to be assassinated and not face criminal penalties?
 - Could that fact – combined with President Trump’s blatant attacks on judges in cases against him – create a chilling effect on judges overseeing cases related to the President or anyone in his family or inner circle?
 - How does that affect the fair administration of justice?
