

Teresa Fryer

Teresa Fryer has held leadership positions in both the private and public sectors, focusing on information security, privacy and technology. She started at CMS in September 2011 in the Office of Information Services as the Chief Information Security Officer (CISO) responsible for the CMS Information Security Program. After retiring from the U.S. Navy in 2002 after 20 years of service as an Information Technology Chief, she served as a Senior Information Security Analyst as a contractor for several federal agencies before starting her federal civilian career at the U.S. Office of Personnel Management in September 2005. She served there as the CISO for over 2 years before moving on to NASA and the Fish and Wildlife Service, Department of Interior in order to broaden her federal experience in the information security and privacy areas. She earned a Bachelor of Science in Information Systems Management during her military career and also a Master of Science degree in Communications Technology in 2009. Additionally, she is a Certified Information Systems Security Professional (CISSP), HealthCare Information Security and Privacy Practitioner (HCISPP) and Certified Information Privacy Professional/Government (CIPP/G).
