

Ms. Ruth McKee

During her 30+ year FDA career, Ruth has held a variety of progressively more responsible administrative management positions. She held several positions at the FDA level, before joining the Center for Drug Evaluation and Research in 1993. Her last position in CDER was as the Director, Division of Management Services where she had responsibility for a myriad of administrative management functions. Ruth was appointed the Associate Director for Management in CDRH in September 2002. In this role she is responsible for providing guidance and advice on a wide variety of administrative issues, including budget formulation and execution, human resources, conflict of interest, and employee health and safety.
