

September 5, 2019

The Honorable Gerry Connolly
Chairman, Subcommittee on Government Operations
House Committee on Oversight and Reform
2157 Rayburn House Office Building
Washington, D.C. 20515

Dear Chairman Connolly,

On behalf of Ivanti, I am writing in support of your proposed Federal Risk and Authorization Management Program Authorization Act of 2019 (FedRAMP Authorization Act). We believe passage of this legislation is important to help streamline the process for providers while modernizing and securing federal information technology (IT) systems. We have appreciated the interest and involvement of your personal and committee staff in allowing us to provide input while crafting the legislation.

Ivanti is a leading supplier of enterprise software, headquartered outside of Salt Lake City, Utah, with offices and employees around the world. We are currently awaiting final Authorization for our FedRAMP environment, having begun the approval process in 2018 with the National Oceanic and Atmospheric Administration. The process has taken approximately 24 months at a cost of approximately \$550,000. The FedRAMP PMO has been very good to work with, providing us with templates and process information along the way.

Thank you for your continued interest and involvement on issues affecting the federal government IT community. Ivanti stands ready to assist you and your team in making sure this important legislation is enacted. Please let us know how we can be of assistance.

Sincerely,

Dan Wilbricht – VP Public Sector

Phil Richards – CISO

Steve Daly – CEO and Chairman
