## Leading renewable energy companies worldwide 2021, by revenue

Published by [Madhumitha Jaganmohan](#), Jul 14, 2022

Danish company Orsted was considered the leading renewable energy company worldwide in 2021, based on revenue, with more than 50 billion U.S. dollars. Spanish Iberdrola and Chinese JinkoSolar ranked second and third, respectively, each with more than 30 billion dollars of revenue. JinkoSolar is one of the largest solar panels producers worldwide.

## Leading renewable energy companies worldwide in 2021, based on revenue

(in billion U.S. dollars)
