Hi Representative Pressley –

I am having an issue with the US Postal Service. I have only received one piece of mail over the past three weeks. I have reached out to the postal service twice, as have some of my neighbors who are also not receiving mail. Each time I reach out, they close the ticket and assure me that the issue has been resolved, but I am still not receiving mail. I am missing many important pieces of mail including checks and legal documents so I am very concerned about where my mail is and why I'm not receiving it. Is there anything you can do to help? I am not getting anywhere with USPS and I know mail is a federal issue.
