From: City of Cooper City, Florida

Re: Request for Single Zip Code

To Congresswoman Debbie Wasserman Schultz,

We are writing to express our strong support for the proposal to implement a unified postal code system for Cooper City. This initiative has the potential to greatly benefit our community by improving mail delivery accuracy, emergency services efficiency, lowering automobile insurance rates while fostering smoother coordination across businesses and governmental entities. We have been pursuing this since 2016 and have been repeatedly denied by the US Postal Service.

This improvement would also bring positive economic impacts, including attracting new businesses, increasing the reliability of e-commerce, and optimizing local services. Furthermore, it would contribute to fostering a sense of identity and unity within our community, simplifying communication and interactions both locally and beyond.

We believe in the significant value this project would deliver, and I wholeheartedly support its implementation. We hope that Congress will recognize the wide-reaching advantages of this proposal and move forward with its adoption.

Thank you for your attention to this matter. Please feel free to contact us if additional input or support from the community is needed.

Sincerely,

James Curran
Mayor

Ryan C. Shrouder

Re: City of Eastvale Independent Zip Code.

Dear Mayor Lorimore:

On behalf of the City of Chino, I write to express our support for the City of Eastvale to have its own independent zip code. We acknowledge that the City currently shares Zip Code 91752 with the City of Jurupa Valley and Zip Code 92880 with the City of Corona. However, the City of Eastvale has expanded, and we recognize that establishing an independent zip code for the City is beneficial to Eastvale and its residents.

As conveyed to the City of Chino, the lack of an independent zip code for Eastvale has led to mail delivery issues, which impact legal notices, code enforcement activities, and public outreach efforts. Additionally, Eastvale has stressed that having an address improperly associated with another jurisdiction has led to higher insurance rates for Eastvale residents. As an example, recent wildfires in Corona have affected Eastvale's wildfire insurance rates, and in some cases, have led to residents losing insurance or not being able to obtain insurance all together.

The lack of an independent zip code also causes confusion with voter registration and elections, impacts Eastvale's efforts to build a community identity, and interferes with emergency response activities.

In continuing to apply a holistic, cooperative, and regional approach to governance, and in considering the issues raised by Eastvale, the City of Chino supports an independent zip code specifically assigned to the City of Eastvale. Should you have any questions, please do not hesitate to contact the City of Chino Administration Department at (909) 334-3305.

Sincerely,

Linda Reich

Mayor Todd Rigby
City of Eastvale
12363 Limonite Avenue, Suite 910
Eastvale, CA 91752

Dear Mayor Rigby,

On behalf of the City of Norco, I write to express our utmost support for the City of Eastvale to have its own independent zip code. We acknowledge that the City currently shares Zip Code 91752 and Zip Code 92880 with neighboring jurisdictions and we recognize that establishing an independent zip code for the City is vital to Eastvale's growth.

The lack of an independent zip code for Eastvale has created frustrating challenges for various stakeholders. These challenges include mail delivery issues, which impact legal notices, code enforcement activities and public outreach efforts. Additionally, the lack of an independent zip code has created confusion with voter registration and elections, impacted insurance rates and coverage options, and interfered with emergency response activities.

Understanding that the lack of a definitive zip code impacts the City of Eastvale's identity, economic culture and quality of life, the City of Norco hereby supports an independent zip code that is specifically assigned to the City of Eastvale.

Sincerely,

Mayor Greg Newton
City of Norco

The Honorable Clint Lorimore, Mayor
City of Eastvale
12363 Limonite Avenue, Suite 910
Eastvale, CA 91752

Dear Mayor Lorimore,

I write to express our utmost support for the City of Eastvale to have its own independent zip code. As you know, the City of Eastvale currently shares Zip Code 91752 and Zip Code 92880 with neighboring jurisdictions. However, the City of Eastvale has quickly expanded as one of the fastest-growing cities in California. I recognize that establishing an independent zip code for the City is important to Eastvale's growth.

I understand that having an address that is improperly associated with another jurisdiction has led to higher insurance rates for Eastvale residents. Recent wildfires in Corona have affected Eastvale's wildfire insurance rates. In some cases, this led to residents losing insurance or not being able to obtain insurance.

The City of Eastvale possessing an independent zip code will enhance Eastvale's efforts to build a community identity, economic culture, and quality of life and I hereby support an independent zip code that is specifically assigned to the City of Eastvale.

Sincerely,

Karen S. Spiegel

Mr. Robert Fernandes
Customer Relations Manager
United States Postal Service – Santa Ana District
3101 W. Sunflower Avenue
Santa Ana, CA 92799

RE: OFFICIAL ZONING IMPROVEMENT PLAN CODE BOUNDARY REVIEW REQUEST FROM THE CITY OF EASTVALE

Dear Mr. Fernandes,

At the recommendation of the Office of Senator Alex Padilla, the City of Eastvale respectfully submits this letter to formally request the United States Postal Service (USPS) to review Eastvale's existing Zoning Improvement Plan (ZIP) codes and assign a new and independent ZIP code specifically to match the City's boundaries.

As you may be aware, Eastvale has two ZIP codes, 91752 and 92880, that are shared with the neighboring cities of Corona and Jurupa Valley. ZIP code 91752 is currently coded as Mira Loma; however, territories in the former unincorporated community of Mira Loma have now been fully annexed by the Cities of Eastvale and Jurupa Valley. Eastvale also shares ZIP code 92880 with Corona.

Eastvale's lack of an independent ZIP code has caused several major challenges for the City, including:

- **Business Attraction:** Commercial developers evaluate business expansion decisions based on the 1-mile, 3-mile, and 5-mile trader areas. The City incurred difficulty from the development and real estate communities given that the City's trade area and ZIP codes are grouped with surrounding communities. Demographics in Eastvale are particularly unique and likely to attract a different set of vendors and businesses.
- **Mailing Delivery:** Many addresses in Eastvale are listed as "Corona" and "Mira Loma." As a result, businesses often experience truck delivery issues given that ZIP code 92880 is identified as the City of Corona in many wayfinding platforms. Mail and packages with "Eastvale" as the destination jurisdiction were also returned by the USPS. This significantly impacts legal notices, code enforcement activities, and public outreach efforts.
- **Insurance Rates:** Having an address improperly associated with another jurisdiction can lead to higher insurance rates. Recent wildfires in Corona have affected Eastvale residents' wildfire insurance coverages. In some cases, this led to Eastvale residents losing insurance coverages or not being able to obtain insurance.
- **Voter Registration:** Many Eastvale residents residing in homes with "Corona" addresses believed that they should participate in Corona's elections instead of Eastvale's elections.

- **Community Identity:** Eastvale's lack of an independent ZIP code impacts the City's efforts to build community identity, especially when many businesses identify their locations in Eastvale as "Corona" and "Mira Loma."
- **Sport League Participation:** Many residents are frustrated that Eastvale's lack of an independent ZIP code affects the eligibility of their children's sport league participation.

Eastvale city staff spoke to neighboring jurisdictions and various community stakeholders and received several letters of support (attached) for Eastvale to obtain an independent ZIP code that matches the City's boundaries.

Per the procedures stated in the 2016 "USPS Management Instruction: ZIP Code Boundary Review Process," the City of Eastvale acknowledges that the USPS District Manager is responsible for identifying all relevant issues and potential solutions with regards to this request, quantifying the specific operational impacts and feasibility of this request, and meeting with proponent groups to discuss issues and potential alternatives. Eastvale city staff welcomes the opportunity to discuss our request with USPS staff in detail.

The City of Eastvale was incorporated in October 2010 and is recognized as a full-fledged City that is one of the fastest growing cities in Riverside County. Establishing an independent ZIP code for the City is vital to the community's growth. We sincerely appreciate your consideration of this request and please do not hesitate to contact our Senior Management Analyst, Alexander Fung, at afung@eastvaleca.gov if you have any questions.

Sincerely,

Henry Garcia
Interim City Manager
City of Eastvale

NORCO COLLEGE

September 12, 2022

City of Eastvale
Mayor Pro Tem Todd Rigby
12363 Limonite Avenue #910
Eastvale, CA 91752

Dear Mayor Pro Tem Rigby,

I am writing to share a challenge the college has encountered for our students who reside in Eastvale.

Currently, there are two zip codes in Eastvale recognized by the US Postal Service (92880 and 91752) that are recognized in other cities. Eastvale city boundaries transect portions of both 92880 (Corona) and 91752 (Mira Loma); therefore, we cannot use those zip codes to accurately identify Eastvale students. This creates challenges for both the students and the college's method of reporting student population by city. Students living in Eastvale under these zip codes must choose either Corona or Mira Loma as their city address because our student system is designed to pull from the primary zip code designation identified by USPS. The only method that we have at this point in time for accurately identifying Eastvale students is to take all addresses on file, submit it to GIS (Geographical Information Systems) experts to geolocate their address on a map, and then identify which students are within the city boundaries based on their map location.

Assigning Eastvale zip codes unique to the city would eliminate confusion for our students in our neighboring communities.

Thank you for your continued support of Norco College.

Sincerely,

Dr. Monica L. Green

Monica L. Green, Ed.D.
President, Norco College

475 L'Enfant Plaza SW Room 7142
Washington, D.C. 20260-2802

RE: ZONING IMPROVEMENT PLAN (ZIP) CODE ADJUSTMENT MEETING REQUEST

Dear United States Postal Service Staff,

On behalf of the City of Eastvale, we respectfully submit this letter to invite the United States Postal Service (USPS) to meet with members of the Eastvale City Council and city staff to discuss the possibility of adjusting Eastvale's ZIP code boundaries.

As you are aware, Eastvale currently has two ZIP codes, 91752 and 92880, that are shared with neighboring jurisdictions. According to Google Maps, ZIP Code 91752 is shared between the Cities of Eastvale and Jurupa Valley and ZIP Code 92880 is shared between the Cities of Chino, Chino Hills, Corona, and Eastvale and small portions of unincorporated Orange County and Riverside County. The lack of an independent ZIP code has caused various emergency response, business attraction and retention, insurance rate, and voter registration challenges for Eastvale.

The City understands that USPS' delivery routes would be impacted whenever ZIP codes change boundaries. We also acknowledge that delivery growth and changing demographics can necessitate adjustments to ZIP code boundaries to achieve USPS' objectives. Eastvale is in the process of developing a 158.6-acre Downtown at the corner of Hamner Avenue and Limonite Avenue, which will add up to 2,500 homes and approximately 10,000 new residents within the next several years.

With this in mind, we hope to have a meeting with USPS staff to discuss the implications of consolidating delivery routes and the possible additional costs that would be incurred. The City is open to exploring various solutions and opportunities with the USPS in order for a new and independent ZIP code to be granted solely for Eastvale's jurisdictional boundaries.

As of March 2023, the City has received over 1,100 letters of support from local residents in support of Eastvale having its own independent ZIP code. The Riverside County Board of Supervisors also passed a formal resolution in February 2023 in support of an independent ZIP code for Eastvale. Additionally, California State Senator Richard Roth introduced Senate Joint Resolution (SJR) 3 in Sacramento to call on President Biden to collaborate with the USPS to grant Eastvale an independent ZIP code.

We believe that granting Eastvale a new and independent ZIP Code would not only be beneficial for Eastvale's community identity, but addresses Eastvale's emergency management, public safety, business

attraction and retention, and insurance coverage challenges that are outside of the City's control. Each of these issues severely impact a resident's physical, mental, and financial wellbeing.

Thank you very much for your consideration and please do not hesitate to contact the City's Senior Management Analyst, Alexander Fung, at afung@eastvaleca.gov if you have any questions.

Respectfully,

Todd Rigby
Mayor
City of Eastvale

February 20, 2025

The Honorable Ken Calvert
United States House of Representatives
2205 Rayburn House Office Building
Washington, DC 20515

RE: SUPPORT FOR AN INDEPENDENT ZIP CODE FOR THE CITY OF EASTVALE

Dear Congressman Calvert,

The City of Eastvale is seeking your support to help Eastvale obtain an independent ZIP code for our residents and community stakeholders. Currently, the City has two ZIP Codes: 91752 which is shared with Jurupa Valley, and 92880 which is now designated as Eastvale. Our community has experienced rapid growth over the past 14 years and establishing an independent ZIP Code is vital to Eastvale's continued growth.

As you may know, the lack of an independent ZIP Code for Eastvale has led to many challenges, including emergency response activities, mail delivery issues, higher home insurance premiums, and confusion with voter registration and elections. Furthermore, not having an independent ZIP Code affects Eastvale's efforts to build a community identity.

Given that the lack of a unique ZIP Code impacts the quality of life of thousands, our residents deserve a solution to these problems. We have attempted to submit ZIP Code Boundary Reviews to the United States Postal Service without avail, despite both of our appeal attempts. Therefore, we would like to enlist your support during the 119th Congress in an effort to spearhead this cause.

We are grateful for your previous efforts in previous legislative sessions and look forward to continuing to work with your office to advocate for our residents and their well-being. Should you have any questions, please contact, Alexander Fung, Economic Development Manager, at afung@eastvaleca.gov.

Sincerely,

Michael McMinn

Village of ESTERO

May 16, 2025

The Honorable Congressman Byron Donalds
United States House of Representatives
1710 Longworth HOB
Washington, D.C. 20515

RE: Zip Code

Dear Congressman Donalds,

Since its incorporation in 2015, the Village of Estero has sought an independent town-wide zip code. Our Village of 50,000 residents currently has five zip codes that encompass different sections of the community: 33928, 33929, 33967, 34134, 34135.

These, as well as regional zip codes have resulted in various challenges for our residents as well as the residents of our neighboring cities and Lee County. They include voting access concerns from individuals being confused on where they need to go to cast their votes, wildly fluctuating insurance rates (especially automobile insurance rates), inaccurate census records that affect the Village's operating revenue sources (including funding intended to assist vulnerable populations like seniors), and accurate delivery of packages by USPS, Amazon, and others.

The purpose of this letter is to respectfully request your support on H.R. 672 before Congress, to finally move this issue forward and provide relief to our residents and businesses from the above-mentioned issues. We have been in communication with the Postal Service for years on this matter and have received multiple rejections to our request.

Thank you for your attention on this very important matter to the residents and businesses of the Village of Estero to adopt a consistent zip code.

Respectfully,

Joanne Ribble

Mayor

TOWN OF MIAMI LAKES
6601 Main Street
MIAMI LAKES, FL 33014
(305) 364-6100
WWW.miamilakes-fl.gov

MIAMI LAKES

February 26, 2025

The Honorable Mario Diaz-Balart
United States House of Representatives
374 Cannon House Office Building
Washington, D.C. 20515

Dear Congressman Diaz-Balart,

Since its incorporation in 2000, the Town of Miami Lakes has sought an independent town-wide zip code. Our town of 31,000 residents currently has three zip codes that encompass different sections of the community: 33014, 33016, and 33018. These combined zip codes serve a population of 385,541 across four municipalities, causing numerous issues throughout the region.

These existing regional zip codes have resulted in various challenges for my residents and the residents of our neighboring cities. They include voting access concerns from individuals being confused on where they need to go to cast their votes, wildly fluctuating insurance rates (especially automobile insurance rates), inaccurate census records that affect the Town's operating revenue sources (including funding intended to assist vulnerable populations like seniors), and accurate delivery of packages by USPS, Amazon, and others.

In the 2014 election, 85.42% of Miami Lakes voters expressed their desire to adopt an exclusive Town zip code. Over a decade later, this item has been discussed at numerous public meetings and Town support remains as fervent as ever.

The purpose of this letter is to respectfully request your support on H.R. 672 before Congress, to finally move this issue forward and provide relief to our residents from the above-mentioned issues. We have been in communication with the Postal Service for years on this matter and have received multiple rejections to our request, with the most recent one received in February 2024.

Thank you for your attention on this very important matter to the residents of Miami Lakes and Northwest Miami-Dade County generally.

Respectfully,

Josh Dieguez
Mayor

November 7, 2014

President Barack Obama
The White House
1600 Pennsylvania Ave NW
Washington, D.C. 20500

Dear President Obama,

Since its incorporation, the Town of Miami Lakes, Florida has sought an independent town-wide zip code. This issue has been championed for quite some time by our mutual friend and Miami Lakes resident former U. S. Senator Bob Graham. During the Nov 4, 2014 elections, 84.17 percent of Miami Lakes residents expressed their affirmative desire to adopt an exclusive zip code.

Our town of 31,000 residents currently has four zip codes that encompass different sections of the community: 33014, 33015, 33016, & 33018. These zip codes combined service a population of approximately 195,657, which has created many issues in Northwest Miami-Dade County.

On Monday, February 24th 2014, all the zip code issues were front and center during a meeting held at Hialeah City Hall. U.S. Congressman Mario Diaz-Balart, Hialeah Mayor Carlos Hernandez, and I met with regional United States Postal Service officials to present our case for the zip code boundary change. In Hialeah, the regional zip codes cause confusion during census counting and election time. We all know that an accurate census count makes an enormous difference during federal funding allocations for schools, senior centers, infrastructure projects, etc… In Miami Lakes, we see fluctuating automobile insurance rates in all four zip codes which encompass our town. Industry experts have opined that an independent town-wide zip code would decrease our residents' insurance premiums.

Office: (305) 364-6100 • Fax: (305) 558-8511
Website: www.miamilakes-fl.gov

Lastly, the purpose of my letter is to respectfully seek your assistance with this matter. The U. S. Constitution grants congress the authority to establish a postal service and the 1970 post office restructuring empowered the President to appoint the USPS board of governors, which then selects the Postmaster General. The people of my community have fought for an independent zip code for many years and a concrete game-plan to achieve this goal or simply receiving the cost of changing the boundaries would be a positive improvement with our efforts.

This issue is not a political one but rather about the people. I look forward to working together with you and if necessary, am willing and able to travel to Washington to meet with you or appropriate staff.

Thank you for your attention on this very important matter to the residents of Northwest Miami-Dade County.

Respectfully,

Manny Cid
Vice-Mayor
Town of Miami Lakes

Mayor
Wayne Slaton

October 15, 2013

Ms. Elizabeth Schaefer
Manager, Delivery Operations
475 L'Enfant Plaza RM7136
Washington, DC 20260-7142

Dear Deliver Manager Schaefer,

This letter serves as the official Town of Miami Lakes appeal to the August 8th, 2013 Zip Code Boundary Adjustment denial.

Our residents continue to pay potentially higher automobile insurance premiums through no fault of their own. An automobile insurance premium decrease is the primary reason why the Town is requesting our own Zip Code. The secondary reason is to assist our community with the ongoing branding efforts, which according to our Economic Development Committee and Chamber of Commerce will attract more business and help existing businesses grow.

The reason why a townwide zip code could lead to lower car insurance rates is due to the risk being calculated and spread over Miami Lakes only, rather than more densely-populated neighboring areas.

Our residents await your response, as this issue has transformed into a top priority in our community.

Sincerely,

Wayne Slaton

January 7, 2013

Mr. Orlando De La Osa
Hialeah Postmaster
235 East 1st Avenue
Hialeah, FL 33010-9998

Dear Mr. De La Osa:

On behalf of the residents of The Town of Miami Lakes, I am respectfully requesting you to initiate the Zip Code Boundary Review Process and grant U.S .Post Office recognition to the Town of Miami Lakes, which incorporated in December 5, 2000. To date, the Town is still not officially designated with its own zip codes. Attached for your edification is a Town Boundary map with an overlay of the current zip codes.

Our community is requesting a Zip Code change, not only to put an end to community identity concerns, but it has real and tangible financial implications for our residents such as lower our residents' automobile insurance rates and periodically mail gets returned because it indicates Miami Lakes as a municipality and your system associates the zip codes with Hialeah.

I understand that zip codes were created for the sole purpose of moving and delivering the mail in the most efficient and cost effective manner, and in the past, there has been a specific physical office associated with each office, however, we are not requesting a physical location within Miami Lakes.

I want to commend you for the great work your office does and for you time and consideration to this very important matter. I welcome whatever actions you deem necessary to correct our current problem, and will be happy to meet with you to move this item forward.

Sincerely,

Michael Pizzi
Mayor

CITY OF MILLS
EST. 1921

Dear USPS District Manager Douglas S. Smith, February 10, 2025

On behalf of the residents of Mills I am requesting your assistance in resolving a long-standing issue with our zip code. Through this letter, please find our formal submission requesting that the city of Mills be assigned with its own separate and unique zip code.

The city of Mills is designated the zip code of 82604 which is also identified to the city of Casper and Alcova. More than half of the City of Mills, including city hall, cannot receive mail delivery and must maintain a post office box with a zip code of 82644.

I have highlighted some of the delivery issues below and included some notes from our residents and the local postmaster.

Most importantly, to the City of Mills is our municipal boundary. Referring to the 2016 management instruction, which suggest that delivery reflect that of the actual municipal boundaries. As it stands our delivery boundary has merged with two neighboring cities forcing half of our residents to utilize a post office box and the rest to receive home delivery. Attached is a letter from the Mills post master highlighting their ongoing delivery issues with the system in place. It is truly a guessing game as to how our mail will be delivered and how to address it. As you can see by the letter, the suggestion is made to attach the numerical number assigned to the box so that staff can sort in house the box it should be delivered. This only works if the website form allows for numerical numbers in a traditional alphanumeric box form. Meaning John Smith can not be John Smith 1234 as 1234 is not a letter in the alphabet and not recognized by the websites. Additionally, the data provided to these outside shipping companies by the postal service would not have John Smith 1234 as a recognized name and address within the city as a deliverable address. And thus, it would be rejected as an actual address. A lot of these outside companies cannot recognize a post office box as a deliverable address as they don't subscribe to deliver mail to postal boxes. You can see how selling the postal data to these companies is another layer of the ongoing issues.

Recently we discovered that an area of our city was not receiving franchise fees from Rocky Mountain power. This was directly related to the zip code issue. We have also started to bill ambulance medical services in house and immediately discovered the issues created by having shared zip codes. Most all companies match their addresses to the USPS. However, half of our residents have postal boxes and cannot receive physical mail or packages to their home. This means our medical billing converts to Casper with the 82604 zip code. FedEx and UPS also match to the system which creates constant frustrations between the post office and residents when packages arrive in the wrong location or are denied delivery.

We want to be clear that we are not pursuing full mail delivery to every home in Mills. We ONLY want to assign Mills boundaries a unique zip code. Unless you feel that our resolution would be to provide full delivery to the city. We would accept a unique zip code separate from 82644 (assigned to our current post office) as one identified by the Casper USPS delivery service, which maintains separation of delivery versus postal box requirements. However, our main goal is to identify Mills separately from any other city or town by establishing a unique zip code.

Thank you for your support in this difficult and long-established goal.

Mayor Leah Juarez
704 4th St. - PO Box 789
Mills, Wyoming 82604
307.234.6679
mayor@millswy.gov

Notes from Residents:

The zip code issue is a huge pain! Every time I need a package delivered to my home address; my address gets declined by the business because it doesn't exist in the postal mapping system. I have to fight to get the correct address to be used, often times having to having to contact the company directly.

I have experienced issues when filling out applications for credit cards or loans. My physical address is not recognized because I must use a post office box.

Sheri Bumgardner, City of Mills resident

We just moved to Mills in November 2023 and we have the most trouble when ordering things online through google, amazon, etc. They always correct our zip code to 82604 from 82644 and then the post office won't deliver our packages. We must go into the Casper office to pick them up.

Jamie Ruehlen, City of Mills resident

I live in Mills so my zip is 82644, but my address does not exist in a Google or gps search unless I use 82604. I have had many deliveries late, lots of lost drivers, and have had to fight with post office because half the time if I put my address with the proper zip code, they can't find me so it goes to the post office, which then gets mad because there is no P.O. box number on the package.

Destiny Shoefelt, City of Mills resident

We have had issue with some businesses saying my street address isn't deliverable, but they won't allow a PO box for shipping. My mom who lives down the road has the same issues. She gets critical medical supplies via delivery. It's inconsistent where they come to the house or PO box. She can't drive, and cannot get to the Casper office to retrieve her medical supplies when it is refused delivery. She recently tried to order furniture online and had to cancel the order because the delivery company could not verify it was an actual home.

Darcie Gudger, City of Mills resident

I have had multiple problems with effectively having two different addresses and zip codes. There are numerous companies (most notably ones dealing with financial matters) that flat out will not accept a PO box at all even for mailing only purposes due to the "ease of identity theft". I was told by a postal worker to type my street address into the PO box space for the deliveries and box number at the end. When I told them that isn't where I live, I was told it's because your address does not exist in our mapping system. A lot of companies won't accept a PO box for shipping addresses and when I try inputting my actual physical address it doesn't pass their built in security checks.

Kathy Bruemmer, City of Mills resident

When completing the paperwork for my conceal carry permit I had to receive my permit to my physical address. Unfortunately, I cannot receive USPS mail to my home in Mills and I am forced to use a PO box. Which created an issue at the DMV because they need a physical address to assign to the permit itself. When we tried to use the address, it did not recognize the 82604 zip code because it was assigned to Casper and not Mills.

Kyle Hasmuk, City of Mills resident

We have no option but to use a PO box, as we do not get mail delivered to our home. A couple of weeks ago I walked into the Mills Post Office after 9pm and noticed five Amazon packages addressed to the post office, followed by box numbers for different residents. These packages were delivered by an Amazon Flex driver. I called the police department and asked them to keep them safe over the weekend, and then returned to the post office on Monday morning only to find that the post office "hoped" the packages were gathered up and delivered accordingly. A large number of us Mills residents simply do not have an option but to use the post office, as our zip code assignment is convoluted. Until Mills has its own zip code, the residents will continue to pay the price for neglectful delivery drivers, and will keep experiencing frustration surrounding their mailing address.

Kala McWain, City of Mills resident

CITY OF MILLS
EST. 1921

To whom it may concern,

I am submitting my letter of support on behalf of the residents and municipality of the City of Mills. We are requesting a new unique zip code be applied to our municipal boundary to address the substantial, long standing, and ongoing mail delivery issues. Please consider this letter as the documentation letter of support from the top local government official.

Mayor Leah Juarez
704 4th St. - PO Box 789
Mills, Wyoming 82604

mayor@millswy.gov

CITY OF MILLS
EST. 1921

May 21, 2025

Dear Congresswoman Hageman,

I am writing on behalf of the residents of the City of Mills to express our appreciation for co-sponsoring H.R. 672, which seeks to establish unique ZIP Codes for 14 communities across the country. This legislation represents a significant step forward in addressing a long-standing issue that has caused unnecessary complications for municipalities like ours.

The City of Mills currently shares the ZIP Code 82604 with neighboring Casper and Alcova, a situation that has created persistent challenges for our residents and municipal operations. More than half of Mills, including City Hall, is unable to receive mail delivery and must rely on post office boxes assigned to the ZIP Code 82644.

This misalignment has had far-reaching consequences, including:

1. Operational Disruptions: The overlap in delivery boundaries has caused confusion and inefficiencies for residents and businesses. Residents often face issues with undeliverable mail and packages due to address recognition problems.

2. Economic Impact: We identified that certain areas of Mills were excluded from receiving franchise fees from utility companies due to the zip code overlap. In addition, our new in-house Mills ambulance medical billing system has encountered difficulties because many residents cannot receive physical mail at the homes of the emergency response.

3. Community Identity: Sharing a zip code with multiple municipalities undermines our community's ability to accurately collect tax revenues.

H.R. 672 provides a long-awaited opportunity to address these challenges by requiring the U.S. Postal Service to assign unique zip codes to the affected communities. The residents of Mills strongly support this effort and appreciate the leadership it represents in resolving a local issue that has been overlooked for far too long.

I, along with the residents of Mills, thank you for your support of H.R. 672 and strongly advocate for its swift passage. Implementing this bill would not only address the longstanding challenges faced by Mills, but also ensures that other affected communities across the nation receive equitable and efficient postal services.

Thank you again for your attention to this critical matter. Please feel free to reach out if I can provide additional information or assistance in advancing this legislation.

Sincerely,

Mayor Leah Juarez
City of Mills 704 Fourth St. - PO Box 789
Mills, Wyoming 82604
307.234.6679
mayor@millswy.gov

CITY OF MILLS
EST. 1921

Representative Hageman,

On behalf of the residents of Mills I am requesting your assistance in resolving a long-standing issue with our Zip code. I am asking for your help is assigning Mills with its own separate and unique zip code.

The city of Mills is designated the zip code of 82604 which is also designated to the city of Casper. More than half of the city, including city hall, cannot receive mail delivery and must maintain a post office box with a zip code of 82644.

I have highlighted some of the issues below. We have tried many other avenues to resolve this issue and come up short. Including the post office and the regional director.

Most importantly, to the City of Mills is our property tax revenues. We are taking a deep dive into this issue as it is an extensive project. This is a long and burdensome process that is spanning many months. However, at first glance of the final map we quickly realized some properties were not assigned to Mills. We believe this is due to the confusion of Casper and Mills sharing the same zip code. More so, we are confident that property taxes are not being properly attributed to the City of Mills.

We are confident that during the census an influential portion of our residents were applied to the incorrect city due to the overlap of 82604 between Casper and Mills. Which in turn affects our portions of state and federal funds as it is tied to the number of residents. We know this census count is incorrect based on existing homes, water usage and new homes.

Recently we discovered that an area of our city was not receiving franchise fees from Rocky Mountain power. This was directly related to the zip code issue. We have included a letter from Mike Morrissey.

We have started to bill ambulance medical services in house and immediately discovered the issues created by having shared zip codes. As noted by our Chief in the letter enclosed. Most all companies match their addresses to the USPS. However, half of our residents have postal boxes and cannot receive physical mail to their home. Meaning our medical billing wants to convert to Casper with the 82604 zip code.

CITY OF MILLS
EST. 1921

Fedex and UPS also match to the system which creates constant frustrations between the post office and residents when packages arrive in the wrong location or are denied delivery.

The postal service will claim that this will cause their expenses to rise and will attempt to deny the efforts. We want to be clear that we are not pursuing full mail delivery to every home in Mills. We ONLY want to assign Mills boundaries a unique zip code. Casper service center is our delivery service providing delivery service to a small portion of our residents. They may claim that 82604 identifies the delivery service assigned to the Casper center. We would accept a unique zip code separate from 82644 (assigned to our current post office) as one identified by the Casper USPS delivery service which maintains separation of delivery versus postal box requirements. However, our main goal is to identify Mills separately from any other city or town using 82604.

Thank you for your support in this difficult and long-established goal.

Mayor Leah Juarez

Mills, WY
Zip Code

ROCKY MOUNTAIN POWER.
A DIVISION OF PACIFICORP

2840 E Yellowstone HWY
Casper, WY 82601

December 1, 2023

US Postal Service

To Whom This May Concern:

Rocky Mountain Power has experienced difficulty assigning addresses to the City of Mills, Wyoming for our utility reimbursement to the City of Mills requirements. Many mailing addresses within the zip codes: 82604 and 82644 are not listing showing in Mills, Wyoming, for what we think are the following reasons.

1 – Addresses within the boundary of the City of Mills are sometimes listed as Casper, Wyoming.

2 – Zip codes in the city limits are not consistent.

Possible solution would be to have all Mills, Wyoming addresses be assigned only one zip code. Can you help resolve these issues?

Respectfully,

Mike Morrissey

January 21, 2024

Mayor Juarez,

This last week, on January 15th, 2024, I was on a Zoom meeting with Zoll billing, as we switch to a new EMS billing company. Part of Zoll's billing program uses USPS verification to verify addresses. One thing I noticed is that when my crew enters a physical address for the patient pick-up location, from within the city of Mills, the USPS postal verification is changing the zip code from 82604 to 82644. I have taught my crews that all physical addresses in Mills are 82604 and all PO Boxes are 82644. When the billing system changes this zip code, our biller will have to manually go back in and change it, as well as become hyper vigilant in checking every invoice she creates. This will ultimately become time consuming for the biller.

While I have not personally experienced this, I am aware of instances where packages have been attempted to be delivered to a resident's home address, with a cluster box, and with the confusion in zip codes, residents are required to drive to the post office in Casper to pick them up instead of being able to pick them up at the Mills post office.

In my opinion, if the City of Mills had just one zip code, the following changes could benefit the city:

1. All our residents and businesses will know that they reside within the city limits of Mills, which could become relevant in elections, fire inspections and business licenses.
2. It will become easier for businesses, such as Rocky Mountain Power, to apply franchise fees more easily and fairly to the city's credit.
3. The Natrona County Treasurer's office will be able to more fairly apply tax revenue that is due to the City of Mills.

Respectfully,

Wil Gay

Selwyn D. Epperson
District Manager
Colorado/Wyoming
7500 East 53rd Place,
Rm 1131
Denver, CO 80266-9998

Dear Selwyn D. Epperson,

The City of Mills, Wyoming is seeking your assistance in adjusting our ZIP Code boundaries to align with our municipal boundaries. The City of Mills, a Wyoming First Class City, became a town on May 10, 1921 and grew to city status as certified by Wyoming Governor Mark Gordon on August 4, 2020. There have been a few annexations since the City of Mills was established in 1921 as the city has now grown to approximately 4,300 residents. The City of Mills post office ZIP Code is 82644, however, the only location for which that is the case is the physical location of the post office which is located at 526 SW Wyoming Blvd, Mills, Wyoming 82644.

The Mills post office has historically not offered delivery service. Any delivery service within the Mills municipal boundary is delivered from the Casper post office located at 411 N. Forest Dr. Casper, WY 82609. There are some neighborhoods within Mills which have Cluster Box Units delivered by Casper. The residents who have these boxes are sometimes unaware they even live within the City of Mills jurisdiction due to their address being a Casper address. Moreover, those residents' ZIP Code is 82604, a different Casper ZIP Code.

This request is not based solely on identity but also considers jurisdictional issues. The residents who believe they are Casper residents will undoubtedly attend a City of Casper council meeting or contact the Casper city offices if an issue arises as they believe they live in Casper. If they are more aware of their jurisdictional boundary, issues can be resolved more efficiently.

Another issue for residents and businesses is the very difficult and frustrating process to order online packages due to the method of delivery that could be used. Most websites do not advertise the way a package will be delivered which means with a difference in physical and mailing addresses, one for the Mills ZIP Code of 82644 or one for a Casper ZIP Code of 82604 is a gamble if the package will be returned to sender. USPS will only deliver to a post

CITY OF MILLS
EST. 1921

704 Fourth Street
P.O. Box 789
Mills, WY 82644

Phone: 307-234-6679
Fax: 307-234-6528

office, not an address with no physical delivery while UPS and FedEx don't typically deliver to the post office. As an example, Mills City Hall physical address is 704 Fourth St. Mills, WY 82604. However, the mailing address is PO Box 789, Mills, WY 82644. Packages are often returned to sender over this which is the case with many of our resident and businesses within Mills. If packages are not returned, there are often notes that that person must go to 411 N. Forest Dr. in Casper to pick up a package.

The City of Mills has had numerous issues with the lack of a consistent ZIP Code. The Mills Fire Department has reached out in the past regarding first responder matters such as physical locations not labeled as Mills, missed dispatch center addresses along with utility companies not having addresses listed within their databases.

The City of Mills has lost revenue over the years due to utility companies listing the 82604 address as Casper for Mills residents. This has sent the Mills revenue to Casper and Natrona County as Natrona County also uses the 82604 ZIP Code. This misrepresentation has caused Mills to pay municipal expenses for well more than the amount of revenue the city is receiving through water, sewer and road maintenance. City of Mills staff has been working on correcting all revenue stream addressing for the past several years to ensure the public infrastructure is funded appropriately. This has been a laborious task to say the least.

The City of Mills recognizes this is partially a community identity concern as defined by the USPS but is also a tax remittance and utility remittance concern. This also causes election locations to be confused by those residing within the Mills municipal boundaries.

The City of Mills is requesting the 82644 ZIP Code be expanded to all residential homes and commercial/businesses within the Mills municipal boundaries. We are not requesting to begin delivery out of the Mills post office but rather for residents and businesses to be able to have a postal box within the Mills post office and identify with the Mills, Wyoming 82644 city and ZIP Code.

Please feel free to contact me with any questions. 307-234-6679 or mayor@millswy.gov.

Sincerely,

Leah Juarez
City of Mills Mayor

RESOLUTION NO. 2025-17

A RESOLUTION EXPRESSING SUPPORT FOR THE DESIGNATION OF A UNIQUE ZIP CODE FOR THE CITY OF MILLS

WHEREAS, the United States Postal Service (USPS) plays a vital role in ensuring reliable mail delivery, facilitating commerce, and providing essential services to residents of Mills, Wyoming, and across the nation; and

WHEREAS, the City of Mills currently shares the 82604 ZIP Code with neighboring municipalities, leading to challenges such as misdirected mail, confusion in service delivery, and complications in demographic and economic data collection; and

WHEREAS, Representative Bobert of Colorado introduced H.R. 3095 To direct the United States Postal Service to designate single, unique ZIP Codes for 72 communities, and for other purposes. Co- Sponsored by Representative Hageman of Wyoming; and

WHEREAS, the City of Mills recognizes the national zip code coalition where 72 other communities have joined together to address zip code issues and experience similar lack of resolve with the USPS; and

WHEREAS, the lack of an independent ZIP code for Mills has led to long standing mail delivery issues, which impact legal notices, code enforcement activities, and public outreach efforts. Additionally, having an address that is improperly associated with another jurisdiction has led to taxes distributed to the incorrect city. The lack of an independent ZIP code also causes confusion with voter registration and elections, and interferes with emergency response and public safety activities; and

WHEREAS, the City of Mills has twice petitioned the USPS for a unique ZIP Code designation and has not been successful; and

WHEREAS, the City of Mills requests the assistance of Congress to designate unique zip codes to these more than 72 communities and direct the USPS to resolve this long standing matter,

NOW, THEREFORE, BE IT RESOLVED by the Mayor and City Council of Mills, Wyoming:

PASSED, APPROVED, AND ADOPTED this 13 day of May, 2025.

CITY OF MILLS, WYOMING

Leah Juarez, Mayor

Washington DC 20260-0010

Dear Postmaster General,

The City of Ocoee corresponded and met with the United States Postal Office from 2009 to 2013 regarding changing the ZIP Code of the Rose Hill Subdivision Phases 2 & 3 from Orlando 32818 to Ocoee 34761. This was due to the annexation of phases 2 & 3 of the subdivision in 2009 from unincorporated Orange County to the City of Ocoee.

After much review, correspondence, and meetings, the USPS made the decision to ultimately deny the request and subsequent appeal. It was noted during this process that it is USPS policy to conduct ZIP Code reviews once every 10 years. Regarding Ocoee specifically, the USPS noted it would monitor the City's growth and development of undeveloped land that would add increased postal deliveries. The US Census shows the City of Ocoee's population increasing from 35,579 in 2010 to 47,295 in 2020. Additionally, the City has added over 5,000 new addresses since 2011.

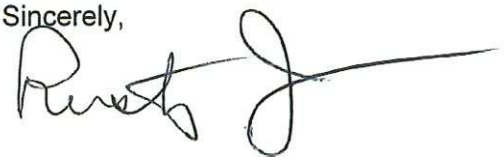
The City of Ocoee's citizens are currently being serviced by (6) USPS ZIP Codes. This includes (1) Ocoee City Identification and 34761 ZIP Code. The other City Identifications and ZIP Codes assigned to citizens are: Apopka 32703, Orlando 32818, Gotha 34734, Windermere 34786, and Winter Garden 34787.

Affected Ocoee citizens continue to encounter difficulties as a result of not having Ocoee 34761 as the City Identification and ZIP Code. Examples of these difficulties include higher automobile and home insurance rates and issues with accessing municipal services due to a non-Ocoee address on IDs.

Please accept this letter and enclosed reference map as a formal request for the USPS to review the City of Ocoee's ZIP Code boundaries in relation to the City's boundaries and make changes to ensure all properties within the City limits are assigned the Postal City and ZIP Code Ocoee 34761.

If you require any additional information or have any questions regarding this request, please reach out to City Manager Craig Shadrix via email at Craig.Shadrix@ocoee.org or by phone at 407-554-6434.

Sincerely,



Rusty Johnson, Mayor
City of Ocoee

CC: Senator Marco Rubio, US Senate

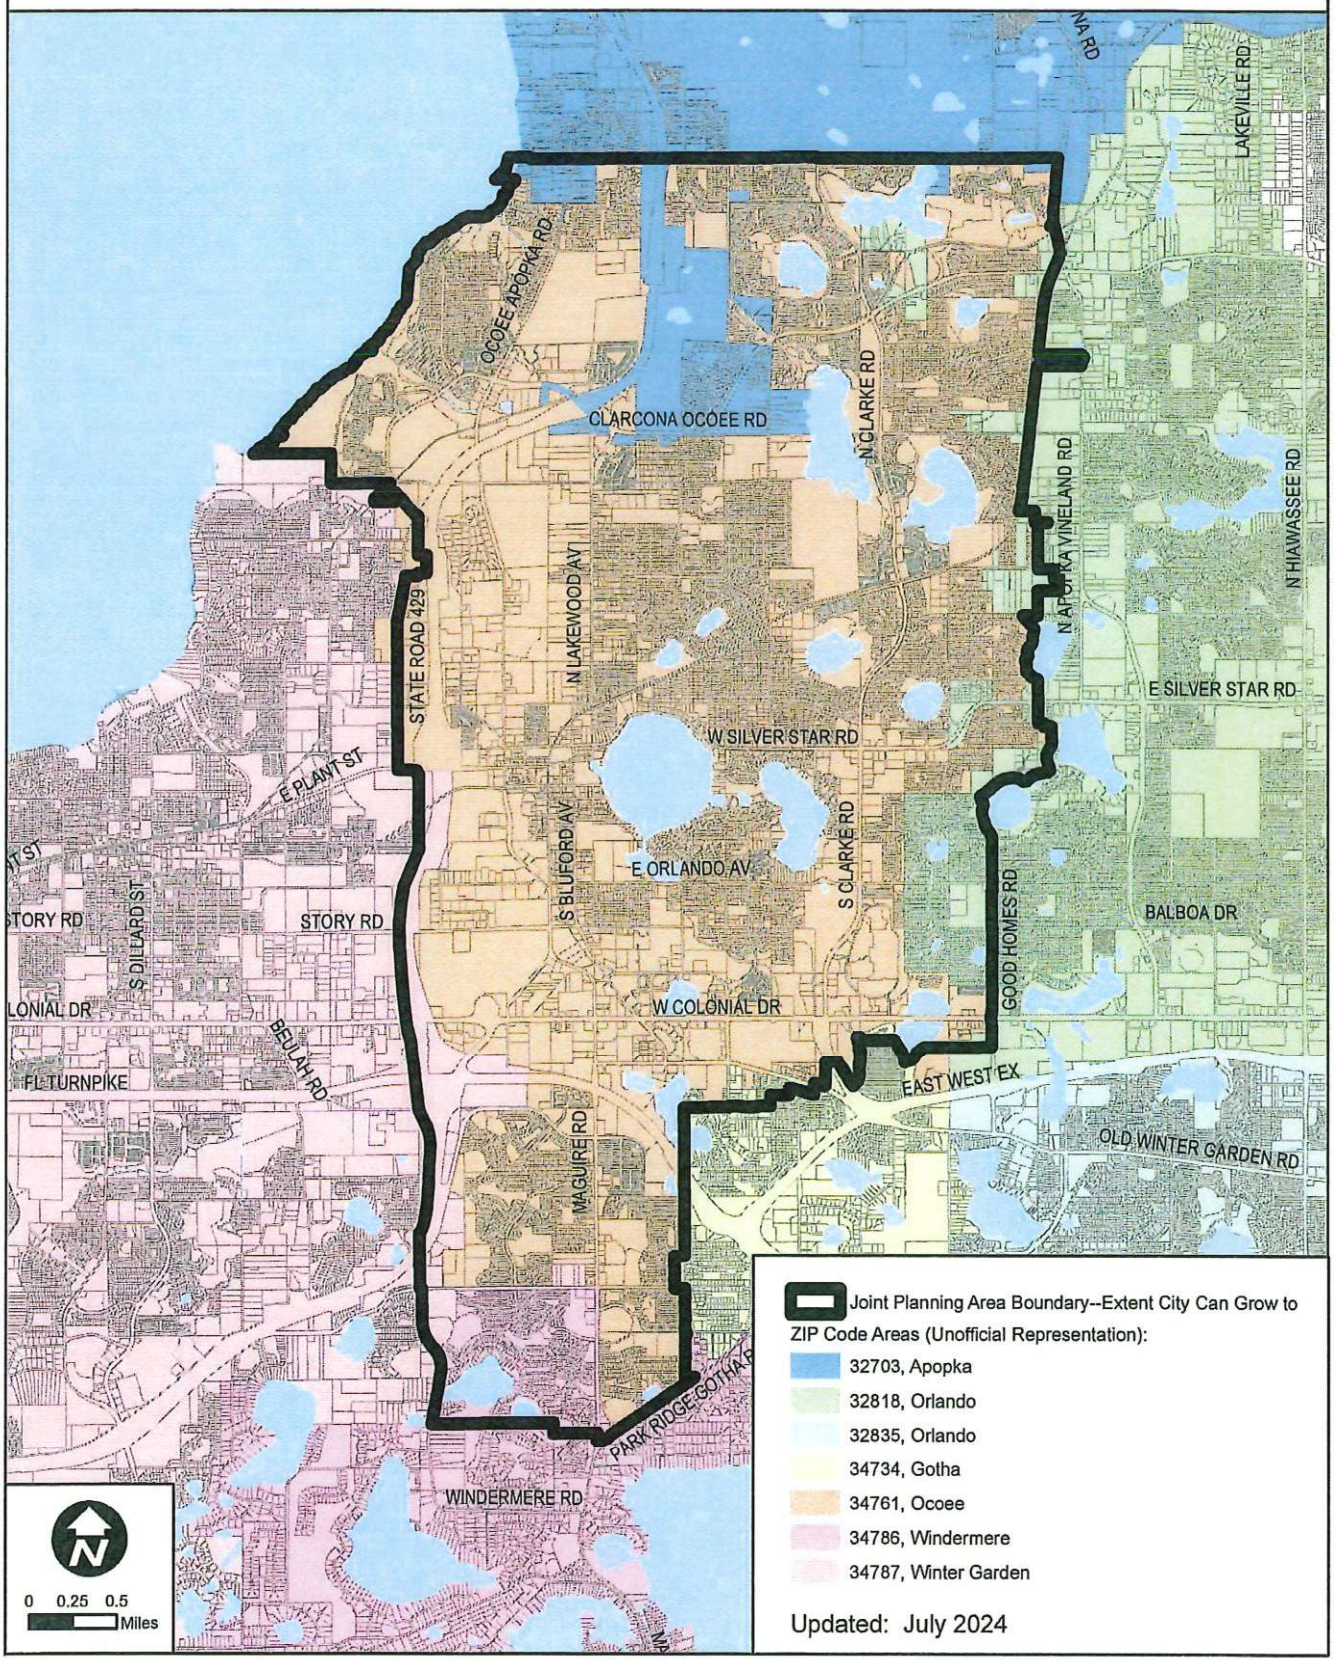
Map 2: Composite Map of City and Non-City Zip Codes within Ocoee City Limits



February 21, 2025

Congressman Daniel Webster, US House of Representatives
Washington, D.C. Office
2184 Rayburn HOB
Washington, DC 20515

Dear Congressman Webster,

In 2009, the City of Ocoee City Commission unanimously authorized City staff to corresponded and meet with the United States Postal Office from 2009 to 2013 regarding changing the ZIP Code of the Rose Hill Subdivision Phases 2 & 3 from Orlando 32818 to Ocoee 34761. This was due to the annexation of phases 2 & 3 of the subdivision in 2009 from unincorporated Orange County to the City of Ocoee.

After much review, correspondence, and meetings, the USPS made the decision to ultimately deny the request and subsequent appeal. It was noted during this process that it is USPS policy to conduct ZIP Code reviews once every 10 years. Regarding Ocoee specifically, the USPS noted it would monitor the City's growth and development of undeveloped land that would add increased postal deliveries. The US Census shows the City of Ocoee's population increasing from 35,579 in 2010 to 51,000 in 2024. Additionally, the city has added over 5,000 new addresses since 2011.

Ocoee's citizens are currently being serviced by (6) USPS ZIP Codes. This includes (1) Ocoee City Identification with the 34761 ZIP Code. The other City Identifications and ZIP Codes assigned to citizens are: Apopka 32703, Orlando 32818, Gotha 34734, Windermere 34786, and Winter Garden 34787. City of Ocoee Citizens are impacted financially, and many new residents are confused with which City they reside in. The financial impacts primarily stem from auto and homeowners' insurance. Residents in the Orlando 32818 zip code, located on the east side, pay 20% more for insurance than those in the Ocoee 34761 area. Additionally, taxes like Communication, Gas, and Franchise revenues are lost due to zip code discrepancies. Furthermore, residents with a different city identifier face challenges when trying to participate in City programs, as they are required to provide an ID or a water bill. Many of these residents are served by Orange County for water, so they are unable to supply a bill.

Again, in 2024, the City Commission unanimously authorized staff to reach out to the USPS and a letter was sent on September 3, 2024, requesting a boundary review process. To date, the USPS has not provided a response to the letter. Your office was copied with that letter.

Please accept this letter and documentation enclosed as a formal request for the USPS to review the City of Ocoee's ZIP Code boundaries in relation to the City's boundaries and make changes to ensure all properties within the City limits are assigned to the Postal City and ZIP Code Ocoee 34761.

If you require any additional information or have any questions regarding this request, please reach out to City Manager Craig Shadrix via email at Craig.Shadrix@ocoee.org or by phone at 407-554-6434.

Sincerely,

Michael Rumer, MPA
Assistant City Manager, City of Ocoee

Town Of Scotland

First Selectman's Office

9 Devotion Road – PO Box 288
Scotland, Connecticut 06264
Telephone: (860) 423-9634

February 20, 2025

Chairman James Comer
House Committee on Oversight and Government Reform
2157 Rayburn House Office Building
Washington, DC 20515

Ranking Member Gerald Connolly
House Committee on Oversight and Government Reform
2106 Rayburn House Office Building
Washington, DC 20515

Dear Chairman Comer and Ranking Member Connolly,

As the First Selectman of Scotland, Connecticut, I write to the House Committee on Oversight and Government Reform in support of legislation that will designate a single, unique ZIP Code for our town, including through Rep. Mario Diaz Balart's H.R. 672 which is also supported by our town's representative in the US House, Congressman Joe Courtney.

The 625 residences of Scotland, Connecticut, receive their mail from six post offices: Hampton 06247, Windham Center 06280, Baltic 06330, Canterbury 06331, North Windham 06256, and Scotland 06264. Most of the residents who receive mail in Scotland 06264 do so at PO Boxes; approximately 20 homes are served by a STAR route. Everyone else in town, the vast majority, receives mail through a post office that has no geopolitical relationship to the town in which they live.

Due to the town's ZIP Code configuration, Scotland residents face daily frustration with packages being misdelivered, service providers being unable to find their properties, and digital ordering or registration systems refusing to accept their address information. But the issue goes beyond inconvenience. People have paid taxes to the wrong town and sent their children to the wrong schools. Town party committees and voluntary associations cannot effectively reach residents by mail. Public health statistics seriously understate the burden of disease in our town, and other survey data also misrepresent us. A high percentage of absentee ballot applications that we were required by law to send out during the pandemic were returned—not because the people weren't in town, but because the USPS computer scanning system rejected their addresses. The situation is clearly damaging to us individually and as a community.

Last Congress, ZIP Code designation legislation was favorably reported by your committee unanimously before it was approved by the full House in December 2024. Although that legislation did not move in the Senate, the people of Scotland still face a serious problem under their confusing ZIP Code system and are still in need of a solution. We believe a legislative solution is necessary. Under the leadership of former First Selectman Gary Greenberg, a boundary review request was submitted to the United States Postal Service which was then denied on August 24th, 2020. First Selectman Greenberg additionally submitted an appeal to the denial which to his knowledge went unanswered.

Our town looks forward to legislation designating a unique ZIP Code for Scotland, Connecticut, gaining consideration in the new Congress. I remain available to answer any questions your committee might have about the postal issues Scotland continues to face.

Respectfully,

Dana Barrows, Jr
First Selectman

Congress of the United States
Washington, DC 20515

May 30, 2024

Postmaster General Louis DeJoy
United States Postal Service
475 L'Enfant Plaza SW
Washington, DC 20260

Dear Postmaster General DeJoy,

I write today to draw further attention to the ZIP Code Boundary Review submitted by the City of Urbandale, Iowa and raise my concern, and frustration, with the determination arrived at by USPS, as communicated to Mayor Robert D. Andeweg in letters from USPS dated April 24, 2024 and April 26, 2024.

Throughout the ZIP Code Boundary Review process, USPS has repeatedly failed to provide detailed, consistent, and substantive answers to questions from my office. Given the lack of previous communication, I urge you to devote the necessary attention to this matter to resolve the concerns of local leaders and postal customers, which are fully explained in the city's ZIP Code Boundary Review request.

The city has proactively engaged in conversations with USPS staff for multiple years in an effort to explain the ongoing problems postal customers are facing. These conversations have not resulted in improved service or resolved this situation. Unfortunately, the determination made by USPS upon conclusion of the ZIP Code Boundary Review also fails to address the concerns of local leaders and postal customers. Most concerning is USPS' refusal to agree to the ZIP Code boundary change requested for Exhibit A, Area C. The current use of Preferred Last Line (PLL) in this area has resulted in delayed, held, and misdirected mail. These are not one-time problems, but continue to recur and are only expected to grow worse as the area is a focus point for new development in the city.

For USPS to state "no further consideration will be given for a boundary extension" in this area because PLL is already in use, completely disregards the documented problems that currently exist. Exhibit A, Area C has one postal customer and that customer submitted a letter of support for the ZIP Code boundary change requested by the city. Additionally, the City of Johnston, Iowa, for which Exhibit A, Area C is currently assigned ZIP Code Johnston 50131, submitted a letter expressing their support for the area to be assigned the ZIP Code Urbandale 50322.
As you know, the appeal of a ZIP Code Boundary Review must be filed no later than 45 days from receipt of USPS' initial determination. In order for the city to have the necessary

information to decide to appeal or not, please provide detailed written answers to the following questions by June 3, 2024.

- Which USPS Processing & Distribution Center (P&DC) serves the following ZIP Codes?
    - Urbandale, IA 50322, Urbandale, IA 50323, Johnston, IA 50131, Grimes, IA 50111, Waukee, IA 50263
- When a District Manager completes a ZIP Code Boundary Review that involves multiple ZIP Codes across multiple municipalities, with distinct requests submitted for review, can the District Manager's decision be partially appealed (by geographic area) or must the entire decision be appealed?
- Provide the quantified impacts of Attachment C for this ZIP Code Boundary Review as required to be conducted by USPS policy.[1]
- Provide the specific reasons for the District Manager's denial of the changes requested by the city, as is required to be advised to the proponent in writing by USPS policy.[2]
    - The general statement of denial communicated to Mayor Robert D. Andeweg in letters from USPS dated April 24, 2024 and April 26, 2024 lack detailed information and are not specific, thus suppressing the city's ability to exercise its right to submit a knowledgeable appeal.
- Since the year 2000, how many ZIP Code Boundary Reviews has USPS conducted?
- Of the ZIP Code Boundary Reviews conducted since 2000, in how many reviews did USPS concur with the requesting proponent's position in full? In how many reviews did USPS concur in part? In how many reviews did USPS disagree with the requesting proponent's position?
- Since the year 2000, how many appeals of ZIP Code Boundary Reviews have been conducted by the USPS Manager, Rural Delivery?
- Of the appeals of ZIP Code Boundary Reviews conducted since 2000, in how many appeals did the USPS Manager, Rural Delivery concur with the requesting proponent's position in full? In how many reviews did the USPS Manager, Rural Delivery concur in part? In how many reviews did the USPS Manager, Rural Delivery disagree with the requesting proponent's position?

I request that you send your answers to these questions to my office directly.

Sincerely,

Joni K. Ernst
United States Senator

Zach Nunn
Member of Congress

GOVERNMENT RELATIONS

UNITED STATES POSTAL SERVICE

September 20, 2024

The Honorable Joni K. Ernst
United States Senate
Washington, DC 20510-1503

The Honorable Zach Nunn
House of Representatives
Washington, DC 20515-1503

Dear Senator Ernst and Congressman Nunn:

This responds to your letter to Postmaster General Louis DeJoy, regarding a ZIP Code Boundary Review for the City of Urbandale.

I understand your continued interest in assisting Urbandale customers with this issue. As mentioned in previous correspondence with your offices, the U.S. Postal Service's ZIP Code Boundary Review process entails a careful analysis of the cost and service implications of the proposed changes, and a determination depends on whether the proposed revision will improve the Postal Service's operations. In response to the review request submitted by Urbandale leaders on January 25, the Postal Service provided a determination, communicated in letters dated April 24 and April 26, that granted a significant portion of the city's requests.

Rural Delivery officials at postal headquarters are currently reviewing an appeal of the determination, specifically regarding the requests that were not granted, and try to make every effort to respond within the standard 60-day timeframe. However, Rural Delivery officials only recently began reviewing the appeal documentation because of an administrative error in logging and assigning the materials, and the review is particularly complex because Urbandale leaders are disputing only some of the decisions in the original determination. These unusual circumstances may extend the review time.

Answers to your specific questions are as follows:

- **Which USPS Processing & Distribution Center (P&DC) serves the following ZIP Codes? Urbandale, IA 50322, Urbandale, IA 50323, Johnston, IA 50131, Grimes, IA 50111, Waukee, IA 50263.**

  The Des Moines P&DC serves all the ZIP Codes listed.

- **When a District Manager completes a ZIP Code Boundary Review that involves multiple ZIP Codes across multiple municipalities, with distinct requests submitted for review, can the District Manager's decision be partially appealed (by geographic area) or must the entire decision be appealed?**

  Appeals are for the entire decision, though the proponent may articulate in detail the issues with the decision.

- **Provide the quantified impacts of Attachment C for this ZIP Code Boundary Review as required to be conducted by USPS policy.**

475 L'ENFANT PLAZA SW ROOM 10804
WASHINGTON DC 20260-3500
WWW.USPS.COM

It is Postal Service policy for the district to determine quantified impacts to assist in making decisions and to use in event of appeal, but this information is for internal use only due to proprietary and commercially sensitive costs embedded in the analysis.

- **Provide the specific reasons for the District Manager's denial of the changes requested by the city, as is required to be advised to the proponent in writing by USPS policy. The general statement of denial communicated to Mayor Robert D. Andeweg in letters from USPS dated April 24, 2024 and April 26, 2024 lack detailed information and are not specific, thus suppressing the city's ability to exercise its right to submit a knowledgeable appeal.**

  The denials of certain small portions of the city's requests are based primarily on two determinations. First, the Ash Creek facility does not have room to accept more carriers, and such investment would be premature given that immediate projected growth could lead to further need to invest in a new facility with associated costs. Moreover, the changes would entail special inspection costs for reworked routes and manual labor at the P&DC to get mail addressed with incorrect ZIP Codes to the correct offices. These determinations are based on guidance from the *Postal Operations Manual* that long-range ZIP Code planning (at least 10-year, and preferably 20-year, projections) must be completed to determine availability of ZIP Codes for future mail processing and delivery needs.

- **Since the year 2000, how many ZIP Code Boundary Reviews has USPS conducted?**

  The Postal Service is unable to locate readily available information that would aid in responding to this request.

- **Of the ZIP Code Boundary Reviews conducted since 2000, in how many reviews did USPS concur with the requesting proponent's position in full? In how many reviews did USPS concur in part? In how many reviews did USPS disagree with the requesting proponent's position?**

  The Postal Service is unable to locate readily available information that would aid in responding to this request.

- **Since the year 2000, how many appeals of ZIP Code Boundary Reviews have been conducted by the USPS Manager, Rural Delivery?**

  Headquarters officials have logged around 200 appeals since March 2009, the earliest year for which this information is available.

- **Of the appeals of ZIP Code Boundary Reviews conducted since 2000, in how many appeals did the USPS Manager, Rural Delivery concur with the requesting proponent's position in full? In how many reviews did the USPS Manager, Rural Delivery concur in part? In how many reviews did the USPS Manager, Rural Delivery disagree with the requesting proponent's position?**

  This information has been tracked since November 2019. Since then, headquarters officials have received 32 appeals of ZIP Code Boundary Reviews. Of those, 22 were denied with an administrative solution given (e.g., a Preferred Last Line option), 6 were denied with no administrative solution given (e.g., the proponent did not want, or addressing did not allow, the alternative solution), 2 were denied but had been previously provided an administrative solution by the district, and 2 were approved. However, please note that approval of a city's appeal also involves a survey sent to affected customers, of which at least 50 percent must respond, with a majority of those responses indicating approval of the proposed change.

I hope this information is helpful and alleviates your concerns. Thank you for writing, and please let me know if I can assist in any other postal matters.

Sincerely,

Michael J. Gordon
Director, Government Liaison

CITY OF URBANDALE

3600 86th Street • Urbandale, IA 50322 • 515.278.3900 • Urbandale.org

February 21, 2025

Honorable Members of the United States Congress
c/o Honorable Representative Zach Nunn
United States House of Representatives
374 Cannon House Office Building
Washington, D.C. 20515

The City of Urbandale is honored to be included on legislation designating Unique ZIP Codes for communities around the country.

The City of Urbandale has exhausted the available administrative remedies for our ZIP Code problems, including requesting a ZIP Code Boundary Review and submitting a formal appeal. The United States Postal Service is not willing to extend Urbandale ZIP Codes to all Urbandale residents and businesses. Mail service provided to those residents and businesses left out of our City's ZIP Codes continues to be intolerable. The City of Urbandale seeks a durable solution to the problems our residents and businesses experience when their ZIP Code does not match their City.

While consistent and reliable receipt of mail is the most pressing concern, and the source of the greatest frustration, residents and businesses also experience other problems when ZIP Codes do not align with City boundaries. These include issues updating driver's licenses and official documents, problems with private delivery services, and problems getting mortgages processed in a timely manner. The situation also adds to general confusion about the correct jurisdiction and causes residents and businesses to be less engaged with our community and more reticent to access our city services.

The City of Urbandale supports efforts to help Cities and Communities across the country get the ZIP Codes they need and the City of Urbandale appreciates being included on this critical legislation.

Thank you for your leadership on this matter,

Robert D. Andeweg, Mayor
City of Urbandale
