

TELL CONGRESS:

Don't make health insurance less affordable for 59,000 working Missourians and their families in MO-07

Preserve health care tax credits

In 2025, 59,000 people in Missouri's Seventh Congressional District receive tax credits to help lower their monthly premium payments to make quality, comprehensive health insurance coverage more affordable.

These enhanced tax credits are set to expire under current law. This would send premiums skyrocketing and mean fewer Missourians are able to afford coverage at all, including children and families, people with chronic conditions, early retirees, small business owners, and hourly workers.

For a **60 year old couple** earning **\$85,600** a year   Annual Premiums would increase by **\$25,848** **382%**

For a **family of four** earning **\$133,750** a year (ages 45, 45, 15, and 10)   Annual Premiums would increase by **\$16,007** **146%**

For a **family of four** earning **\$66,000** a year (ages 45, 45, 15, and 10)   Annual Premiums would increase by **\$2,651** **255%**

That's why Congress needs to protect the tax credits – so people in Missouri can continue to get the health care they need.

If Congress Increases Health Care Premiums on Families and Workers

- In 2025, more than 24 million Americans who don't get coverage through their employer, Medicare or Medicaid buy coverage on their own and would face significantly higher premiums or lose coverage altogether.
- 1 in 4 people with chronic conditions could lose coverage.
- 1.6 million children are at risk of losing access to essential health care services as families face steep premium increases, forcing tough decisions.
- 3.3 million small business owners and self-employed workers would see premiums skyrocket, discriminating between them and those who get health insurance from their employer.
- 2.8 million rural Americans would be hit hard. Options for health care services in rural areas are fewer and harder to reach, and the cost of insurance is much higher.

TELL CONGRESS:

Don't make health insurance less affordable for 34,000 working Wisconsinites and their families in WI-06

Preserve health care tax credits

In 2025, 34,000 people in Wisconsin's Sixth Congressional District receive tax credits to help lower their monthly premium payments to make quality, comprehensive health insurance coverage more affordable.

These enhanced tax credits are set to expire under current law. This would send premiums skyrocketing and mean fewer Wisconsinites are able to afford coverage at all, including children and families, people with chronic conditions, early retirees, small business owners, and hourly workers.

For a **60 year old couple** earning **\$85,600** a year   Annual Premiums would increase by **\$22,814** **337%**

For a **family of four** earning **\$133,750** a year (ages 45, 45, 15, and 10)   Annual Premiums would increase by **\$13,499** **123%**

For a **family of four** earning **\$66,000** a year (ages 45, 45, 15, and 10)   Annual Premiums would increase by **\$2,651** **254%**

That's why Congress needs to protect the tax credits – so people in Wisconsin can continue to get the health care they need.
