

**Kenyon Wells**

Kenyon Wells has been with CGI for 19 years and is a Vice President for Professional Services focused on the U.S. Federal Market. CGI is one of the largest independent information technology and business process services firms in the world. With 69,000 professionals, CGI provides end-to-end IT and business process services to clients worldwide from offices in the United States, Canada, Europe and Asia Pacific.

Mr. Wells is the Vice President for Business Engineering for CGI Federal Civilian Agency Programs (CAP), supporting 22 agencies with 2,000+ members across the US and 45 countries internationally. CAP is the largest Federal Unit and has a broad portfolio of Cloud, ERP, business process services, and IT solutions. He is a member of the US Executive Management Team as well as the Strategic Growth Council which drives the growth of the U.S. business.

Mr. Wells has led the transformation of CGI's Federal business from a traditional IT services firm providing on-site and traditional Hosting services to a leader in Federal Cloud solutions. CGI is on the General Services Administration (GSA) government wide IaaS vehicle with contract awards and successful projects with numerous clients such as the Department of Homeland Security (DHS), Department of Labor, GSA, and the National Archives. CGI now offers IaaS, PaaS, and numerous SaaS offerings and the Cloud Solutions portfolio is the fastest growing portion of CGI's business.

With more than 20 years of IT experience, Mr. Wells is a seasoned executive in strategic planning, business development, emerging technologies, and U.S. Federal budget and procurement policy. Actively committed to the government community, Mr. Wells has been active in associations such as the Association for Government Accountants (AGA) and the American Council for Technology, Industry Advisory Council (ACT-IAC).
