

Questions for the Record – Submitted by Ranking Member Jody Hice (R-GA)

Subcommittee on Government Operations

Hearing: “Federal IT Modernization: How the Coronavirus Exposed Outdated Systems”

Hearing Date: July 20, 2020

Questions for Mr. Gordon Bitko, Information Technology Industry Council (ITI)

1. What are the top IT modernization priorities that Congress should act on?
2. How can the federal government better articulate its technology needs to industry?
3. What changes would you make to the structure and process for awarding projects funds from the TMF?
4. How can this Committee help improve the delivery of Federal assistance, grant, and mission related programs at the State agency level? What policies does Congress need to examine in order to assure that the downstream delivery and citizen engagement at the State and local level is an effective and positive experience?
5. The FITARA scorecard currently captures the MGT Act requirement for an agency has set up a working capital fund to transition away from legacy IT systems. However, the federal government continues to spend a majority of its IT budget on operating and managing of these older systems. What other metrics could the committee track to ensure we incentivize this transition away from legacy IT?
6. The FITARA scorecard currently has a FISMA component to assess if agencies have met their cybersecurity goals. How can this metric be improved upon?
