

Mr. Nat Beuse works as the Associate Administrator for Vehicle Safety Research at the National Highway Traffic Safety Administration (NHTSA). In that role, he is responsible for NHTSA's vehicle safety research activities which are focused on achieving the agency's mission of reducing fatalities and injuries caused by motor vehicle crashes. This includes developing and conducting research aimed at supporting Federal motor vehicle safety standards and consumer information programs, spurring voluntary industry actions through guidelines, and advancing the state of the art on wide variety of vehicle programs. He is also responsible for the Vehicle Research and Test Center where a significant amount of laboratory testing and analysis occur. Prior to this role, Mr. Beuse worked as the Office Director for Crash Avoidance Rulemaking located within the rulemaking arm of the National Highway Traffic Safety Administration (NHTSA). Nat has published and presented several technical papers dealing with occupant safety, consumer information, and vehicle design. Nat received his undergraduate and graduate degree from Marquette University located in Milwaukee, WI. He received a Bachelor of Science in Biomedical Engineering and a Masters degree in Mechanical Engineering.
