

Terrell Dorn

Terry has been with GAO for over 18 years and is the Managing Director for Infrastructure Operations. His extensive executive and management experience encompasses a broad range of strategic areas related to facilities management, security, emergency management, records management and privacy. He previously served as a Director and an Assistant Director in the Physical Infrastructure team primarily leading work on the Capitol Visitor Center and assisting other teams in a wide variety of issues related to construction and facilities management.

Prior to coming to GAO, Terry spent over 10 years in the private sector as a facility manager and construction project manager for Fortune 500 companies in the specialty chemical and energy sectors. In addition, he spent 10 years as a civilian and an engineer officer with the U.S. Army Corps of Engineers, working on civil works and military construction projects both here and in Europe. Terry received a Bachelor of Science in civil engineering from Virginia Military Institute; he is a licensed professional engineer in Virginia, and has also received the Certified Facility Manager designation from the International Facility Management Association.
