Ian Swanson is the CEO & Founder of Protect AI. Protect AI is a cybersecurity company for AI and enables safer AI applications by providing organizations the ability to see, know, and manage risk in their machine learning environments end-to-end. Prior to founding Protect AI, Ian led Amazon Web Services' worldwide AI and ML business. He also served as Vice President of Machine Learning at Oracle where he oversaw strategy for Oracle's AI and ML products. Previously, Ian was CEO and Founder of enterprise data science platform DataScience.com which was acquired by Oracle in May 2018. Earlier in his career, he was an executive at American Express, Sprint, and CEO of Sometrics.
