

Mona Harrington leads the National Risk Management Center (NRMC) at the Cybersecurity and Infrastructure Security Agency (CISA) since September 2022. As Assistant Director, she tackles cyber and physical threats to critical infrastructure by collaborating with public-private partners. Her focus includes advancing NRMC's analytic capabilities, information sharing, risk management, and threat response.

Harrington spearheads major CISA initiatives, such as CIFIUS, Elections Security, Space Weather, PNT, Connected Communities, Emerging Technologies, and Supply Chain protection. She co-chairs both the Information and Communications Technology Supply Chain Risk Management Task Force and the Space Weather Operations, Research, and Mitigation (SWORM) Subcommittee. With over 20 years in Federal Government roles, Harrington's expertise covers cybersecurity, strategy, risk management, critical infrastructure, and implementing best practices.

Previously at the U.S. Election Assistance Commission (EAC), Harrington served as Executive Director and Chief Information and Security Officer. Harrington was instrumental in advancing the Voluntary Voting System Guidelines 2.0 (VVSG 2.0).

Her career includes 12 years in cybersecurity and IT executive leadership roles in the U.S. Court of Appeals for the Federal Circuit.

Harrington holds a Master of Science with a dual focus on cyber security and chemical, biological, radiological, nuclear warfare from Rochester Institute of Technology.
