1	form screening panel, to describe challenges posed
2	by newly nominated conditions, including low-inci-
3	dence diseases, late onset variants, and new treat-
4	ments without long-term efficacy data.
5	(2) The barriers that preclude States from add-
6	ing new uniform screening panel conditions to their
7	State screening panels with recommendations on re-
8	sources needed to help States implement uniform
9	screening panel recommendations.
10	(3) The current state of federally and privately
11	funded newborn screening research with rec-
12	ommendations for optimizing the capacity of this re-
13	search, including piloting multiple prospective condi-
14	tions at once and addressing rare disease questions.
15	(4) New and emerging technologies that would
16	permit screening for new categories of disorders, or
17	would make current screening more effective, more
18	efficient, or less expensive.
19	(5) Technological and other infrastructure
20	needs to improve timeliness of diagnosis and short-
21	and long-term follow-up for infants identified
22	through newborn screening and improve public
23	health surveillance.
24	(6) Current and future communication and edu-
25	cational needs for priority stakeholders and the pub-

1 lic to promote understanding and knowledge of a 2 modernized newborn screening system with an em-3 phasis on evolving communication channels and mes-4 saging. The extent to which newborn screening 6 yields better data on the disease prevalence for 7 screened conditions and improves long-term out-8 comes for those identified through newborn screen-9 ing, including existing systems supporting such data 10 collection and recommendations for systems that 11 would allow for improved data collection. 12 (8) The impact on newborn morbidity and mor-13 tality in States that adopt newborn screening tests 14 included on the uniform panel. 15 (b) Public Stakeholder Meeting.—In the course of completing the study described in subsection (a), NAM 16 17 or such other appropriate entity shall hold not less than 18 one public meeting to obtain stakeholder input on the top-19 ics of such study. 20 (c) Report.—Not later than 18 months after the ef-21 fective date of the agreement under subsection (a), such 22 agreement shall require NAM, or such other appropriate 23 entity, to submit to the Secretary of Health and Human Services and the appropriate committees of jurisdiction of 25 Congress a report containing—

1	(1) the results of the study conducted under
2	subsection (a);
3	(2) recommendations to modernize the proc-
4	esses described in subsection $(a)(1)$; and
5	(3) recommendations for such legislative and
6	administrative action as NAM, or such other appro-
7	priate entity, determines appropriate.
8	(d) AUTHORIZATION OF APPROPRIATIONS.—There is
9	authorized to be appropriated \$2,000,000 for the period
10	of fiscal years 2020 and 2021 to carry out this section.
