

Remarks of the Honorable Debbie Dingell  
House Committee on Energy and Commerce

FULL COMMITTEE MARKUP

June 22, 2021

**OPENING STATEMENT (1 Minute)**

Thank you, Chairman Pallone, for holding today's full committee markup on three important bills that advanced favorably out of the Environment and Climate Change Subcommittee last week.

I have been proud to work on each of these bills. If enacted, they will ensure Americans nationwide have access to clean, safe, and affordable drinking water, as well as protect the American people from harmful forever chemicals and finally represent strong federal leadership to confront the PFAS crisis.

Water is a human right that no one should be denied. The bills we are marking up today will begin to make a real difference in the lives of millions of American, and I urge every member to send these bills favorably to the floor today with their strong support.

Thank you and I yield back.
