HE #16

On page 2, after “Currently, fentanyl is the leading cause of death for Americans between the ages of 18 and 45.”, insert—

“Medicaid is the single largest payer for behavioral health services in the United States and covers nearly 40 percent of all individuals with opioid use disorder. The Committee will conduct oversight of the impact of cutting federal Medicaid funding on access to treatment for substance use disorder and increases in overdoses and deaths.”
