

GAMBLING ADDICTION AND MOBILE SPORTS BETTING (Tonko)

On page 16, after the section entitled “NUCLEAR SMUGGLING”, insert the following new section:

“GAMBLING ADDICTION AND MOBILE SPORTS BETTING

Gambling disorder has a one in five rate of attempted suicide, higher than any other addictive disorder. The Committee will examine the rate of gambling addiction and gambling-related harm following the 2018 Supreme Court decision to overturn the Professional and Amateur Sports Protection Act of 1992 and conduct oversight of gambling companies and business practices that keep Americans engaged in an unsafe way with an addictive product. Such practices may include but are not limited to advertising and promotions, the use of artificial intelligence, and VIP and tier loyalty programs.”
