

Manish Bhatia is Executive Vice President, Global Operations at Micron Technology.

Manish is responsible for the company's end-to-end operations, delivering industry-leading technology and products at scale. He has a proven track record of driving semiconductor manufacturing excellence with best-in-class supply chain and quality performance. Manish's scope includes fab and assembly/test manufacturing, packaging & test development, quality, supply chain, procurement, government and public affairs functions, as well as information technology, smart manufacturing and artificial intelligence. He joined Micron in 2017.

Manish has over 25 years of engineering and operations experience. He held several executive roles at Western Digital Corporation, SanDisk Corporation, Matrix Semiconductor, and in consulting at McKinsey & Company.

Manish earned bachelor's and master's degrees in mechanical engineering from the Massachusetts Institute of Technology and a master's degree in business administration from MIT's Sloan School of Management, which he attended as a Leaders for Manufacturing fellow.
