Hello [REDACTED]

Pam Lee can address your question in regards to inspecting NECC. I have moved to another group within Compliance and am no longer with the pharmacy compounding team. She can help you with this issue and any future cases that may come up.

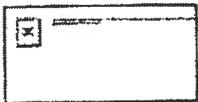

Thank you,
[REDACTED]

[REDACTED]

FYI

Based on past conversations that we may start enforcing compounding pharmacies at the end of this year do you want us to wait until you issue an assignment to go to the firm?

U.S. Food and Drug Administration

Hi [REDACTED]

I checked our Registration database and New England Compounding Center is not listed as having registered with us as a manufacturer. With this e-mail, I am copying our New England District Compliance staff with the information you provided (invoice for the injectable hyaluronidase to [REDACTED] along with the Cease and Desist documents [REDACTED] sent last year regarding NECC (see e-mail string below). I would suggest you get in touch with the Massachusetts Board of Pharmacy if you haven't already to inform them of the firm's activity and to see if there are any actions they may wish to take especially in light of your Cease and Desist Order.

I also checked the status of [REDACTED] in New Jersey. They also are not listed in our database as having registered as a manufacturer. Under a separate e-mail, I will copy our New Jersey District Office with the invoice you collected, but as in the NECC case, you may wish to contact your counterparts with the New Jersey Board of Pharmacy.

Let me know if you have any questions or wish to discuss further.

Thanks [REDACTED]

[REDACTED] is the CO for NECC. I'll ask him to follow up if we have any questions.

Amber

Hi Amber and [REDACTED]

I had a phone call with [REDACTED] of the Colorado Board of Pharmacy regarding New England Compounding Center (NECC). Attached is the background information from Chris as well as the Cease and Desist Order that the Board issued to NECC regarding their illegal distribution of compounded drugs to hospitals in the Denver metropolitan area. The firm is neither registered or listed with the State to do business as a drug outlet. I know that you have some previous reg history with this firm and that they were the recipient of at least one warning letter. This is just FYI but if you have any questions, please feel to give me a call to discuss.
