ASSURANCES - NON-CONSTRUCTION PROGRAMS

Public reporting burden for this collection of information is estimated to average 15 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Office of Management and Budget, Paperwork Reduction Project (0348-0040), Washington, DC 20503.

PLEASE DO NOT RETURN YOUR COMPLETED FORM TO THE OFFICE OF MANAGEMENT AND BUDGET. SEND IT TO THE ADDRESS PROVIDED BY THE SPONSORING AGENCY.

NOTE: Certain of these assurances may not be applicable to your project or program. If you have questions, please contact the awarding agency. Further, certain Federal awarding agencies may require applicants to certify to additional assurances. If such is the case, you will be notified.

As the duly authorized representative of the applicant, I certify that the applicant

1. Has the legal authority to apply for Federal assistance and the institutional, managerial and financial capability (including funds sufficient to pay the non-Federal share of project cost) to ensure proper planning, management and completion of the project described in this application.
2. Will give the awarding agency, the Comptroller General of the United States and, if appropriate, the State, through any authorized representative, access to and the right to examine all records, books, papers, or documents related to the award; and will establish a proper accounting system in accordance with generally accepted accounting standards or agency directives.
3. Will establish safeguards to prohibit employees from using their positions for a purpose that constitutes or presents the appearance of personal or organizational conflict of interest, or personal gain.
4. Will initiate and complete the work within the applicable time frame after receipt of approval of the awarding agency.
5. Will comply with the Intergovernmental Personnel Act of 1970 (42 U.S.C. §§4728-4763) relating to prescribed standards for merit systems for programs funded under one of the 19 statutes or regulations specified in Appendix A of OPM's Standards for a Merit System of Personnel Administration (5 C.F.R. 900, Subpart F).
6. Will comply with all Federal statutes relating to nondiscrimination. These include but are not limited to: (a) Title VI of the Civil Rights Act of 1964 (P.L. 88-352) which prohibits discrimination on the basis of race, color or national origin; (b) Title IX of the Education Amendments of 1972, as amended (20 U.S.C. §§1681-1683, and 1685-1686), which prohibits discrimination on the basis of sex; (c) Section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. §794), which prohibits discrimination on the basis of handicaps; (d) the Age Discrimination Act of 1975, as amended (42 U.S.C. §§6101-6107), which prohibits discrimination on the basis of age; (e) the Drug Abuse Office and Treatment Act of 1972 (P.L. 92-255), as amended, relating to nondiscrimination on the basis of drug abuse; (f) the Comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment and Rehabilitation Act of 1970 (P.L. 91-616), as amended, relating to nondiscrimination on the basis of alcohol abuse or alcoholism; (g) §§523 and 527 of the Public Health Service Act of 1912 (42 U.S.C. §§290 dd-3 and 290 ee-3), as amended, relating to confidentiality of alcohol and drug abuse patient records; (h) Title VIII of the Civil Rights Act of 1968 (42 U.S.C. §§3601 et seq.), as amended, relating to nondiscrimination in the sale, rental or financing of housing; (i) any other nondiscrimination provisions in the specific statute(s) under which application for Federal assistance is being made; and, (j) the requirements of any other nondiscrimination statute(s) which may apply to the application.
7. Will comply, or has already complied, with the requirements of Titles II and III of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (P.L. 91-646) which provide for fair and equitable treatment of persons displaced or whose property is acquired as a result of Federal or federally-assisted programs. These requirements apply to all interests in real property acquired for project purposes regardless of Federal participation in purchases.
8. Will comply, as applicable, with provisions of the Hatch Act (5 U.S.C. §§1501-1508 and 7324-7328) which limit the political activities of employees whose principal employment activities are funded in whole or in part with Federal funds.

9. Will comply, as applicable, with the provisions of the Davis-Bacon Act (40 U.S.C. §§276a to 276a-7), the Copeland Act (40 U.S.C. §276c and 18 U.S.C. §874), and the Contract Work Hours and Safety Standards Act (40 U.S.C. §§327- 333), regarding labor standards for federally-assisted construction subagreements.
10. Will comply, if applicable, with flood insurance purchase requirements of Section 102(a) of the Flood Disaster Protection Act of 1973 (P.L. 93-234) which requires recipients in a special flood hazard area to participate in the program and to purchase flood insurance if the total cost of insurable construction and acquisition is \$10,000 or more.
11. Will comply with environmental standards which may be prescribed pursuant to the following: (a) institution of environmental quality control measures under the National Environmental Policy Act of 1969 (P.L. 91-190) and Executive Order (EO) 11514; (b) notification of violating facilities pursuant to EO 11738; (c) protection of wetlands pursuant to EO 11990; (d) evaluation of flood hazards in floodplains in accordance with EO 11988; (e) assurance of project consistency with the approved State management program developed under the Coastal Zone Management Act of 1972 (16 U.S.C. §§1451 et seq.); (f) conformity of Federal actions to State (Clean Air) Implementation Plans under Section 176(c) of the Clean Air Act of 1955, as amended (42 U.S.C. §§7401 et seq.); (g) protection of underground sources of drinking water under the Safe Drinking Water Act of 1974, as amended (P.L. 93-523); and, (h) protection of endangered species under the Endangered Species Act of 1973, as amended (P.L. 93- 205).
12. Will comply with the Wild and Scenic Rivers Act of 1968 (16 U.S.C. §§1271 et seq.) related to protecting components or potential components of the national wild and scenic rivers system.
13. Will assist the awarding agency in assuring compliance with Section 106 of the National Historic Preservation Act of 1966, as amended (16 U.S.C. §470), EO 11593 (identification and protection of historic properties), and the Archaeological and Historic Preservation Act of 1974 (16 U.S.C. §§469a-1 et seq.).
14. Will comply with P.L. 93-348 regarding the protection of human subjects involved in research, development, and related activities supported by this award of assistance.
15. Will comply with the Laboratory Animal Welfare Act of 1966 (P.L. 89-544, as amended, 7 U.S.C. §§2131 et seq.) pertaining to the care, handling, and treatment of warm blooded animals held for research, teaching, or other activities supported by this award of assistance.
16. Will comply with the Lead-Based Paint Poisoning Prevention Act (42 U.S.C. §§4801 et seq.) which prohibits the use of lead-based paint in construction or rehabilitation of residence structures.
17. Will cause to be performed the required financial and compliance audits in accordance with the Single Audit Act Amendments of 1998 and OMB Circular No. A-133, "Audits of States, Local Governments, and Non-Profit Organizations."
18. Will comply with all applicable requirements of all other Federal laws, executive orders, regulations, and policies governing this program.
19. Will comply with the requirements of Section 106(g) of the Trafficking Victims Protection Act (TVPA) of 2000, as amended (22 U.S.C. 7104) which prohibits grant award recipients or a sub-recipient from (1) Engaging in severe forms of trafficking in persons during the period of time that the award is in effect (2) Procuring a commercial sex act during the period of time that the award is in effect or (3) Using forced labor in the performance of the award or subawards under the award.

Project Abstract Summary

* Project Summary

ASPIN Health Navigator Program
Affiliated Service Providers of Indiana, Inc. www.aspin.org

Collaborating Partners:

1. Affiliated Service Providers of Indiana, Inc. (Behavioral Health Network)
2. Community Mental Health Centers
3. Ivy Tech Community College

Goals of the project

1. To outreach and educate individuals, families and small businesses on Health Exchanges and to facilitate selection and enrollment in qualified health plans.
2. To develop a navigator workforce consisting of Veterans, Certified Recovery Specialists, and Ivy Tech Community College students.

Population Groups Served:

1. Consumers of behavioral health in all 92 counties in Indiana served by the 25 Community Mental Health Centers
2. Students in 31 Ivy Tech campuses, staff, friends and families, with activities and classes located in 80 buildings
3. Small businesses with less than 50 employees in all 92 counties and community organizations and groups

The Community Mental Health network currently serves 24,000 individuals who are currently insured and an additional of 8000 individuals who have private insurance that will benefit from eligibility screenings. Ivy Tech serves 200,000 adult students and receives 80,000 external inquiries each year. Majority of these students are either uninsured, underinsured and we anticipate that all would benefit from an eligibility screening. Through recruitment from a wide network of community mental health centers and Ivy Tech campuses, we will be able to serve all the 92 counties in Indiana. We will have built in performance targets of enrolling or performing eligibility screening for TWENTY individuals or families and outreaching FOUR organizations, groups or businesses with less than 50 employees each week for all our 37 Navigators. We will outreach to another 23,200 individuals through businesses and events. This brings the outreach target to 335,200 individuals.

Total Budget

ASPIN, on behalf of its partners, respectfully requests \$917,260 in support of this effort. \$575,880 will go towards salaries and benefits, paid training, and performance based incentives that will support a workforce comprising mostly of Veterans, Certified Recovery Specialists and Ivy Tech Community College students.

Strategy

A multiple level outreach strategy will be used

1. Regular office hours at 80 Ivy Tech building and 31 Ivy Tech campuses and 25 Community Mental Health Centers
2. A 1-800 centralized access lines and a website that serves as a portal to HHS??? website for enrollment and eligibility screening
3. One-on-one outreach to businesses, community organizations and groups
4. Outreach at local events with heavy human traffic
5. Social media campaign

* Estimated number of people to be served as a result of the award of this grant.: 335200

Applicant: Affiliated Service Providers of Indiana, Inc.
Application Number: NAV2013000056
Project Title Cooperative agreement to Support Navigators in federally-facilitated and State Partnership Exchanges.
Status: Review in Progress
Document Title: ProjectNarrativeAttachments-Attachments-1236-Project Narrative Version for Submission.docx

A. Project Narrative

i) Type of Entity

Description of the Applicant Agency: Affiliated Service Providers of Indiana, Inc. d/b/a ASPIN will be the lead applicant agent for the Cooperative Agreement to Support Navigators in Federally Facilitated and State Partnership Exchanges. ASPIN is a 501-C-3 private not for profit corporation comprised of and governed by a consortium of nine Community Mental health Centers ("CMHC") and addiction providers in [REDACTED]. Each provider has one representative that sits on the ASPIN Board of directors. The CEO reports to the governing board and oversee operations. ASPIN currently provides third party administration, training, grants management and workforce development for it consortium. ASPIN members are located in these major cities: [REDACTED] and

[REDACTED] Twenty-five CMHCs operate in Indiana. These other CMHCs are based in

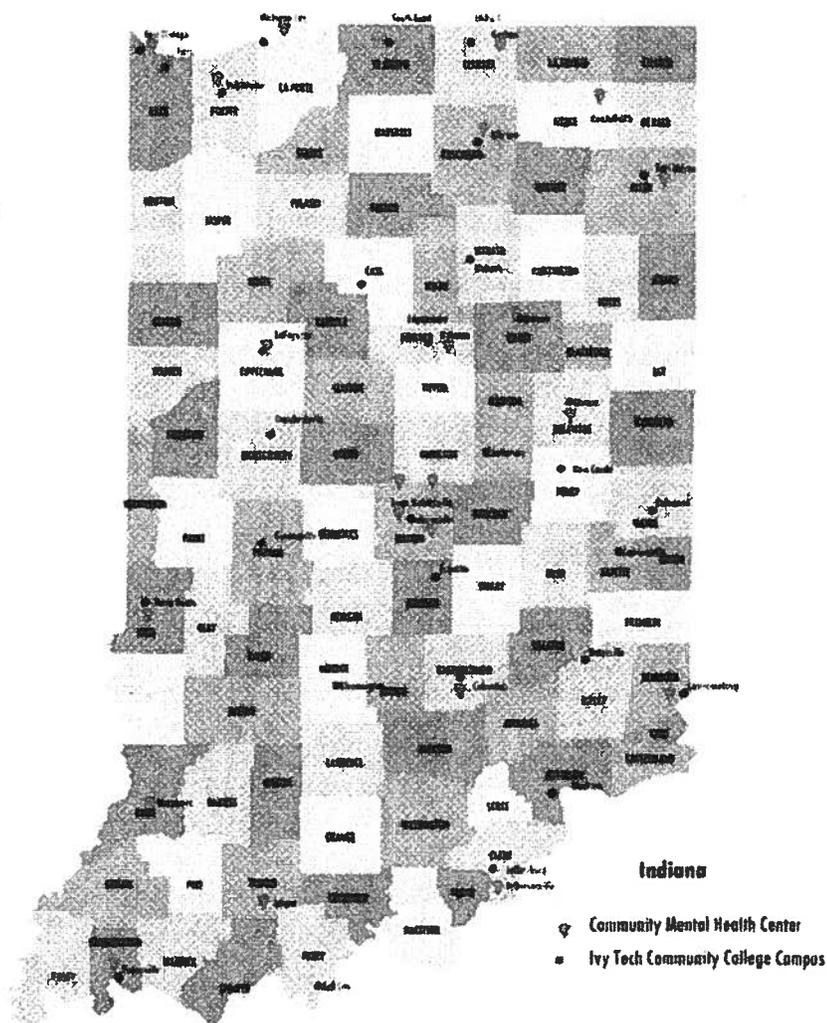

[REDACTED] and [REDACTED]

City. ASPIN has strong ties with the other remaining CMHCs in the state of Indiana. CMHCs are designed to be accessed within an hour from any location in Indiana.

Description of groups/community that this project will serve

ASPIN will target three main population groups throughout the entire state of [REDACTED]

- a. Behavioral health consumers and their networks through CMHCs
- b. Ivy Tech Community College students, and their personal network through Ivy Tech
- c. Community organizations, groups and small businesses with less than 50 employees

Map of location of CMHCs and Ivy Tech Community College campuses

Reason for outreaching to this communities and numbers expected to serve

CMHCs annually serve approximately 24,000 uninsured individuals with serious mentally illness, and clients with chronic addiction.

Ivy Tech Community College is the state's largest public post-secondary institution serving nearly 200,000 students a year. An estimate from the Administration at Ivy Tech gives the uninsured rate at about 50 percent. The estimated population that is uninsured in this group is

Cooperative Agreement to Support Navigators in Federally-facilitated and State Partnership Exchanges

estimated to be around 100,000. Eighty percent of Ivy Tech’s students statewide work – and nearly all of those work more than 30 hours a week. Half of the students have children, 25 percent are single moms and about 10,000 of Ivy Tech’s students are on food stamps. The profile of students fall largely into a group that are low income, price sensitive, employed part time, or employed without health insurance or most likely to slide in and out of insurance coverage as their job status changes. Based on the demographics, we believe that close to 100 percent of the students would benefit from doing an eligibility screening. In addition to enrolled students, the call center at Ivy Tech receives 80,000 external inquiries per year that can promote enrollment. The highest level of administration at IVY Tech is highly supportive of this partnership and has agreed to the strategies outlined in this project.

Targeted Numbers

Population	Organization	Uninsured	Underinsured	Outreach	Total
Consumers of mental health services	CMHC	24,000		8,000	32,000
Community College students	Ivy Tech	100,000	100,000	80,000	280,000
Small Business/Groups	ASPIN			23,200	23,200
Total		124,000	100,000	111,200	335,200

Through CMHCs and Ivy Tech Community College, ASPIN will outreach to 124,000 uninsured adults currently. This represents about 14% of the uninsured population of the state. In addition to uninsured individuals, CMHCs also see another 8,000 individuals who have private insurance who may qualify for subsidies through QHP. Through the Ivy Tech network, we will outreach to another 100,000 students who may qualify for subsidized QHP. Through the Ivy

Tech Call Center, we will outreach to another 80,000 in a year. This gives us another audience of 188,000.

Through performance targets of 20 enrollments per week for each hired Navigator for an average of 46 weeks between Oct 1st, 2013 and August, 15th, 2014, ASPIN has a target of 34,040 uninsured individuals or families when considering its anticipated Navigator staff of 37 individuals. We will outreach to 7,400 businesses and 100 outreach events between Sept 1st and Aug 15th, 2014 (50 weeks). Using a very conservative average of small businesses to have three employees each, and an outreach of ten people per event, we will outreach to 23,200 individuals. Through social media marketing, we will outreach to many more individuals as Navigators will have performance targets to Like and Share articles from our Facebook pages. Contests and games will increase media traffic. We have not estimated outreach penetration through social media. We believe we have conservative estimates as the one on one reverberation through friends and family by word of mouth will be a powerful marketing tool when people successfully obtain health insurance at prices that are affordable.

ii) Scope of activities

Overall Strategy

For the two population groups of Ivy Tech and users of Behavioral health services as initial level of targets, we will partner with the CMHCs and Ivy Tech. In this project, we believe peers and members of their community make a difference in our one on one interpersonal outreach. ASPIN is also committed to workforce development of Navigators. In this respect, we will have hiring criteria that is committed to hiring Veterans, Certified Recovery Specialists, Ivy Tech students and a flexible hiring policy that will target specific minority groups and individuals with skills that the navigator grant requires.

Cooperative Agreement to Support Navigators in Federally-facilitated and State Partnership Exchange

ASPIN is not an ineligible entity. Its members and staff do not have a relationship with health insurance issuers, as outlined in Section III of the Cooperative Agreement.

We will use a multi prong strategy to outreach to these three groups.

Outreach Activities:

1. ***Initial recruitment of Navigators*** through postings on Ivy Tech campuses and CMHCs. Prior to October 1st, upon getting the contract, ASPIN will begin posting information about Health Exchanges as well as job opportunities for the positions through Ivy Tech's communication channels, such as its website, including JobZone (Ivy Tech's Website for jobs), Campus Connect (On line communication board for students with real time chat capabilities) and its Help Center for students. This information will also be posted on ASPIN's and its partners' websites and other on line job websites.
2. ***Internal outreach through education of influencers*** such as Board members, staff of Ivy Tech and its Call and Chat Centers, eligibility specialists (who currently assist with Medicaid and Healthy Indiana Plan) and other staff at CMHCs. Information about the Navigator projects will be disseminated to all Board members and CMHCs. Opportunities to be part of staff meetings and announcements either in person or via phone call in, or video conferencing through Skype or any other remote ways will also be identified at Ivy Tech campuses and CMHCs. These are good opportunities for in-depth discussions about how health exchanges would work in conjunction with existing systems in each organization.
3. ***Standardization and customization of information.*** Scripts and standard outreach publicity material such as posters, flyers, YouTube video, presentation packages, will be designed to address affordability of Health insurance which is the main barrier to purchasing insurance for this group. Standardized marketing information will ensure distribution of accurate and

Cooperative Agreement to Support Navigators in Federally-facilitated and State Partnership Exchanges

equally high quality of information, with some flexibility to be customized to local information. Business cards will be designed, printed and distributed in allowing for some customization in multi languages.

4. *Toll-free centralized access number.* ASPIN will operate a toll-free centralized access number which will be manned from 8am to 8pm six days per week with translation capabilities. In addition, Ivy Tech already operates a toll free call center and a chat line for its students and potential students. The staff manning this service for Ivy Tech will be given a script to ask about health insurance and coverage, if individuals are interested or indicate that they would benefit from some assistance. If the individuals are interested, their calls will be forwarded to Navigators for information and to help with an eligibility screening.
5. *Social media campaign.* Widespread use of Social media, at all stages of implementation will be an integral part of the entire project. Facebook and Twitter, two of the most popular social media will be used for sharing events, articles, success stories on obtaining insurances and other health and insurance related content. There will be regular incentives to “Share” and “Like” using contests, games and token prizes such as for all participants. Navigators will be responsible to “Like” and “Share” information on Facebook or re-tweet information three times a week. Contents on Facebook will consist of 20 percent original contents and 80 percent of information on healthy living from articles from online newspapers, journals, other health blogs and HHS health sites. The original content will constitute information on health exchanges, announcements of events and walk-in locations and hours, success stories and games and contests with prizes, such as movies tickets, \$10 or \$20 gift cards to restaurants and other activities enjoyed by this age group. Tracking software will be used to monitor the reach of this campaign. Policies will be put in place regarding duties and responsibilities of

Navigators in using social media. Guidelines will be provided on appropriate sharing in social media. Supervisory staff will monitor these websites and social media on an ongoing basis and will be responsible for responding to queries.

6. *Website and email as channels of communication and resources for referral to other services.* ASPIN will maintain a website that provides link to the Affordable Insurance Exchange. This secure website will also serve as a portal for multiple tracking purposes, including applications for jobs as Navigators, training and enrollment for QHP, submission of timesheets and reports as well as other administrative features to track data for reporting. Ivy Tech's multiple media for communication such as its website, Campus Connect and Facebook will also have information about Navigators and will be linked to this website. This website will also contain resources that are helpful such as links for Medicaid, CHIP, food stamps, Healthy Indiana Plan and other referral information for Navigators to use in helping individuals access other social services. Updates and other job related information will be distributed via this website and through email.
7. *Walk-in and appointment at enrollment sites at Ivy Tech campuses and CMHCs.* ASPIN will hold regular office hours to assist in enrollment. Ivy Tech is sprawled across 31 campuses and 80 buildings which we will have access to. These opening hours will be advertised via posters and on the websites of ASPIN and Ivy Tech and announcements through social media. Students of Ivy Tech and Certified Recovery Specialists who have familiarity with the populations we target will be recruited as Navigators for these venues.
8. *Outreach to businesses, groups and other community organizations.* Navigators who are entrenched in their communities will each identify extra locations to organize outreach activities by putting up posters or in making announcements or organizing outreach events.

Supervisory staff will work one on one with Navigators to identify locations. A quick facts sheet will be used to systematically identify different categories of locations such as public areas, coffee places, businesses that hire part time and seasonal workers, businesses with less than 50 employees, nonprofit agencies that work with refugees, ethnic groups, or other disadvantaged populations, local ethnic stores, food pantries, libraries, areas of worship and local cash checking facilities. Navigators, working with the Supervisors will identify local small businesses and contact decision makers for these local businesses to educate them and their employees in Small Business Health Options Programs. Each Navigator will be given performance goal of contacting four businesses or groups/ organizations each week.

9. *Special populations.* Several Navigators will be hired especially for their special skills and knowledge such as cultural and linguistic competency. Some will be hired for their experience in outreaching to special populations. If a bilingual speaker is not available as a Navigator, when outreaching to populations that uses English as a second language, certified translators will be present. Similarly, when outreaching to those who use ASL, an ASL translator will be made available. For example, Fort Wayne is worth a special mention as it has a high number of refugees from many nations, including Bosnia, Vietnam, Iraq, Burma and Somalia. Although refugees themselves are unlikely to be uninsured, they may have relatives and friends who have lost their insurance eligibility for Medicaid beyond their resettlement period and are likely to be employed in low wage professions. They are also more likely to be in poor or fair health. As such, in the recruitment of Navigators and in identifying locations to outreach to for that area, consideration will be finding someone with connections to these communities.

10. *Flexibility.* Recognizing that many people that we will outreach to are busy and are internet savvy, options will be given for Navigators to still continue to capture individuals who may want to sign up in the privacy of their own homes or on their own time. Navigators will be given a number identifier and will encourage their individual networks to use ASPIN's website (which will have a place to capture this identifier) to navigate to the Health Insurance Exchange so that they can capture the enrollment to their credits. In addition to the enrollment sites, Navigators will also be able to enroll individuals via appointments at mutually agreeable places. There will be policy and guidelines in place that will address privacy and safety procedures and protocol.
11. *Outreach at local events* such as farmer's markets, harvest festivals, job fairs, flea markets, county fairs. ASPIN will conduct 100 outreach and educational events at local events, using prepared materials, with the distribution of manpower and events to correlate to the percentage of uninsured residents. We have a minimum target of 10 persons per event. During each event, outreach business cards with the centralized access number and website will be publicized and distributed. ASPIN will identify community meetings and conduct presentations as a mechanism for education and will conduct numerous presentations to consumers and advocates throughout the State.
12. *Translation service.* ASPIN will contract with a translation service which will provide a pay as you go service. ASPIN will provide all its Navigators with dial in instructions to access this translation service. Navigators will also be provided with Language ID cards that will have the phrase, "Point to your Language. An interpreter will be called" to allow a limited English speaking person to self-identify their own language so that a proper interpreter can be utilized. This card will have the top 94 languages used in this world. ASPIN will also

contract for a 24 hour answering service. The service provided will be to make appointments with Navigators, or to provide information and enrollment over the phone itself and to assist with any problem and complaints.

13. *Plan for completion of training by Navigators.* Navigators will receive bonus payments beyond hourly wages to incentivize performance. Payment for training will be made in three batches to ensure completion and successful enrollment of uninsured individuals, beginning with a first payment due at passing of the required training module and subsequently upon completion of first quarter and second quarter. Tracking of training completion will be done via signing in at the ASPIN Navigator website and scanning in necessary supporting documents. While incentives are in place for retaining Navigators, there will be some turn-over in individual staff. As such, the budget is based on training for fifty Navigators allowing for some turn-over. This will ensure that there will be sufficient trained staff to carry out the duties for the entire length of the agreement.

14. *Incentives for quality connections.* Navigators will be paid a base wage of \$10 an hour with the expectation of meeting basic performance guidelines. They have the opportunity to earn \$200 additional per quarter if they meet a standard of 300 enrollments/screenings during the quarter. These incentives focus on quality and a more in-depth engagement. Outreach to community and business will generate enrollments or eligibility screenings. Performance measures will track individual Navigators involvement in grievances and complaints. Supervisors staffing the toll free access line play an active role in helping with grievances and complaints and questions about eligibility.

15. *Plan for free of conflicts of interest.* Navigators and all personnel on the project will sign an agreement to remain free of conflict from receiving payments or any other affiliations with

QHP. Violation of this will be subject to swift and effective disciplinary action, up to and including termination.

16. *Oversight and Quality Assurance.* The three full time Program staff will have duties of oversight and quality assurance for the Navigators. They will also design all the set-up materials and systems. During the period of the grant, the Supervisors will also be responsible for contacting businesses and setting up and staffing of outreach events. They will provide fill-in if needed. They will staff the toll free centralized access line and assist enrollees with grievances, complaints, or questions about their health plan, coverage, or a determination related to their coverage. They will also make the necessary referrals to other state agencies for other resources. Supervisors will provide quality assurance and will each perform ten weekly random telephone follow-up with individuals/businesses outreached to. Supervisory staff will also provide job coaching to Navigators.
17. *Data Privacy and security standards.* Dell Mobile precision Laptop computers with video capacity will be purchased and they will be preloaded with biometric security and encryption. Additional hardware provided will be Fujitsu Scansnap iX500 and Logitech Webcam to access translation services, if-needed. We will also be using Office 365 which has many accessible features including Accessibility Checker Rules, keyboard shortcuts, set size and zoom options, set color and sound options and Quick access bars. By being connected to the internet via media cards, Google or Office translation software can be easily accessed if needed.

iii) **Accomplishments**

ASPIN and its consortium members maintain local community ties through use of community members on each member's board of directors. Consortium members are connected

to business through employee assistance programs, chamber of commerce associations, Rotary Clubs, and Kiwanis Clubs. Each provider has good working relationships with local social services agencies and maintains referral contracts to provide a full continuum of services.

ASPIN, through its partners has over 15 years of experience in helping individuals and families apply for Medicaid, Medicare and the state's Healthy Indiana Plan, a state health insurance plan for uninsured adult Hoosiers household income is between 22 - 200% of the FPL. Some of the CMHCs have Eligibility Specialists who have been helping patients apply for Medicaid and other public benefits. In these centers, eligibility specialists will refer individuals who may not be eligible for the traditional Medicaid or CHIP for eligibility screenings with Navigators to see if they may be eligible for the subsidized private qualified health plans.

ASPIN is a long-standing CARF-certified behavioral health business network that covers most of the state of Indiana. As a provider network, ASPIN has over fifteen years of data analysis, benchmarking, and evaluation experience. It monitors and evaluates over 30 data sets for its network, providing reports to funders for review on a quarterly or annual basis. ASPIN has utilized its evaluation experience in several grants successfully funded by both Federal and local organizations. ASPIN has excellent ability to author grants and provide objective grant evaluation inclusive of process and outcome measures. Examples of HRSA Rural Outreach and Network Development grants include Primary Care Plus, Network Planning, Indiana Veteran Behavioral Health Network, Indiana Peer-to-Peer Telehealth Network, Integrated Care through Education Rural Outreach, Upper Midwest Telehealth Resource Center.

For the last two years, ASPIN has partnered with Indiana Rural Health Association and a number of community organizations to increase the enrollment and retention of children in families in rural northeast Indiana in public health insurance and connect them with a permanent

Cooperative Agreement to Support Navigators in Federally-facilitated and State Partnership Exchanges

medical home. The "Noble County Outreach Project" will enroll 450 children and families in public health insurance, connect 100% of them with medical homes and retain coverage for at least 85% of their redetermination of insurance eligibility.

ASPIN has years of experience with program evaluation of projects focusing on various services for vulnerable populations. ASPIN has held multiple state contracts providing critical feedback to state agencies to impact policy making decisions and assist in developing state plans to address areas of focus. Examples include Certified Recovery Specialist Evaluation, Suicide Summit Summary, Critical Access Hospital Survey, State Rural Health Plan, Special Populations and Disaster Response Initiative and Anthony Wayne Services –Psychiatric Inpatient Crisis Stabilization Program.

ASPIN has been conducting trainings since 1999, training over 12,000 Indiana mental health professionals/individuals in the past 15 years. Examples include: Clinical Behavioral Health Education, Medicaid Rehabilitation Option Transformation Trainings, Medicaid Rehabilitation Option Train the Trainer Competency Testing and Evaluation, All Hazards Committee- Ten District Mental Health Teams - Earthquake Exercise, Division of Mental Health and Addiction State Conferences and Certified Recovery Specialist Program.

iii) Expertise of personnel

The program will consist of three full time positions, thirty eight half time positions, and limited involvement from three other staff of ASPIN. The full time staff will consist of a Program Manager and two Supervisors. The thirty eight half time positions consist of a Grant Coordinator and thirty seven Navigators. Oversight will be provided by CEO. Website will be built by IT Manager. Accounting and billing will be done by the Accountant. Each navigator will be given a geographical area and a campus and/or CMHC to cover. Hiring preferences will

be stated for Veterans, Certified Recovery Specialist and students enrolled in Ivy Tech. In addition, preferences will also be given to individuals with these qualities or experiences-strong, positive and extensive existing ties to local communities, expertise in private health insurance market, experience in conducting public education and outreach activities, prior experience in working with individuals with limited English proficiency, individuals with disabilities and other vulnerable populations, or other populations underserved in the health insurance market. ASPIN currently has a talent pool consisting of 247 trained Certified Recovery Specialists, 35 of whom are veterans, located all over the different counties, including rural communities.

██████████ *CEO, ASPIN*

██████████ is responsible for managing the operations and overseeing all the projects and grants which total approximately \$13 million. She has overseen the Hoosier Assurance Plan which is the community Medicaid Plan for ASPIN for over 15 years. She sits on the state Medicaid Quality Assurance Committee. ██████████ brings ASPIN over twenty-five years of behavioral healthcare and training facilitation experience, working in both the for-profit and non-profit areas.

██████████ *IT Manager, ASPIN*

██████████ has over 15 years in the information technology field, focusing on ELearning technologies, working with learning management systems and content development. ██████████ has also been a technical trainer having held the Microsoft MCT and MCP certifications. ██████████ has developed numerous interactive websites for ASPIN for various projects. These sites contain such features as: event registration, calendars, feedback forms, online payment, photo galleries and forums. In addition to multifunction websites, ██████████ has deployed several custom

Learning Management Systems (LMS) for various ASPIN projects. [REDACTED] conducts technical training on topics such as Photoshop, Dreamweaver, Fireworks, Expression Web and Publisher.

[REDACTED] *Grant Coordinator, ASPIN*

[REDACTED] has practiced as a social worker for 22 years, working with vulnerable populations such as elderly, people with disabilities, low-income families, children and youth at risk. She has 16 years of experience in outreach and enrolling individuals onto Medicaid through the Home and Community Based Waivers. She has partnered with many community organizations, information and referral help lines to successfully outreach to isolated consumers. She has been an advocate for disadvantaged populations in helping access health and social services and has assisted many consumers with their grievances, complaints and appeals with formal organizations. She has experiences in recruiting, training and supervision of case managers to outreach and engage with historically underserved and vulnerable populations.

[REDACTED] *Accountant, ASPIN*

[REDACTED] brings to ASPIN over ten years of experience in analysis, budgets, forecasting, and financial reporting. She has over two years of experience in managing financial aspects of grants. Her background includes several years in managed care as well as experience in both the for-profit and not-for-profit sectors.

Applicant: Affiliated Service Providers of Indiana, Inc.
Application Number: NAV2013000056
Project Title Cooperative agreement to Support Navigators in federally-facilitated and State Partnership Exchanges.
Status: Review in Progress
Document Title: BudgetNarrativeAttachments-Attachments-1234-Budget Narrative and Budget.docx

Budget Narrative

Requested Budget funds of \$917,260 are to be expended by ASPIN. Ivy Tech and CHMC are contributing use of space, their existing communication channels and social media.

Personnel Costs, total \$527,520

a. Program Manager, Rate: \$15/hour, 100% FTE with benefits, total \$31,200

The Program Manager will provide overall direction and accountability for project. Responsible for meeting goals and assurances as outlined in proposal, staffing, adherence to budget and submission of quarterly reports to CMS.

Supervisors, Rate: \$12/ hour, 200% FTE with benefits, \$24,960 x2, total \$49,920

The 2 Supervisors at 100% FTE will be responsible for direct supervision of Navigators, and for manning the 1-800 centralized access lines. Responsibilities will include quality assurance, field visits and job coaching for Navigators.

b. Navigators, rate \$10/ hour, 37 positions for 48 weeks at 50% FTE(20 hours), Total \$400,800

Navigators will be responsible for outreach and enrolling individuals, families and businesses onto QHP from, with outreach to businesses starting Sept 1st, 2013 and enrollment and eligibility screening starting Sept 15th, 2013 till Aug 15th 2014 (50 weeks for businesses and 46 weeks for eligibility screenings for 46 weeks, using an average of 48 weeks). Navigators will be paid for 32 hours of training (30 hours through CMS and 2 additional hours for internal training specific to local conditions). They will be eligible for \$200 bonus pay per quarter if they successfully enroll and/or provide eligibility screening for 300 individuals/families per quarter.

c. Grant Coordinator, [REDACTED] \$15/hour at 50% FTE with benefits, total \$15,600

This position will be responsible for coordination of all activities related to the grant including communication with other departments, purchase of supplies and maintaining inventories.

IT Manager, Paul Conrad, total \$10,000

The IT Manager will build the website, set up of social media framework, and tracking and reporting mechanisms, ensure security and encryption. This positions supports website updates and maintenance in addition to IT support for navigators.

d. Accountant, [REDACTED] total \$10,000.

The accountant manages all accounting functions including accounts payable, accounts receivable and financial reporting.

e. CEO, [REDACTED] \$10,000

THE CEO supervises the Program Manager, Grant Coordinator, Accountant and IT Manager related to the grant project. This position communicates to Board of Directors and is responsible for reporting, conflict resolution and all other areas of project management.

Fringe Benefits, total \$48,360

Fringe benefits were calculated at fifty percent (50%) of full time personnel costs and include: health insurance, life insurance, flexible spending account, taxes, short term disability insurance, paid time off, holidays, Employee Assistance and unemployment insurance.

Travel, capped maximum of \$150 per person per month for 12 months, total \$72,000

Payment will be capped at \$150 per month per person. Starting September, navigators will outreach to businesses, and organizations.

Contractual costs, total \$76,080

- *Linguistic Translation and ASL translation via video conferencing, \$2000.* Indiana has a population consisting of 2% minority and 6% Hispanic
- *Entrance fee to events, \$10,000.* Events with heavy human traffic such as harvest festivals and county fairs have booth fees averaging \$100 per event. Averaging about 1 event per county at 92 counties, we will outreach at 100 such events.
- Phone contract service for 1-800 central access phone number $\$100 \times 12 \text{ months} = \$1,200$
- Monthly internet service for 40 devices $40 \times \$100 \text{ per month} \times 12 \text{ months} = \$48,000$
- Office 365 Home and Business Software licensing fees $40 \times \$220 = \$8,800$
- Cell phone plans for 3 Full time staff $3 \times \$30 \times 12 = \1080
- Advertisements in ethnic newspapers and newspapers for positions and events \$5000

Equipment, total \$169,350

40 Laptops with media cards, scanners and videos- $40 \times \$4000 = \$160,000$

- Dell Mobile Precision M 6700 costs \$3,379.50 (includes bio metric security and encryption)
- Fujitsu ScanSnap iX500 Scanner for PC costs \$426.98 each.
- Logitech HD Webcam C920 1080 widescreen Video Calling and Recording costs \$79.98
- Verizon Jetpack 4G LTE Mobile Hotspot MHS291L \$49.95 each.

Retractor banners- 37 at \$250 each plus \$100 set-up fees (one time only) = \$9350

Supplies \$13,750

Printing of flyers, business cards, posters and Postage \$13,250

Purchase of translation cards, posters and language identification cards \$500

Other costs \$10,200

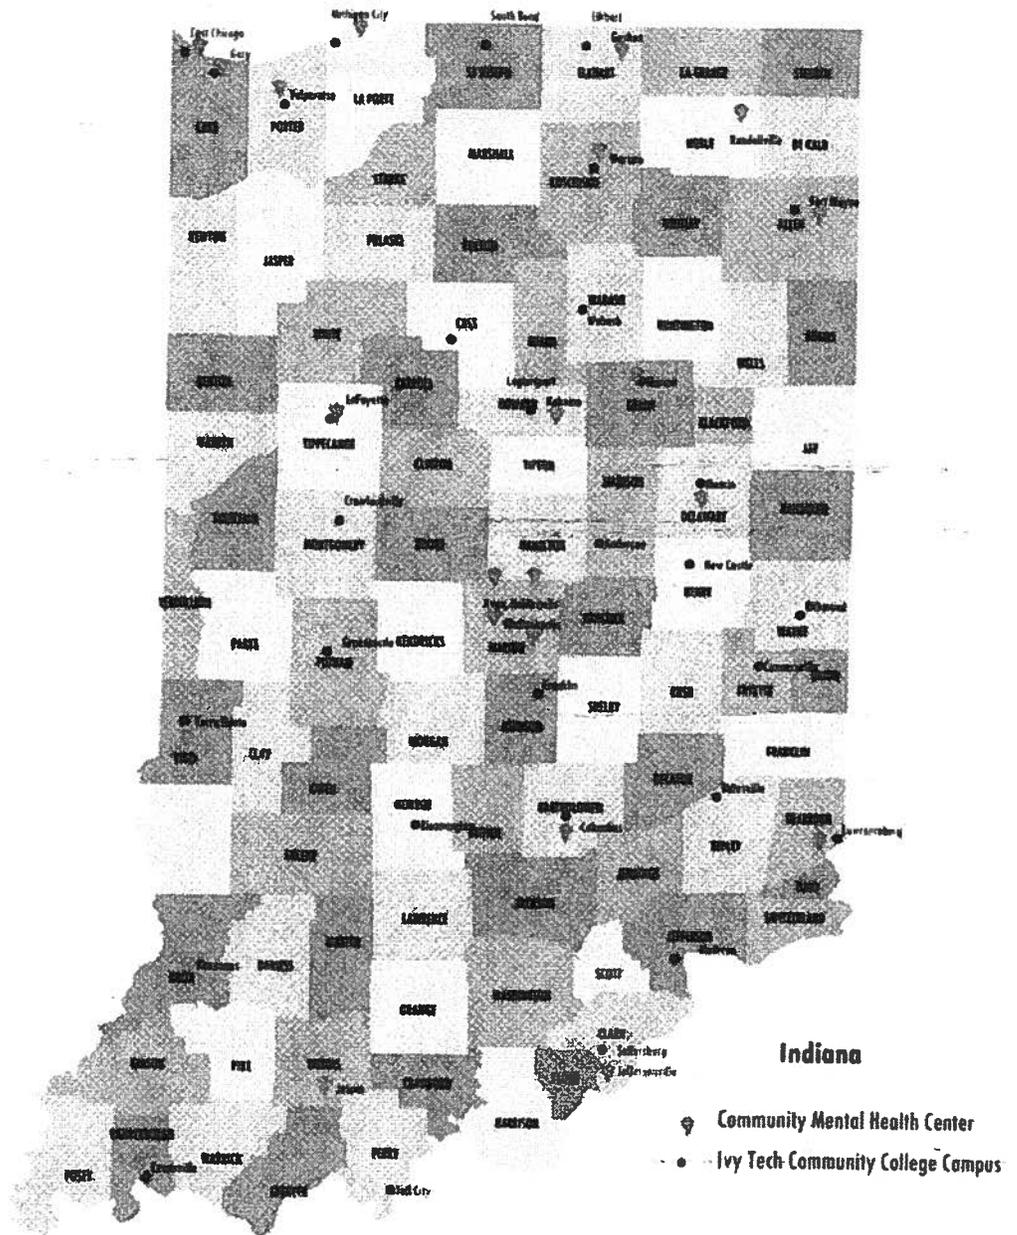

Token prizes for social media $\$100 \times 12 \text{ months} = \1200

Desk, chairs, phone and space usage for 3 full time staff $3 \times \$3000 = \9000
