Attachment—Additional Questions for the Record

The Honorable Renee Ellmers

1. Mr. Clark, given your experience in law enforcement and now at Pfizer, what additional tools could Congress and/or the Administration provide to help combat this threat to patient safety?
2. Mr. Clark, I have a Pfizer vaccine manufacturing facility in my district and as a former health care provider I recognize the importance of vaccination in preventing serious diseases for people in the US and abroad. Have Pfizer vaccines been counterfeited and if so how where is it happening? Are counterfeit vaccines making their way to the US?
3. Mr. Clark, Pfizer is located in Sanford, NC, which is in my district, and according to your testimony, Pfizer launched a robust Internet Program in 2006 to identify and disrupt rogue online pharmacies (OLPs) that dispensed counterfeit Pfizer medicines to unsuspecting patients. Can you update me on recent program activities and what you have been able to identify through this program since 2011?
