 Subject: Delta Ignition Samples with New PCB/Plunger

Hello Ray,

First of all I hope you had a happy holidays and wish you the best for
 this new year.

I just wanted to let you know that per our conversation in December, I sent
 you the 24 Delta Ignition switch samples for vehicle testing. I apologize
 I did not send a packing list or description in the box so they may have
 come as a surprise.

These switches contain the new PCB design and also the stronger Catera detent spring-plunger.

Please don't hesitate to call if you need more switches or if you need us to participate in the validation.
The FedEx tracking number is : 854271066655 and they were delivered this morning.

Thanks and we'll talk to you soon.

Regards,

Arturo Alcala
