Brian,
I mentioned a meeting that Kemp is setting up to kick off the Cobalt engineering effort.
I asked him to add your name - sorry that didn't happen. I believe we would clear our calendar for this meeting anyway.
As I see it, you will be the main presenter of facts.
Various sorts of debate will ensue, and that is the main purpose of the meeting - to settle the debate and get started.
I have some thoughts on what you should include in your slides. I'll send that to you this afternoon.
Doug

Hi Michelle

I need to schedule a meeting with the folks listed below. I'm going to start with Terry's calendar and work from there. Please offer some times for Terry for 30-60 minutes - face to face or Via phone- as soon as available. Please offer a few different times so that I canvass the group. Thanks!
